Skills

Code

- B3 CG3 Knowledge in basic and technological subjects that will enable them to learn new methods and theories, and equip them with versatility to adapt to new situations.
- C20 CE20 Applied knowledge of systems and manufacturing processes, metrology and quality control.
- D2 CT2 Problems resolution.
- D8 CT8 Decision making.
- D9 CT9 Apply knowledge.
- D10 CT10 Self learning and work.
- D17 CT17 Working as a team.
- D20 CT20 Ability to communicate with people not expert in the field.

Expected results from this subject	Training and Learning Results		
(*)	В3	C20	D2
			D8
			D9
			D10
			D17
			D20

Contents		
Topic		
Thematic block I: Integration of Design of prod	duct Chapter 0. Design of product and of process	
and manufacture.	chapter 1. Systems of manufacture.	
	Chapter 2. Technologies of additive manufacturing	
	Chapter 3. Design of product for manufacturing (DFMA)	
Thematic block II: Design and planning of processes of manufacture.	Chapter 4. Methodology of Design and Planning of processes of manufacture.	
	Chapter 5. Choosing of operations, tools, toolings and conditions of process.	
	chapter 6. Datums, fixturing and toolings.	
	Chapter 7. Technicians of improvement of design and processes.	

Thematic block III: Resources of the Systems of Manufacture.

Chapter 8. Machines tools with Numerical Controland components Chapter 9. Industrial robots and logistics devices. Systems of positioning, maintenance

Chapter 10. Systems of measurement and verification in lines of manufacture. Definition of control charts

Planning			
	Class hours	Hours outside the classroom	Total hours
Introductory activities	2	0	2
Problem solving	18	16	34
Laboratory practical	18	0	18
Mentored work	0	60	60
Lecturing	14	14	28
Objective questions exam	2	0	2
Essay	2	0	2
Essay questions exam	2	2	4

*The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

Mothodologica	
Methodologies	Description
Introductory activities	Introduction
Introductory activities	
	Objective
	theoretical topics
	practical topics
	Assestment
	Develop of projects. Desing and Develop
	Bibliographic Resources
Problem solving	Development of real practical cases and exercises on the following contents
	1. Distribution in plant
	2. Design of product / tooling
	3. Application *DFMA
	4. Application dimensional tolerances, geometrical and of superficial finishing
	5. Design of operations of manufacture.
	6. Conditions of process manufacturing.
	7. Calculus of speeds, feeds, strengths and powers in manufacture
	8. Procedures of measurement.
Laboratory practical	*P1-2 PLM. Design of product and of process.
	Platform CADCAM available (Catia, NX, Fusion) 2h +2h
	P3 Planning process of manufacturing.
	Design of Tooling for product 2h
	Design of Tooling for product 211
	P4 -5 -6 Programming assisted of machined tooling, CAM, (Catia, NX, Fusion, □) 6h
	P7 -8 -9 Supervsing works 6*h
Mentored work	Project (Work to make by student. It would correspond to Groups C of 5 students)
	Total 18*h
Lecturing	Synthetic teaching of the topics
	Proposition real cases and problems

Personalized assistance				
Methodologies	Description			
Mentored work	Attending Works and supervising projects (groups from among 3 and 5 people).			

Assessment					
-	Description		QualificationTraining and Learnin		
				Resu	ılts
Objective questions Examination with questions type test, in which the no hit answers		50	В3	C20	D2
exam	discount.				D8
	The test can comport questions of type problems and development.		_		D9

Essay	Development of project of course. It will evaluate , the capacity of work in team, creativity, autonomous work and in case of public presentation the capacity of communication and *sintesis.	50	C20	D2 D9 D10 D17 D20
Essay questions exam	Development of problems and or cases	50	C20	D2 D8 D9 D10

Other comments on the Evaluation

The evaluation consists of:

A.-) Examination of theorical questions : It's mandatory that students have a mark > 4 (0 to 10) to be able to make averarage with part B (Project or Examination of questions of development) Value 50%

Practical Part, The student has to choose between *B1 or *B2

B1.-)Project. Value 50%

B2.-)Examination of development questions: Consistent in problems and cases. Value 50%

The final mark is the average mark A + B, being B = B1 or B2

ethical Commitment: it expects that the present student a suitable ethical behaviour. In the case to detect a no ethical behaviour (copy, plagiarism, utilisation of unauthorised electronic devices, and others) will consider that the student does not gather the necessary requirements to surpass the matter. In this case the global qualification in the present academic course will be of suspense (0.0).

Recommendations

Subjects that it is recommended to have taken before

Fundamentals of manufacturing systems and technologies/V12G360V01402

Other comments

Requirements:

To enrol in this matter is necessary to have surpassed or be enrolled of all the matters of the inferior courses to the course in which it is situated this matter.

Contingency plan

Description

=== EXCEPTIONAL MEASURES PLANNED ===

Given the uncertain and unpredictable evolution of the health alert caused by COVID-19, the University of Vigo establishes extraordinary planning that will be activated at the time that the administrations and the institution itself determine it based on safety, health and responsibility criteria., and guaranteeing teaching in a non-classroom or partially classroom setting. These already planned measures guarantee, at the required time, the development of teaching in a more agile and effective way by being known in advance (or well in advance) by students and teachers through the standardized tool and institutionalized teaching guides.

=== ADAPTATION OF THE METHODOLOGIES ===

* Teaching methodologies that are maintained

All. With the exception of the realization that will be carried out remotely

* Non-face-to-face service mechanism for students (tutorials)

Through virtual dispatch on remote campus

* Additional bibliography to facilitate self-learning

Documents or links to necessary educational resources will be published in faitic

=== ADAPTATION OF THE EVALUATION ===

They are all kept with the same weight and value

* Pending tests that are maintained

They will be carried out electronically through faitic keeping the same weight and value

^{*} Tests already carried out
