Methodologies

	Description
Practicum, External practices and clinical practices	The student makes his external practices in the company or institution assigned by the organisation of the Máster, through an agreement of collaboration signed by the company and the University of Vigo.

Personalized assistance

Methodologies	Description
Practicum, External practices and clinical practices	Derivative doubts of the management of the practice or on any incidence associated to the same.
Tests	Description
Report of practices, practicum and external practices	Attention to derivative doubts of the realisation of the memories.

Assessment

	Description	Qualification	Training and Learning Results
Report of practices, practicum and external practices	The student has to elaborate a memory of practices, following the indications of the professors of the matter. In the evaluation will take into account the structure of the memory, to technical and formal correction, and the personal contribution of the student in the application of the knowledges purchased in the remaining matters. The report has to include the evaluation made by the manager in the company of practices, that will influence in the final qualification. The document of evaluation is the D5 and it will correspond the 40% of the final note.	100	B1 C25 D1 B5 D2 B6 D3

Other comments on the Evaluation

It is necessary that those students that deserve to make practices to deliver their Curriculum Vitae when the responsible claim for it. It is important to attend this requirement because it does exist a dependency of third parts. If the student doubts between realizing the practices or using his/her professional experience, the deadline for this decision is the month of March. The managers of the master require time to find a collaborator.

The students willing to use the professional experience to compensate the 180 hours of practices, have to justify their experience by means of a writing of a manager in the organization in which works explaining that this experience is related to the international trade. Likewise has to deliver the final memory that will be the element used to zone the subject.

In the second announcement will use the same criteria of evaluation that in the first.
