These measures attend security, health, and responsibility criteria and guarantee the teaching in a non entirely on-site environment. These already scheduled measures ensure, at the prescriptive moment, a more flexible and effective educational development when being known beforehand by students and readers through the teaching normalized and institutionalized tool DOCNET.

=== METHODOLOGY ADAPTATION ===

No modifications in the teaching methodology are expected, except the online provision of the theoretical contents.

Electronic mail and remote campus will provide students' online attention mechanisms (tutoring) during the scheduled time.

=== EVALUATION ADAPTATION ===

No modifications are scheduled in the evaluation methods, apart from the possibility that any of the evaluation tasks may be required to be off-site.
