Systematic observation	Attentive, planned and systematic record to describe the student's behavior	10	A4	C5 D1

Other comments on the Evaluation

Continual evaluation through the following of lectures, tutorials and works done over the course.

Global evaluation of the process of learning and acquisition of competences and knowledges through the specified methodologies including an in-person test.

Evaluation based on the active participation of the student and on the submit of the works and exercises that had been required over the course.

The second call will consist on a written exam. The presentation of a work previously agreed with the professor could also be valued.

Numeric score from 0 to 10 according to the current legislation (RD 1125/2003).

Advertising writing and voice-over/P04G190V01404

Other comments

"Advertising language in Galician" must be appealing if you have the will to use Galician in your professional future.

Contingency plan

Description

=== EXCEPTIONAL PLANNING ===

Given the uncertain and unpredictable evolution of the health alert caused by COVID-19, the University of Vigo establishes an extraordinary planning that will be activated when the administrations and the institution itself determine it, considering safety, health and responsibility criteria both in distance and blended learning. These already planned measures guarantee, at the required time, the development of teaching in a more agile and effective way, as it is known in advance (or well in advance) by the students and teachers through the standardized tool.

=== ADAPTATION OF METHODOLOGIES ===

* Teaching methodologies

In the case that face-to-face teaching cannot be effective, the teaching activity will be carried out through the Campus Remoto platform and the use of the Fatic teleteaching platform.

* Non-contact mechanism for personalized attention of students (tutorials)

In the event that there is no face-to-face teaching, the tutoring sessions will be carried out by telematic means (virtual e-mail tutorials, online videoconference, Fatic forums...) with prior agreement depending on the modality.

=== ADAPTATION OF THE EVALUATION ===

In case there is no face-to-face teaching or it is necessary to simplify the evaluation without final exams, the course work (with the presentation) would be equivalent to 50% of the final qualification and the practical activities uploaded (exercises) would be the equivalent of the other 50%.
