Universida_{de}Vigo

Subject Guide 2020 / 2021

IDENTIFYIN	G DATA				
Hydraulic to	urbomachines				
Subject	Hydraulic				
	turbomachines				
Code	V12G360V01504				
Study	Degree in				
programme	Industrial				
	Technologies				
	Engineering				
Descriptors	ECTS Credits		Choose	Year	Quadmester
	6		Mandatory	3rd	1st
Teaching					
language					
Department					
Coordinator	Gil Pereira, Christian				
Lecturers	Carrera Pérez, Gabriel				
	Gil Pereira, Christian				
E-mail	chgil@uvigo.es				
Web					
General	The *asignatura *Turbomáquinas	s Hydraulic describe	s the operation of t	the group of ma	achines that govern by
description	the principle of Euler (machines	*rotodinámicas). The	e knowledge of the	se machines pi	ovides the necessary
	basic principles to analyse the be	ehaviour of the same	e in any installatio	n in which they	find , as well as the basic
	principles for his design and *din	nensionado.			

Competencies

Code

B3 CG3 Knowledge in basic and technological subjects that will enable them to learn new methods and theories, and equip them with versatility to adapt to new situations.

C8 CE8 Knowledge of the basic principles of fluid mechanics and their application to solving problems in the field of engineering. Calculation of pipes, channels and fluid systems.

C25 CE25 Applied knowledge of the basics of fluidmechanics systems and machines.

D2 CT2 Problems resolution.

D9 CT9 Apply knowledge.

D10 CT10 Self learning and work.

Learning outcomes					
Expected results from this subject		Training and Learning Results			
\square Purchase skills on the process of *dimensionado of installations of pumping and machines of fluids	B3	C8 C25	D2 D9 D10		
To understand basic aspects of hydraulic machines	B3	C8 C25	D2 D9 D10		

Contents	
Торіс	
1 Introduction	1 Machines of Fluids. Classification
	2 *Turbomáquinas Hydraulic
	3 Applications to the Industry
	4Characteristic general
2 Transfer of Energy	1 Equation of conservation of the energy
	2 Application to *Turbomáquinas
	3 Adimensional parameters and coefficients of speed
	4Performances

3 Similarity and characteristic Curves	 1 Similarity in *turbomáquinas 2 Practical utilisation of the laws of similarity 3 Comparison between *turbomáquinas 4 Characteristic curves in hydraulic bombs 5. Characteristic curves in hydraulic turbines 6. Adimensional coefficients. Specific speed and specific power
4 Transfer of Work	 1 Fundamental equation of the *Turbomáquinas. Equation of Euler. Distinct expressions of the equation of Euler 2 One-dimensional ideal theory of *TMH 3 Two-dimensional ideal theory of *TMH 4 Real flow. Losses 5 *Cavitación In *TMH
5 Machines of fluids of despicable compressibility	 1Classification 2 Fans. Characteristic curves 3 *Aerogeneradores. Classification Theory of the disk actuator. Limit of *Betz basic Concepts of aerodynamic profiles Theory of the element of shovel Curves of power
6 Machines of positive trip and hydraulic transmissions	 Types and classification Alternative and rotatory bombs. Hydraulic engines of positive trip Transmissions and hydraulic attachments
Practices	 Introduction to the pneumatic systems: Description detailed of the pneumatic systems and his components. Basic circuits. Resolution of problems proposed Resolution problems of *TMH *Turbomáquinas Test characterisation turbine Francis A Resolution of problems of *MDP

Planning					
	Class hours	Hours outside the classroom	Total hours		
Lecturing	32	60	92		
Laboratory practical	6	7	13		
Problem solving	12	18	30		
Essay questions exam	3	0	3		
Problem and/or exercise solving	0	12	12		
*The information in the planning table is for	r guidance only and does no	t take into account the het	erogeneity of the students.		

Methodologies	
	Description
Lecturing	Exhibition of the theory
	*Traslación of technical problems to mathematical models.
Laboratory practical	Practices of pneumatic (see description in contents)
	Practices of *TH (see description in contents)
Problem solving	Technicians of design and calculation
	Presentation and interpretation of solutions.Practical cases

Personalized assistance			
Methodologies	Description		
Problem solving	The professors will attend personally the doubts and queries of the students, so much in the classes as in the *tutorías.		
Lecturing	The professors will attend personally the doubts and queries of the students, so much in the classes as in the *tutorías.		
Laboratory practica	I The professors will attend personally the doubts and queries of the students, so much in the classes as in the *tutorías.		

Assessment

	Description	Qualification	Training a	nd Learn	ing Results
Essay questions exam	Proof written that it will be able to consist of - theoretical Questions - practical Questions - Resolution of exercises/problems - Subject to develop	: 80	Β3	C8 C25	D2 D9 D10
Problem and/or exercise solving	Resolution of exercises proposed, including: -*Memoría/exercises proposed of practices	20	B3	C8 C25	D2 D9 D10

Other comments on the Evaluation

Continuous evaluation: it will have a final weight of 30% of the final note of the *asignatura. 20% will consist in the resolution of exercises proposed. 10% to the active assistance to classThe note of continuous evaluation will not save of a course for another neither for the announcement of Julio.Tofinal Examination of the *asignatura (first

announcement):&*nbsp;it will have a final weight of 70% of the final note of the *asignatura. It will consist, as it indicates in the previous section of&*nbsp;Proof written that it will be able to consist of: - theoretical Questions - practical Questions -Resolution of exercises/problems - Subject to develop so much of the classes of theory as of the classes of practices.Second announcement of Julio: it will consist in a final examination that represents 100% of the note of the *asignatura.Expects that the present student a suitable ethical behaviour. In

case to detect a no ethical behaviour (copy, plagiarism, utilisation of unauthorised

electronic devices, for example) will consider that the student does not gather the necessary requirements to surpass the matter. In this case the global

qualification in the present academic course will be of suspense (0.0).

It will not allow the utilisation of any electronic device during the *probas of

evaluation except permission expresses. The fact to enter an unauthorised

electronic device in the classroom of examination will be considered reason of no *superación of the matter in the present academic course and the global qualification will be

of suspense (0.0).

Recommendations

Subjects that it is recommended to have taken before

Physics: Physics 1/V12G360V01102 Physics: Physics 2/V12G360V01202 Mathematics: Calculus 2 and differential equations/V12G360V01204 Fluid mechanics/V12G360V01403

Other comments

To enrol in this matter is necessary to have surpassed or be enrolled of all the matters of the inferior courses to the course in which it finds this matter.

In case of discrepancies, will prevail the version in Spanish of this guide.

Contingency plan

Description

=== EXCEPTIONAL MEASURES SCHEDULED ===

In front of the uncertain and unpredictable evolution of the sanitary alert caused by the *COVID-19, the University of Vigo establishes an extraordinary planning that will activate in the moment in that the administrations and the own institution

determine it attending to criteria of security, health and responsibility, and guaranteeing the teaching in a no face-to-face stage or partially face-to-face. These already scheduled measures guarantee, in the moment that was prescriptive, the development of the teaching of a more agile and effective way when being known in advance (or with a wide *antelación) by the students and the *profesorado through the tool normalised and institutionalised of the educational guides.

=== ADAPTATION OF THE METHODOLOGIES ===

- * educational Methodologies that keep
- Lesson *magistral and Resolution of problems: they will make of telematic form
- * educational Methodologies that modify

- Practical of laboratory: they will substitute by videos and explanatory documents that will allow to complete the tasks proposed

- * Mechanism no face-to-face of attention to the students (*tutorías)
- The *tutorías will make through Remote Campus in the dispatch assigned
- * Other modifications
- === ADAPTATION OF THE EVALUATION ===
- * Test that they keep

- The proofs will make of telematic form keeping the contents, weights and criteria of evaluation
