General description	Basic notions of statistics are provided for their application in management and public administration. International students may request from the readers: a) materials and bibliographic references in English, b) tutoring sessions in English, c) exams and assessments in English.				

Training and Learning Results

Code	
A1	Students will have shown they have sufficient knowledge and understanding of an area of study, starting after completion of general secondary education, and normally reaching a level of proficiency that, being mostly based on advanced textbooks, will also include familiarity with some cutting-edge developments within the relevant field of study.
A2	Students will be able to apply their knowledge and skills in their professional practice or vocation and they will show they have the required expertise through the construction and discussion of arguments and the resolution of problems within the relevant area of study.
A3	Students will be able to gather and interpret relevant data (normally within their field of study) that will allow them to have a reflection-based considered opinion on important issues of social, scientific and ethical nature.
A4	Students will be able to present information, ideas, problems and solutions both to specialist and non-specialist audiences.
A5	Students will acquire the learning skills that are required to pursue further studies with a high degree of independence.
B1	Analysis, synthesis, problem-solving, decision-making, information- and time-management skills.
B2	Organizing and planning their own professional careers in the best possible way.
B4	Commitment to ethical values and public service vocation.
B5	Critical thinking skills.
B6	To put their knowledge on public management and administration into practice.
C5	To describe the structure, organization and functioning of multi-level Public Administrations, analyzing their relationship with the citizenry.
C12	To analyze international politics and/or the structure and functioning of the European Union.
C13	To apply the social policies and research methods and techniques and to be able to use quantitative and qualitative research methods.
C14	Ability to use the information and communication technologies (ICT) that can be applied in public management.
D2	To be able to communicate, both orally and in writing, in the two official languages (Spanish and Galician) and in a foreign language.
D3	Raising awareness about environmental issues.
D4	To master the specific ICT techniques in their respective academic and professional fields.
D5	To acquire independent learning skills.
D6	To acquire independent learning skills.

Contents

Topic	
Chapter 1. Basic concepts in Statistics	Population, sample data, types of data. Tables. Graphical representation.
Chapter 2. Univariate analysis	Tendency, dispersion and shape of a single variable.
Chapter 3: Bivariate analysis	Contingency tables, graphical representation via scatterplots and grouped bar charts. Correlation and association.
Chapter 4: Public statistics	Organisation of the statistical activity in the administrations: local (Galicia), national (Spain) and international (Europe). Legislation. Access and basic manipulation of official database (EuroStat, INEBase, IGE)
Chapter 5: Introduction to Statistical Computing	Introduction to electronic spreadsheets with statistical functions. Resolution of practical cases

Other comments on the Evaluation

An essay and several practical activities will be assigned throughout the course. Moreover, an additional final activity and exam with objective questions will take place on official dates.

There are two ways to pass this subject:

1. Continuous assessments include practical activities (90% of the final grade) and the final test exam (10% of the final grade).
2. A final exercise includes the final test exam (50% of the final grade) and several practical activities (50% of the final grade).

Students are expected to follow the first option ("continous assesments").

Exceptionally, and always by previous request, students may do the final examination during tutoring hours.

Second call: The second call will be a single exercise, including a test exam (50% of the final grade) and several practical activities (50% of the final grade).

Warning: No grades will be saved for future calls.
