Learning aims

Expected results from this subject

Training and Learning Results

Learn the basics of Software Engineering and the different methodologies and standards.	A6 A11	B1
To identify the requirements and scope of an ICT project.	A6 A7	B1
Know how to plan and track a project TIC	A3 A5	B2
Develop skills of presentation and of work in team.	A1 A14	B5
Develop skills to adapt to new situations and problem solving, and independent learning.	A4 A11 A14	B5

Contents

Topic

Chapter 1. Strategic management in the Direction of projects

Chapter 2. Key appearances for the taking of strategic decisions in the company

Chapter 3. Management in situations of difficulty of the company.

(*)Tema 4. Negociación e administración dos contratos.

Planning

	Class hours	Hours outside the classroom	Total hours
Troubleshooting and / or exercises	10	0	10
Case studies / analysis of situations	10	2	12
Proceedings	2	2	4
Master Session	9	0	9
Jobs and projects	5	35	40

*The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

Methodologies

Description

Troubleshooting and / or Throughout the course exercises to be resolved individually by the student will be proposed. exercises

Case studies / analysis of situations Throughout the course problem situations to be analyzed and studied by the students to propose solutions to it are presented.

Proceedings Sharing and discussion by students and teacher work performed under the guidance of teachers.

Master Session Presentation by the teacher of the contents on the object field of study, theoretical and / or guidelines of work, exercise or project to be developed by the student.

Personalized attention

Methodologies	Description
Troubleshooting and / or exercises	The student will receive individual attention in tutoring schedule established for this purpose during the academic year. To read your tutoring schedule and place thereof should consult the web master: www.mdip.es

Assessment

	Description	Qualification
Troubleshooting and / or exercises	Analysis and resolution of problems proposed by the teacher	20
Jobs and projects	Preparation and delivery of work follow the indications of the teacher	80
