| Assessment                 |  |    |                                      |
|----------------------------|--|----|--------------------------------------|
|                            | Description  |    | Training and<br>Learning<br>Results  |
| Problem solving            | Development of exercises, revision test, video viewing in the classroom, etc. Afttendance, participation and public presentations made will be also valued.  |    | A2 B2 C10 D1<br>A3 B3 D2<br>D3<br>D4 |
| Autonomous problem solving | Exercices that are implemented in practical classes and are developed independently by the student outside the classroom. The student must solve a series of exercises in the time and conditions established by the teacher. The total score for this section will be divided between class attendance and the total number of exercises that are proposed. These exercises must be uploaded to Moovi and the deadline will be determined by the teacher. Attendance at practices is compulsory, so in order to obtain the score for the work, a student must attend at least 80% of the sessions.  | 5  | A3 B3 C10 D1<br>C14 D2<br>D3<br>D4   |
| Mentored work              | The supervised work will be in a group and will consist of the development of a project that will be specified in the delivery of 5 tasks related to the development of a marketing plan of a company / product of the industrial sector proposed by the teacher.  The grade obtained by each student in this section will be the grade for the group work, but it may be modified by their participation both in the work and in the seminars.  Both the composition of the groups and the company will be determined in the first seminar session (according to the official calendar) under the supervision of the teacher.  Those students who do not attend the first seminar session will have until the second session to join a group, always after acceptance by the teacher.  Those students who arrive at this second session (according to the official calendar) are not included in any group will not have the right to carry out the work, not considering any compensatory activity in this case.  Attendance at the seminars is compulsory, so in order to obtain the work score a student must attend at least 80% of the sessions. |    | A3 B3 C10 D1<br>C14 D2<br>D3<br>D4   |
| Objective questions exam   | An exam (70%) aimed at checking the level of assimilation of the concepts developed in the subject. It is necessary to achieve a score of 3.5 points between both tests to pass the subject and add the score obtained in the rest of the evaluation methodologies.  | 70 | A3 B3 C10<br>C14                     |

# Other comments on the Evaluation

More information about evaluation is available in Moovi.

The system is a classroom-based training. Then, students have to assist to the theoretical and practical sessions in the schedule established by the centre.

The evaluation system has been designed around two elements:

- a) Practical. The qualification will be maximum 3 points.
- b) Theoretical. A written exam that it will realize in the official timetable. The maximum punctuation will be: 7 points.

In order to be able to pass the subject, it is required to obtain at least a qualification of 3,5 points in the evaluation of the theoretical part.

#### ANNOUNCEMENT OF IULIO / EXTRAORDINARY

- 1. The evaluation procedure in the second edition (July) is the same that in the first.
- 2. If the subject is not surpassed during the academic course, students will have to repeat the subject again according to the new guide criteria in the academic course in question. The qualifications will not be maintained.

#### Description

## === EXCEPTIONAL MEASURES SCHEDULED ===

In front of the uncertain evolution of the sanitary alert caused by the COVID-19, the University establishes an extraordinary planning that will activate when the administrations and the institution determine it according to criteria of security, health and responsibility, and ensuring the teaching in a stage no totally face-to-face. These already scheduled measures guarantee, when it was compulsory, the development of the teaching of a more agile and efficient form and has to be known of form anticipated by students and professors through the tool standardised and institutionalised of the didactic guides DOCNET.

### === ADAPTATION OF METHODOLOGIES ===

Do not contemplate modifications to the methodologies of education with the only exception that the theoretical contents can give of form no face-to-face.

The no face-to-face mechanisms for the attention to the student will be the professor virtual officer in the remote campus, in the schedule and email indicated by the same.

## === ADAPTATION OF THE EVALUATION ===

Do not contemplate modifications in the systems of evaluation further of the possibility that some of the proofs of evaluation have to make personally
