Other comments on the Evaluation

To pass the subject in the first call (April-May), students who attend regularly to class must pass a theoretical test on the basic concepts and content of the syllabus (final exam), as well as having done the classroom and supervised work proposed. In case of not attending and not doing the activities, they will be done in the final exam (official), in the second call (July) or in the extraordinary calls. The notes of the activities of the classes B, and the note of the Didactic Unit, in case they have been made in the classroom, will be kept in the second call (July) and in the extraordinary calls. Who has not done

them, must do them to pass the subject. The passing of the theoretical test is an indispensable condition for passing the subject.

All students, whether or not they attend classrooms, have the right to be evaluated (through an exam or in the manner in which it is established in the Teaching Guide). The same general evaluation conditions apply to those students who, for some reason, can not attend class regularly. If the subject has not been passed in the first call, the competences not acquired will be evaluated in the July call.

The dates of the exams can be found on the Faculty website, at the link <http://fcced.uvigo.es/es/docencia/examenes>
