*The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

Methodologies	
	Description
Lecturing	Explanation of the main contents of the course.

Laboratory practices Application to specific problems of the knowledge acquired in theoretical classes.

Personalized attention

Tests	Description
Objective questions exam	The students will have occasion of acudir to tutorías in the dispatch of the professor in the time that the professors will establish to such effect to principle of course and that will publish in the platform of teledocencia Fatic. These tutorías are destinadas to resolve doubts and orientar to the students on the development of the contents abordados in the theoretical kinds, the practical kinds and the works that can them encomendar. In this apartado also includes the aclaración to the students of any question on the proofs realized along the course.

Assessment

Description	Qualification	Training and Learning Results
Laboratory practices	0	B9 C6 D1 D2 D7 D18
Objective questions exam	100	B9 C6 D1 D2

Other comments on the Evaluation

1. Ethical commitment

expect that the present student an ethical behaviour felicitous. In the case to detect a no ethical behaviour (copy, plagio, utilization of electronic devices no authorized, for example) will consider that the student does not gather the necessary requirements to surpass the subject. In this case, the global qualification in the present academic course will be of suspenso (0,0).

2. System of continuous evaluation

Following the proper guidelines of the titulación and the agreements of the academic commission will offer to the/the students/ace that cursen this subject a system of continuous evaluation.

The continuous evaluation will feature of two test type test that will realize along the course. Each one of them test type test versará on the contents seen until the moment of his realization, so much in kinds of theory and of practices. Therefore, the first proof will not free subject of face to the realization of the second proof. Because of this, each one of these proofs will have a distinct weight in the calculation of the qualification obtained in the asignatura. The first a 30% and the second a 70%.

These proofs are not recoverable, is to say, if a/to student/to can not realize them in the date stipulated, the/the professor/to does not have obligation to repeat them, except cause justified and properly accredited by the/the student/to.

The/the student/to has right to know the qualification obtained in each proof in a reasonable term after his realization and comment with the/the professor/to the result.

It will understand that the/the student/to has surpassed the continuous evaluation when they fulfil all the following requirements:

1. It have developed properly 75% of the practices of the asignatura.
2. It have obtained , at least, a qualification of 5 on 10 (Approved) in the last proof type test (that versará on all the contents seen in the asignatura).
3. The average ponderada of the qualifications obtained in them test type test was like minimum of 5 on 10 (Approved), being this the qualification obtained in the asignatura.

So that the/the student/to can present to the proofs of evaluation indicated in this point, will be precise that this/to fulfil the first requirement expressed in the previous paragraph.

It will understand that a student/to has opted by the continuous evaluation when, fulfilling with the necessary requirements regarding the realization of the practices, takes part in the second proof type test.

The qualification obtained in them test type test and in the practices only will be valid for the academic course in which realize .

3. Students/ace that do not opt by the continuous evaluation

To the students/ace that do not opt by the continuous evaluation will offer them a procedure of evaluation that allow them achieve the maximum qualification. This procedure will consist in a final examination (cuya date is fixed by the Direction of the Centre), in which will evaluate all the contents developed in the asignatura, so much in the kinds of theory and in the kinds of practices. This final examination will feature of two parts: a proof of theory in format type test, that will suppose 30% of the final note, and another of practice, that will suppose 70% restante, and that will consist in a series of exercises to develop. It is indispensable condition to surpass the asignatura obtain in it tests type test a minimum punctuation of 5 on 10 (Approved).

Only will have the consideration of "No presented" that/ace students/ace that do not realize none of the proofs of evaluation collected in this guide docente. In concrete, for that/ace students/ace that realize the first tests type test but afterwards do not realize the second proof type test and neither present to the final examination, his qualification in the asignatura will be the note obtained in the first tests type test evaluated on 3.

4. On the announcement of July

The announcement of recovery (July) will consist in a final examination that will suppose 100% of the final qualification and in which will evaluate all the contents developed in the asignatura, so much in the kinds of theory and in the kinds of practices. Said examination will feature of two parts: a proof of theory in format type test, that will suppose 30% of the final note, and another of practice, that will suppose 70% restante, and that will consist in a series of exercises to develop. It is indispensable condition to surpass the asignatura obtain in it tests type test a minimum punctuation of 5 on 10 (Approved).

5. Prohibition of use of electronic devices

will not allow the utilization of any electronic device during the proofs of evaluation, except autorización expresas. The fact to enter an electronic device no authorized in the classroom of examination, will be considered reason of no superación of the asignatura in the present academic course and the global qualification will be of suspenso (0,0).
