General description	This subject *encuadra wools comp with *patologías specific inside him				*cuidado the *personas

Competencies

Code

- A3 Students have the capacity to collect and interpret relevant data (normally within their area of study) to make judgments that include a reflection on relevant topics of social, scientific or ethical nature.
- A4 Students will be able to convey information, ideas, problems and solutions to specialist and non-specialist audiences
- A5 Students have developed those skills needed to undertake further studies with a high degree of autonomy.
- B7 To know how to understand, without prejudice, people, considering their physical, psychological and social aspects, as autonomous and independent individuals, ensuring respect for their views, beliefs and values, besides ensuring the right to privacy, through professional confidentiality and secrecy
- B8 To promote and respect the right of participation, information, autonomy and informed consent in assisted people decision making , in line with the way they live their health-disease process.
- C28 To know adult health alterations, identifying manifestations appearing in different phases
- C29 To identify care needs arising from health problems.
- C30 To analyze collected data in the assessment, prioritize the problems of the adult patient, establish and execute care plan and its assessment.
- C32 To select interventions to treat or prevent deviations from health-related problems.
- C33 To have cooperative attitude with the different members of the team.
- D1 Analysis and synthesis ability
- D2 Organization and planning ability
- D3 Information management ability.
- D4 Problem solving and decision making.
- D7 Critical reasoning.
- D8 Autonomous learning.

Learning outcomes				
Expected results from this subject	Training and Learning		arning	
	Results			
Be able of *diseñar the cares in the main illnesses related with the device *xeniturinario and	A4	В7	C28	D1
system *endocrino.	A5	В8	C29	D2
			C32	D3
			C33	D4
				D7
				D8

Be able to schedule and render cares in the main illnesses related with said device and system.	A3 A4 A5	В7	C28 C29 C30 C32 C33	D1 D2 D3 D4 D7 D8
Be able to render assistance centered in the patient, using the diagnostics of infirmary and the derivative activities of them, in the pathologies *estudiadas.	A4	B7 B8	C28 C29 C30 C32 C33	D1 D2 D3 D4 D7
Be able to apply the necessary cares stop the attention to the critical/patient person *incluido the donor potential of organs.	A3 A4	B7 B8	C28 C29 C30 C32 C33	D1 D2 D3 D4 D7
