Methodologies

	Description
Lecturing	Exhibition of the thematic content of the different headings referenced in the contents of the subject. The teacher will use as support the audiovisual media available in the classroom. The active participation of students in class and the demonstration of the acquired knowledge will be taken into account, which will also be evaluated through tests.
Problem solving	Analysis, reflection and presentation of issues that have to do with the main problems raised in the theoretical classes carried out through the master class. The students will have at their disposal the assistance in class of the teacher to facilitate the performance of this activity. Some of these practices can be carried out through the system of "elaboration of works through the system of Project-Based Learning" (PBL) entrusted by the teaching staff on topics related to the subject and aimed at improving the understanding of the contents and competences related to cooperation, leadership, communication and strengthening of personal relationships.
Case studies	Study, analysis, reflection and presentation of cases and supervised work on the issues dealt with in the matter. The teaching staff will assist the students in those questions and doubts raised (in class and through personalized tutoring) for their elaboration.

The realization and evaluation of this test can be carried out through the ApS methodology, in accordance with the guidelines approved by the Area of Social Responsibility and Cooperation and through the Faculty's Teaching Innovation Project (all the information on this way of overcoming the case studies will be clearly available to students).

The choice between carrying out the Case Studies through works, or carrying them out by the methodologies of (ApS and Innovation Project) will be voluntary by the students, who will be duly informed from the beginning of the teaching of the subject about both modalities, its realization and evaluation. The teacher will also publish this detailed information in the space reserved for the subject in Moovi.

Personalized assistance

Methodologies Description

Lecturing	The teaching staff will solve all the questions and doubts of the students in the class where the teaching is carried out (especially when the teaching is face-to-face), and also the students (face-to-face / virtual) will have access to the teacher through face-to-face and / or virtual tutoring, and / or email, and / or telephone, and / or Moovi mail. Therefore, the teacher will solve all the doubts of the students in relation to any aspect of the subject (content, work or practices), as well as attention to their needs and queries related to the study and / or topics related to the discipline, providing guidance, support and motivation in the learning process. This activity will be developed in person or not face-to-face (through the methodologies indicated).

Resolution of practical cases (PRACTICES). The students will have at their disposal the assistance of the teacher to facilitate the development of this activity.

Analysis, reflection and presentation of issues that have to do with the main problems raised in the theoretical classes carried out through the master class. The students will have at their disposal the assistance in class of the teacher to facilitate the performance of this activity. Some of these practices can be carried out through the system of "elaboration of works through the system of Project-Based Learning" (PBL) entrusted by the teaching staff on topics related to the subject and aimed at improving the understanding of the contents and competences related to cooperation, leadership, communication and strengthening of personal relationships.

(CASE STUDIES). Study, analysis, reflection and presentation of cases and supervised work on the issues dealt with in the matter. The teaching staff will assist the students in those questions and doubts raised (in class and through personalized tutoring) for their elaboration.

The realization and evaluation of this test can be carried out through the ApS methodology, in accordance with the guidelines approved by the Area of Social Responsibility and Cooperation and through the Faculty's Teaching Innovation Project (all the information on this way of overcoming the case studies will be clearly available to students).

The choice between carrying out the Case Studies through works, or carrying them out by the methodologies of (ApS and Innovation Project) will be voluntary by the students, who will be duly informed from the beginning of the teaching of the subject about both modalities, its realization and evaluation. The teacher will also publish this detailed information in the space reserved for the subject in Moovi.

ApS is an EXPERIENTIAL LEARNING (connecting with various groups through one or several public entities), preparing students for global citizenship and social responsibility in an interconnected, "glocal" world, especially in THEMES ALIGNED WITH THE SDGS OF THE 2030 AGENDA: protection of cultural heritage; equality and non-discrimination; protection of the environment; food security (sustainable and resilient agricultural practices and genetic diversity); circular economy; global food waste; energy and renewable problems; new technologies and the effect on fundamental rights. The TEACHING INNOVATION PROJECT will also be aligned to these themes of the subject.

Other comments on the Evaluation

The information about the evaluation activities is available in the space of the subject in the virtual campus, under the label

Evaluation of each topic.

It is an essential condition for the completion of the final evaluation of the subject, obtaining at least 0.5% in each of the sections (Test type tests, Practices and Case studies).

As expressed in previous sections, throughout the course there will be 3 tests with a weighting or value of the Tests = Test Type Tests (40%) + Practices (Problem Solving) (30%) + Case Studies (30%). In the ordinary call and in the extraordinary call, a period will be opened so that students can undergo these tests through continuous evaluation, prior to the official date established by the Faculty for the "final exam". In this way there is the possibility of carrying out the evaluation (continuous and / or global evaluation) in the ordinary call and in the extraordinary call.

In the extraordinary call (June / July) the same criteria indicated for the ordinary call or first call will be applied, except in relation to the PBL, ApS and Innovation Project methodologies of the Faculty, which must be carried out in the 1st call or ordinary call (from September to December). Students will have the option to apply for the extraordinary call (second call) from the adaptation of these activities made by the teacher and whose content will be posted on the platform.

This subject is English Friendly, which implies the following commitment: The subject is taught in Spanish but the teacher has translated the teaching guide into English; Materials and bibliographic references will be provided for the follow-up of the subject in English, tutorials will be attended in English, if the international student demands it, and tests and evaluations will be designed and implemented in English (all this will be done if the international student demands it).

It will be a necessary requirement for the development of the subject that the teaching staff can have an updated PHOTOGRAPH* of the students that must be uploaded to the platform at the beginning of the course, and always before September 30.
