E-mail				
Web				
General description	In this subject the student will have criteria and methods to compare the benefits and costs of a public investment policy or project in order to know if the intervention is socially desirable.			
	English Friendly subject: International students may request from the teachers: a) resources and bibliographic references in English, b) tutoring sessions in English, c) exams and assessments in English			

Training and Learning Results

Code	
A1	Students will have shown they have sufficient knowledge and understanding of an area of study, starting after completion of general secondary education, and normally reaching a level of proficiency that, being mostly based on advanced textbooks, will also include familiarity with some cutting-edge developments within the relevant field of study.
A2	Students will be able to apply their knowledge and skills in their professional practice or vocation and they will show they have the required expertise through the construction and discussion of arguments and the resolution of problems within the relevant area of study.
A3	Students will be able to gather and interpret relevant data (normally within their field of study) that will allow them to have a reflection-based considered opinion on important issues of social, scientific and ethical nature.
A4	Students will be able to present information, ideas, problems and solutions both to specialist and non-specialist audiences.
A5	Students will acquire the learning skills that are required to pursue further studies with a high degree of independence.
B1	Analysis, synthesis, problem-solving, decision-making, information- and time-management skills.
B2	Organizing and planning their own professional careers in the best possible way.
B4	Commitment to ethical values and public service vocation.
B6	To put their knowledge on public management and administration into practice.
B10	To design and manage projects.
C5	To describe the structure, organization and functioning of multi-level Public Administrations, analyzing their relationship with the citizenry.
C10	To assess the economic environment and the economic dimension of the public sector.
C11	To plan, implement, assess and analyze public policies.
C13	To apply the social policies and research methods and techniques and to be able to use quantitative and qualitative research methods.
C16	To develop the ability to solve complex institutional problems.
D1	To identify the meaning of, and to put into practice, gender perspectives in the different areas of knowledge and in one's professional practice, with the aim of contributing to the achievement of fairness and equality in society at large.
D2	To be able to communicate, both orally and in writing, in the two official languages (Spanish and Galician) and in a foreign language.
D3	Raising awareness about environmental issues.
D4	To master the specific ICT techniques in their respective academic and professional fields.

Case studies	Analysis of a done, problem or real event with the aim to know it, interpreted, resolved, generate hypothesis, contrast data, *reflexionar, complete knowledges, diagnosed and trained in alternative procedures of solution applying artificial intelligence.
Autonomous problem solving	Activity in which problems and / or exercises related to the subject are formulated. The student must develop the analysis and resolution of problems and / or exercises independently.
Discussion Forum	Activities developed in a virtual environment in which diverse and current topics related to the academic and / or professional field are discussed.

Personalized assistance	
Methodologies	Description
Lecturing	Resolving doubts in the classroom or in tutorial hours.
Programmed instruction	Resolving doubts in the classroom or in tutorial hours.
Case studies	Resolving doubts in the classroom or in tutorial hours.
Autonomous problem solving	Resolving doubts in the classroom or in tutorial hours.
Discussion Forum	Resolving doubts in the classroom or in tutorial hours.

Assessment						
	Description	Qualification	Training and Learning Results			
Objective questions exam	Knowledge assessment tests that include closed questions with different answer alternatives (true / false, multiple choice, pairing of elements ...). Students select an answer from a limited number of possibilities	30	A1 A2 A3 A4 A5	B1 B6 B10	C11 C13 C16	D3 D4 D6
Case studies	Test in which a student must analyze a fact, problem or real event in order to know it, interpret it, solve it, generate hypotheses, test data, reflect, complete knowledge, diagnose it and train in alternative solution procedures.	30	A1 A2 A3 A4 A5	B1 B6 B10	C11 C13 C16	D3 D4 D6
Essay questions exam	Tests that include open-ended questions on a topic. Students must develop, relate, organize and present the knowledge they have about the subject in an argumentative answer.	40	A1 A2 A3 A4 A5	B2 B4	C5 C10	D1 D2

Other comments on the Evaluation

The Second Chance exam consists of a test that scores 100% of the grade.

The student can opt for a continuous evaluation or a global evaluation of the subject.

In the global evaluation the student will be evaluated of the theory and the practices even if he/she did not attend.

The deadline for students to renounce to the continuous evaluation is one month from the beginning of the classes.

The tutoring schedule will be published in Moovi and a tutoring can be requested through the Moovi chat.
