Seminars	Exposition and defense	40	A3	B1 B3	C5 C7	D4 D8
Project based learning	Documents analyze	20	A3	B1 B3	C5 C7	D4 D8

Other comments on the Evaluation

The evaluation methods and competencies will be the same for students, attending face-to-face or not the course -as full or partial time student-, in any of the evaluation terms, although they will only be able to choose the continuous evaluation or the global evaluation. The students will have to decide within a period of one month from the beginning of the classes whether to opt for the continuous evaluation or the global evaluation.

To pass the subject it is compulsory to pass all the assessment procedures.

In the case of not passing any of the assessment procedures, the student must recover in the second evaluation call only the part not passed.

All the information related to the evaluation calls (dates, hours and places) is available at the official calendar of the Faculty. The course qualifications will be made public on the own Uvigo platforms ("Moovi" and "Virtual Secretariat"), both with restricted access). These platforms will also be used for any relevant communication about the evaluation process.

The parts of the matter passed in the 1st opportunity, will not be subject to evaluation in the 2nd, considering,

therefore, as approved in that academic year.
