General description	Approach to the main variables that allow to realise	basic analyses of	situation and e	volution of the economy.

### **Training and Learning Results**

Code

- A3 Students have the ability to gather and interpret relevant data (usually within their field of study) to inform judgments that include reflection on relevant social, scientific or ethical issues
- A5 Students have developed those learning skills that are necessary for them to continue to undertake further study with a high degree of autonomy
- C3 Describe how works the global ocean circulation, its forcings and its climate implications.
- C7 Apply to the marine and coastal environment the principles and methods used in Chemistry.
- C8 Know the main pollutants, their causes and effects in the marine and coastal environment.
- C9 Acquire basic knowledge about the structural and functional organization and the evolution of marine organisms.
- C10 Know the biological diversity and functioning of marine ecosystems.
- D1 Develop the search, analysis and synthesis of information skills oriented to the identification and resolution of problems.
- D2 Acquire the ability to learn autonomously, continuously and collaboratively, organizing and planning tasks over time.

Expected results from this subject				
Expected results from this subject		Training and Learning		
	Results		llts	
Capacity to identify problems related with the marine resources, his consideration from the	A3	C3	D1	
economic perspective and interpretation of the possible necessary results for the management of Al		C7	D2	
the same.		C8		
		C9		
		C10		
Capacity to develop works or brief reports in the field of the marine resources		C3	D1	
		C7	D2	

Contents			
Topic			
I. INTRODUCTION. BASIC APPEARANCES	1. The Spanish Economy.		
	2. The Spanish economy in the European or world-wide context		
	3. Income and Distribution		
II. The PRODUCTIVE ACTIVITIES	4. Primary activities.		
	5. Energetic sector.		
	6. Industry.		
	7. Service sector		

Planning			
	Class hours	Hours outside the classroom	Total hours
Seminars	14	33	47
Practices through ICT	15	37	52
Lecturing	23	28	51

<sup>\*</sup>The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

Methodologies	
	Description
Seminars	In the seminars, will realise fundamentally tasks of preparation and exhibition of works on appearances related with the temario.
Practices through ICT	Formulation and resolution of problems and/or exercises related with the matter. The student has to develop the solutions.
Lecturing	Exhibition by part of the professor of the contents of the matter. Realisation of partial examinations.

Personalized assistance			
Methodologies Description			
Lecturing	Students willing so could attend personal tutorials to solve doubts and/or uncertainties, which will mainly take place during the timetables indicated. To better optimise the procedure, the student is requested to previously contact his/her teacher with reasonable anticipation.		
Seminars	Personal tutorials to solve doubts and/or uncertainties		

Assessment					
	Description	Qualification		aining ning R	
Seminars	Workshops of work. Will be able to use the seminars for exhibitions and realisation of partial proofs.  Results of learning: -Comprise to handle necessary economic concepts for the management of the marine resourcesCapacity to identify problems relate with the marine resources, economic treatments and interpretation of resultsComprise to handle necessary economic concepts for the management of the marine resourcesCapacity to identify problems relate with the marine resources, economic treatments and interpretation of results.	30	A3	C3 C7 C8 C9 C10	D1 D2
Practices through ICT	Study of cases. Empirical analysis. Possibility to realise and present works. Results of learning: -Comprise to handle necessary economic concepts for the management of the marine resourcesCapacity to identify problems relate with the marine resources, economic treatments and interpretation of results.	30	A5	C3 C7 C8 C9 C10	D1 D2
Lecturing	-Comprise and handle necessary economic concepts for the economic analysis and the management of the marine resourcesCapacity to identify problems relate with the marine resources, economic treatments and interpretation of results.	40	_	C3 C7 C8 C9 C10	

#### Other comments on the Evaluation

Students are strongly requested to fulfil a honest and responsible behaviour. It is considered completely unacceptable any alteration or fraud (i.e., copy or plagiarism) contributing to modify the level of knowledge and abilities acquired in exams, evaluations, reports or any kind of teacher proposed work. Fraudulent behaviour may cause failing the course for a whole academic year. An internal dossier of these activities will be built and, when reoffending, the university rectorate will be asked to open a disciplinary record.

**Global assessment option:** The application for this evaluation option must be submitted in the time and manner determined by the Center, which will be published prior to the academic start. Given the experimental nature of the practices, attendance at them is mandatory to be eligible for this evaluation option. **Failure to attend the practices, with no justified cause invalidates this possibility, as well as the opportunity for extraordinary evaluation (2nd** 

### opportunity).

**2nd Evaluation Opportunity** (JULY): The student will be evaluated by taking an exam on the content of the subject and also by delivering a practical activity.
