## Recommendations

### Other comments

The contents and the thematic of the matter essential require the handle of bibliography in English, French and Portuguese.

### BLENDING LEARNING

The face-to-face modality and blending learning of the Degree in Direction and Public Management, share a same plan of studies, whose matters (of 1ª to 4ª course) help to develop a learning of competitions based in the continuous evaluation.

## Contingency plan

### Description

Given the uncertain and unpredictable evolution of the health alert caused by COVID-19, the University of Vigo establishes extraordinary planning that will be activated when the administrations and the institution itself determine according to criteria of safety, health and responsibility, and guaranteeing teaching in a non face-to-face or partially face-to-face. These already planned measures guarantee, at the required time, the development of teaching in a more agile and effective way by being known in advance (or well in advance) by the students and teachers through the standardized and institutionalized tool of the teaching guides (DOCNET).

#### === ADAPTATION OF THE METHODOLOGIES ===

Modifications in the teaching methodologies are not contemplated with the only exception that the theoretical contents may be taught in a non-face-to-face way. The non-face-to-face mechanisms of attention to students (tutorials) will be the virtual office of the remote campus at the indicated time and email.

#### === ADAPTATION OF THE EVALUATION ===

Modifications in the evaluation systems are not contemplated beyond the possibility that some of the evaluation tests have to be carried out in a remote manner.
