IT/the student of this course can fall in the temptation that it results donated to assimilated since all it in her treated sounds more or less next, well poles his previous knowledges, well pole informative treatment of the media of the country that include always any of the elements included in the program. It Would be, in the senior part of the cases, a gross error that be advisable avoid. No it think neither that it can have overlap of contents with any already studied subject in the Degree; it is not like this because the Political Science is the science of the realism and, therefore, go more there of the appearances or of the illusory normative laws since it can show how behind one beautiful juridical frame, even constitutional, can rule the corruption, the nepotism or the mere unfulfilment. This is the reason because you put that our objectives are very ambitious: because they aspire to explain how works in the reality our political model in the four parts in that comes divided the subject.
