Learning outcomes

Expected results from this subject	Training and Learning Results			
Know the main sources of the internal maritime Right and international.	A2	B1	C54	D3
	A3	B2	C55	D5
	A4	B4		
	A5			
Know the main institutions of the maritime sector.	A2	B4	C54	
	A3		C55	
	A4			
	A5			

Handle the main uniform forms existent in the maritime transport.	C54	D3
	C55	D5
Handle skilled documentation of the sector.	C55	D3
		D5

Contents

Topic	
BLOCK I: CONCEPT AND SOURCES	<p>LESSON 1: Sources and concept of Maritime Law</p> <p>I.- Sources</p> <p>2.- International normative body</p> <p>1) Producing organisations and promoters of maritime legislation</p> <p>2) Problems of applicability of the international rule</p> <p>II.- Concept of Maritime Law</p>
BLOCK II: ORGANISATION OF NAVIGATION	<p>LESSON 2: Spaces of the navigation</p> <p>I.- Introduction: the navigation in the Right of the Sea</p> <p>II.- Navigation by the different spaces</p> <p>1.- Internal waters 2.- Territorial sea 3.- International straits 4.- Contiguous zone 5.- Exclusive economic zone 6.- Continental platform 7.- Archipelagic waters 8.- High Sea.</p> <p>LESSON 3: Administrative ordenation of the navigation.</p> <p>I.- Maritime administration</p> <p>1.- Central administration 1) central Organs 2) peripheral Organs</p> <p>2.- Autonomic administration</p> <p>II.- Administrative diet of the navigation 1.- Supposed special of navigation</p> <p>2.- Scale in ports 3.- Intervention on ships</p>
BLOCK III: SUBJECTS OF NAVIGATION	<p>LESSON 4: The Shipowner</p> <p>I.- Concepts of shipowner and of owner of ship.</p> <p>II.- Legal regime of the shipowner.</p> <p>III.- Advertising of the shipowner</p> <p>1) Advertising in the merchant register 2) Advertising in the Register of companies shipowners.</p> <p>IV.- The limitation of responsibility of the shipowner.</p> <p>LESSON 5: Auxiliaries of shipowner.</p> <p>I.- Introduction</p> <p>II.- Auxiliaries and agents in earth</p> <p>1) Managing of the shipowner 2) Ship Agent of the ship 3) The forwarder</p> <p>III.- Auxiliari and agents on board</p> <p>1) Crew 2) The captain 3) Other subjects</p> <p>IV.- Brokers.</p>
BLOCK IV: THE SHIP	<p>LESSON 6: The Ship</p> <p>I.- Basic concepts and juridical nature</p> <p>II.- Register and nationality of the ship.</p> <p>III.- The property of the ship: ways of acquisition of the property</p> <p>1) Introduction: ways of acquisition of personal right and of acquisition of public right 2) The contract of construction of ship 3) The contract of purchase sale of ship</p> <p>IV.- The privileged maritime credits and ship mortgages.</p> <p>LESSON 7: Contract of utilisation of the ship.</p> <p>I.- Charter parties</p> <p>1) Introduction: line tramp and line regulate 2) Modalities of charters 1.- The bareboat charter 2.- The time charter 3.- The voyage charter 4.- The VCOA 3) Modalities of contracts in regular line: the BL transport regime</p> <p>II.- The contract of transport of persons.</p> <p>III.- The Tow agreement</p> <p>IV.- Other contractual modalities</p>

BLOCK V: ACCIDENTS OF NAVIGATION AND MARINE INSURANCE

LESSON 8: The accidents and extraordinary events in the navigation
 I.- The averages
 1) Concept and classes 2) The General Average 3) The particular average
 II.- Collision
 1) Legislation and concept 2) Civil Responsibility 3) The fault in collisions
 4) Responsible subject
 III.- Assistance and maritime rescue
 IV.- The tow extraordinary in the sea
 V.- The findings and maritime extractions

LESSON 9: The maritime insurance
 I.- Introduction to the safe and to the insurance markets
 II.- The contract of maritime insurance
 1) Concept 2) Characteristic 3) Regulation 4) Classes 5) personal Elements
 6) formal Elements 7) Interests ensured 8) The risk ensured 9) Duties of the parts
 III.- The coinsurance
 IV.- The reinsurance
 V.- The Clubs of Protection and indemnization.
 1) Concept 2) Origin 3) Function.

BLOCK VI: MARITIME PROCESSES

LESSON 10: Maritime Processes.
 I.- Ship arrest
 1) preventive arrest of the ship 2) the executive arrest of the ship
 II.- The maritime arbitration
 III.- Other procedural specialitys

Planning

	Class hours	Hours outside the classroom	Total hours
Case studies	13	15	28
Lecturing	36	35	71
Problem and/or exercise solving	1	33	34

*The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

Methodologies

	Description
Case studies	Alternating with the theory lessons will take practical cases that they will be resolved in group in schedule of class using the documentation delivered by the educational.
Lecturing	It will present a work in group in a session of seminar to celebrate in the last part of the course They will consist in an explanation of the subjects proposed (see section contained). To 2 days before of the lesson, students will have in the Fatic online Platform an scheme of the lesson that goes to explain in the session. It is important take this scheme to the class.

Personalized assistance

Methodologies Description

Lecturing	Tutorials in hours published in the page web of the Faculty. Personalised attention during the celebration of lessons
Case studies	Tutorials in hours published in the page web of the Faculty. Personalised attention during the celebration of the practices/seminars

Assessment

	Description	Qualification	Training and Learning Results		
Case studies	Along the course will realise sessions of practical character and a seminar work will be presented. The assistance and active participation in the same will be valued, at most, with 4 points.	40	A2 A3 A4 A5	C54 C55	D5
Problem and/or exercise solving	At the end of the course will do an examination on the theoretical content and, eventually , on the practices realised in class. The maximum note of the examination will be of 6 points.	60	A2 A3 A4 A5	C54 C55	D5

Other comments on the Evaluation

1.- The marks of the continuous evaluation will maintain until the announcement of July of the following academic course - even in an eventual participation in the announcement of end of career-. 2.- So that the examination do average will be necessary to reach an upper note to 2 points. 3.- The students that do not participate in any activity of the continuous evaluation will be evaluated on 10 points in a final examination of theoretical and practical character . 4.- Date examinations: consult official calendar of examinations of the Faculty.

Contingency plan

Description

=== EXCEPTIONAL PLANNING ===

Given the uncertain and unpredictable evolution of the health alert caused by COVID-19, the University of Vigo establishes an extraordinary planning that will be activated when the administrations and the institution itself determine it, considering safety, health and responsibility criteria both in distance and blended learning. These already planned measures guarantee, at the required time, the development of teaching in a more agile and effective way, as it is known in advance (or well in advance) by the students and teachers through the standardized tool.

=== ADAPTATION OF THE METHODOLOGIES ===

* Teaching methodologies that are maintained

All teaching activities (master classes, practice of solving exercises, preparation of works ...) will be maintained through the combined use of FaiTic and Remote Campus.

* Teaching methodologies that are modified

The methodologies will not be modified.

* Non-attendance mechanism for student attention (tutorials)

Personalized attention will be made through the combined use of FaiTic (forums, commented correction of tasks ...) and the Remote Campus (personal and group tutorials).

* Modifications (if applicable) of the content to be taught

The contents will not be modified.

* Additional bibliography to facilitate self-learning

To facilitate online access to the bibliography, the teaching staff expanded the references to electronic and digitized resources as much as possible.

Students have at their disposal all or material prepared by the teacher and used in classes.

* Other modifications

No other modifications will be made.

=== ADAPTATION OF THE EVALUATION ===

The tests and percentages of evaluation of the subject are conserved. However, in the case of suspension of face-to-face classes and closure of the University Center and Libraries, the final exam will be replaced by the delivery of a paper, the characteristics of which will be defined at the time such eventuality takes place.

* Additional Information

The exams will be carried out through the Remote Campus classrooms and through FaiTic activities, tools and resources. When it is necessary to use specific materials to carry out the tests, they can be projected in the virtual classroom of the Remote Campus and / or downloaded through a task in FaiTic.

The delivery of the exams will also be carried out, whenever possible, through a task in FaiTic. If there are insurmountable technical problems, email or a photograph of the test sent through a mobile phone may be used as alternative routes.
