	Description
Outdoor study / field practices	*BALONMÁN: It exists the possibility to displace to sportive events of handball of at least two different categories for the observation in real time of the technical foundations-*tacticos of the handball by part of players/ace *federados/ace. The *alumnado will have to do the work requested in the *ficha designed to such effect with the *objetivod to purchase competitions of observation, register and systematic analysis of the game. Another of the exits could consist in the experimentation of a more recreational modality of the conventional handball (handball beach, etcetera) is specific spaces for his practice.
	Said exits are *supeditadas to to the approval by part of the *Xunta of Centre and be endowed economically to be able to realise the transfer through the "Announcement of Exits of annual" Field
Case studies / analysis of situations	HANDBALL: For the acquisition of competitions of the *profesorado in the design of progressions, didactic methodologies chords to the situation or case will propose different practical cases that wi require the taking of decision of the didactic elements more suitable to the same.
Laboratory practises	Activities of application of the knowledges to concrete situations and of basic skills and/or specific and *procedimentales related with the matter object of study. They will develop in special spaces with skilled equipment: pavilion of the Faculty (field of game of basketball and of handball), also will be able to use natural spaces adapted properly (beach, fields smaller, etc.).
Troubleshooting and / o exercises	or Activity in which they formulate problems and/or exercises related with the matter: for example,
CACICISCS	 The design and graphic representation of situations of game in function of some aims and didactic contents previously posed. The design of a practical session of 45 minutes with some aims and didactic contents of the concrete handball. The *alumnado will have to assign contents and didactic tasks for each one of the parts of the session.
	Will be able to request to the *alumnado that represent in the practices of laboratory the session like half of development of the specific didactic competitions of the basketball and/or handball that pretend develop in the *asignatura.
	It would be recommended, by not saying compulsory, at least a *tutoría in the schedule of the *profesorado, for the review of said session previously to the delivery and *impartición definite.
Master Session	Exhibition by part of the *profesorado of the *contidos on the matter object of study, theoretical bases and/or guidelines of a work, exercise or project to develop by the *alumnado.

Laboratory practises	s BASKETBALL: The assistance to the practical is compulsory. It allows 10% of faults. The *lesionados/have to collect them the session and deliver it. Value of the note in basketball = 10%. HANDBALL: The assistance to the practical is compulsory having to fulfil a minimum of 80%. That is to say, it has to obtain a minimum of 8 on 10 in the assistance. This is an indispensable requirement to be able to be evaluated in the part of "work or resolution of problems/exercises. In case of absence in some practice that wish to justify, has to present the pertinent documentation in a time limit of 15 days after dictates absence. They will not admit *justificantes afterwards of this period except permanent drop justified. Yes the final assistance does not arrive to 80% minimum, or the note of works/resolution of exercises, that depend on said assistance to the practices of laboratory was in insufficient values, will constitute proofs to value by the *profesorado but in no case will suppose that it consider the practical how realised.	14.75	B7 B10 B13 B15 B25	C1 C2 C3 C4 C6
