Methodologies	
	Description
Lecturing	Exhibition by part of the professor of the contents on the matter object of study, theoretical bases and/or guidelines of a work, exercise or project to develop by the student.

Problem solving	Activity in which they formulate problem and/or exercises related with the *asignatura. The student has to develop the suitable or correct solutions by means of the *ejercitación of routines, the application of formulas or algorithms, the application of procedures of transformation of the available information and the interpretation of the results. It is used to use as I complement of the lesson *magistral.
Case studies	Analysis of a fact, problem or real event with the purpose to know it, interpret it, resolve it, generate hypothesis, contrast data, *reflexionar, complete knowledges, diagnose it and train in alternative procedures of solution.
Mentored work	(*)Desarrollo de un trabajo propuesto por el profesor, relacionado con los contenidos.

## Personalized assistance

#### **Methodologies Description**

Problem solving THE student will receive attention \*individualizada in the schedule of \*tutorías established to such end during the present academic course. For the query of his schedule of \*tutorías and place of the same \*deberase consult to web \*do \*máster: www.mdip.es. Besides it will be able to realise queries via email.
