

## IDENTIFYING DATA

### Analysis of Sports Performance

Subject	Analysis of Sports Performance			
Code	P02M156V01204			
Study programme	(*)Máster Universitario en Investigación en Actividade Física, Deporte e Saúde			
Descriptors	ECTS Credits	Choose	Year	Quadmester
	20	Optional	1st	2nd
Teaching language	Spanish Galician			
Department	Special Didactics			
Coordinator	García García, Óscar Gutierrez Santiago, Alfonso			
Lecturers	García García, Óscar Gutierrez Santiago, Alfonso Rey Eiras, Ezequiel			
E-mail	oscargarcia@uvigo.es ags@uvigo.es			
Web				
General description				

## Competencies

Code	
A2	The students known to apply the acquire knowledge and be able to solve problem in new environment or less known in wider contexts (or multidisciplinary) related with their study area.
A5	The students own the ability of learn to continuous studying, in wide range, on a self-directed and autonomous way.
B2	Be able to devise, design, put in to practice and adopt a research process rigorously academics in the physical activity, health and sports study ambit.
B4	Critically analyze, evaluate and synthesize new and complex ideas in the physical activity, health and sports study ambit.
C2	Develop scientific thoughts capacity to research in the physical activity, health and sports study ambit.
C4	Show link attitudes with excellence habits, ethical commitment and quality in the research exercise physical activity, health and sports study ambit
C5	Known and dominant the information search procedures and tools, both en primary and secondary sources in physical activity, health and sports.
C6	Be able to analyze organized, select, classify and compile information about physical activity, health and sports study ambit.
C7	Assess, manage and combine different techniques of physical activity, health and sports sciences research.
C9	Be able to design and implement a research work in the physical activity, health and sports study ambit.
C10	Manage software packages for the introduction and data analyze collected in the physical activity, health and sports study ambit.
C13	Execute the most used statistical analyzed technique of the physical activity, health and sports research.
C16	Be able to incorporated new technologies and integrate knowledge from other professional and scientific ambits.
C21	Develop on a efficient manner own task[s] of the design, implementation, analyzed and publish work related wit the sports performance ambit.
D1	Critically assess the knowledge, the technology and the available information to solve problems.
D2	Effectively communicate in academic and informative ambits ideas and concepts linked with the physical activity, health and sports studies.
D3	Be able to promote in academic and professional contexts activities to improve the technological advance, social and cultural, in physical activity, health and sports sciences field.

D4 Use basic tools of information and communication technologies (ICTs) needed for their profession exercise and for the lifelong learning.

### Learning outcomes

Expected results from this subject	Training and Learning Results			
The student will be able to realise an analysis of the sportive performance in a determinate sport, using like variables of study those that have showed to be determinated factors of the performance in this sport	A2 A5	B2	C2 C4 C5 C6 C7 C9 C16 C21	D1 D3 D4
The student will be able to interpret the results, giving felt to the most notable findings of his research, work and analysis of the data		B2 B4	C2 C10 C13	D1 D2 D3 D4

### Contents

Topic	
The scientific method in the analysis in the sports	Identification of factors of the performance Hierarchy of the factors of the performance
Designs of investigation for the analysis of the sports	Designs of investigation for the analysis of the sports of situation  Designs of investigation for the analysis of the sports bioenergetics
Implementation of a design for the analysis of one or several sports	Implement a design of investigation to analyse a concrete sport
Collected and processing of corresponding data to a design for the analysis of one or several sports	Collected and processing of corresponding data to a design for the analysis of the sport chosen
Oral communication and written of a design for the analysis of one or several sports	Oral communication and written of the design for the analysis of the sport chosen

### Planning

	Class hours	Hours outside the classroom	Total hours
Autonomous problem solving	0	100	100
Group tutoring	12	30	42
Seminars	12	30	42
Laboratory practices	70	150	220
Lecturing	6	25	31
Short answer tests	0.5	32	32.5
Essay	0.5	32	32.5

\*The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

### Methodologies

	Description
Autonomous problem solving	The student will resolve the tasks proposed by the educational
Group tutoring	Discussion in small groups on the contents of the matter
Seminars	They will treat specific subjects of form very concentrated
Laboratory practices	They will propose practices of laboratory
Lecturing	Theoretical classes-practical given by the educational

### Personalized attention

Methodologies	Description
Laboratory practices	Will resolve the doubts that can arise to the student on the use of different instruments, methods, designs, etc.

### Assessment

Description	Qualification	Training and Learning Results

Short answer tests	The proof will consist in answering to a battery of ten questions of short answer	25	A5	B4	C2 C4 C6 C7	D1
Essay	The work will consist in the design of a project of investigation related with the analysis of the performance in a determined sport. The student realized a theoretical positioning using the existent bibliography and from ahi developed the aims, hypothesis, and method of a possible design of investigation.	75	A2	B2 B4	C2 C4 C5 C6 C7 C9 C10 C13 C16 C21	D1 D2 D3 D4

### Other comments on the Evaluation

The student will have to surpass all the proofs of evaluation to be able to surpass the subject. In case of not having surpassed the \*asignatura in the first announcement, the no purchased competitions will be evaluated in the announcement of July. The evaluation in successive announcements will realise of the same forms that the posed initially with the two proofs. The official dates of the examinations can consult in the page web of the faculty of Sciences of the Education and of the Sport <http://fcced.uvigo.es>
