$P1(20\%) + P2(20\%) + P3(20\%) + P4(20\%) + A1(20\%) = 100\%$ of the grade

SECOND CHANCE. BRIEF DESCRIPTION

Students who follow the continuous evaluation must pass in a second opportunity any methodologies or tests that were not passed in the first attempt.

To coordinate the second chance, students must contact the responsible teacher, who will establish the relevant tests either through Moovi or in person, on the date established and approved by the Faculty Board.

The second chance conditions described here apply to all subsequent opportunities.

GUIDELINES ON THE GLOBAL EVALUATION SYSTEM

The default evaluation system at the University of Vigo is the continuous evaluation system. Students who choose the global evaluation system must follow the following guidelines.

Mandatory formal guidelines prior to evaluation:

Students must inform the teacher of their explicit renunciation of the continuous evaluation system within the deadline established by the institution, attaching the duly completed and signed document provided for this purpose.

Guidelines on the evaluation day:

The global evaluation test will be conducted on the date and at the times set by the institution in the official examination calendar, and it will systematically assess all methodologies and tests established in the course guide. Students must pass each and every evaluation test, obtaining a minimum score of 5 points in each of them.

Practices and Weighting Percentage

P1. Practice 1. Weighting: 25% of the total grade. Information regarding the tasks to be performed, their format, length, evaluation rubric, and submission channels will be explained in person in the classroom and/or through the Moovi platform.

P2. Practice 2. Weighting: 25% of the total grade. Information regarding the tasks to be performed, their format, length, evaluation rubric, and submission channels will be explained in person in the classroom and/or through the Moovi platform.

Information about evaluation tests, their format, length, evaluation rubric, and submission channels will be provided in detail through the Moovi platform. It is the student's responsibility to pay attention to the uploaded information and collect the specific and complementary information required to pass the subject.

Other aspects to consider

This subject is taught in face-to-face mode, so it is the students' duty to attend the teaching sessions according to the schedule established by the institution.

As mentioned when explaining the continuous evaluation system, attendance will be taken in all sessions (attendance sheet

indicating name, ID, and signature).

This regulation applies to all enrolled students in this subject WITHOUT EXCEPTION.

The course guide presents the general outline of the subject. Due to space limitations and the impossibility of uploading additional documentation on the Docnet platform, more specific details regarding the global evaluation system will be managed through the Moovi platform in due time.

For everything not explicitly contemplated and/or detailed in this guide, the instructions of the "Regulamento sobre a avaliación, a calificación e a calidade da docencia e do proceso de aprendizaxe do estudiantado" (Approved by the Board on April 18, 2023) will be taken as reference.
