Universida_{de}Vigo

Subject Guide 2019 / 2020

IDENTIFYING	G DATA				
Forestry hyd	drology				
Subject	Forestry hydrology				
Code	P03G370V01604				
Study	(*)Grao en				
programme	Enxeñaría Forestal				
Descriptors	ECTS Credits		Choose	Year	Quadmester
	6		Optional	3rd	2nd
Teaching					
language					
Department					
Coordinator	Álvarez Bermúdez, Xana				
Lecturers	Álvarez Bermúdez, Xana				
E-mail	xaalvarez@uvigo.es				
Web	http://http://www.forestales.uvigo	.es/			
General	Description of the elements that influence in the hydrological cycle. Characterisation of hydrographic basins				
description	and quantification of the erosion. Technicians of control and management of the hydrographic basins				

Competencies

Code

B3 Knowledge of degradation processes that affect forest systems and resources (pollution, pests and diseases, fires, etc.) and capacity for the use of forest environment protection techniques, forest hydrological restoration and biodiversity conservation.

C9 Ability to know, understand and use the principles of: forestry hydraulics; hydrology and hydrological-forest restoration.
D4 Sustainability and environmental commitment

Learning outcomes

Expected results from this subject

Training and Learning Results 2R. 2018 Knowledge and understanding of the disciplines of engineering of the his speciality, to B3 the necessary level to purchase the rest of the competitions of the qualifications, including notions of the last advances.

3R. 2018 Be conscious of the multidisciplinary context of the engineering.

5R. 2018 Capacity to identify, formulate and resolve problems of engineering in the his speciality; choose and apply analytical methods, of calculation and experiments properly established; Recognize the importance of the social restrictions, of health and security, environmental, economic and industrial.

6R. 2018 Capacity to project, design and develop complex products (pieces, component, products finished, etc.), processes and systems of the his speciality, that fulfil the requirements established, including the knowledge of the social aspects, of health and environmental security, economic and industrial; as well as select and apply methods of appropriate project.

7R. 2018 Capacity of the project using any knowledges advanced of the his speciality in engineering.

8R. 2018 Capacity to realize bibliographic researches, consult and use databases and other sources of information with discretion, to realize @simulación and analysis with the objective to realize investigations on technical subjects of the his speciality.

12R. 2018 practical Competition to resolve complex problems, realize complex projects of engineering and realize specific investigations stop his speciality.

14R. 2018 Capacity to apply norms of engineering in the his speciality.

15R. 2018 Knowledge of the social implications, of health and security, environmental, economic and @industrial of the practice in engineering.

16R. 2018 general Ideas on economic questions, organisational and of management (how management of projects, management of risks and change) in the industrial and entrepreneurial context.

17R. 2018 Capacity to collect and interpret data and handle complex concepts inside the his speciality, to issue judgements that involve a reflection on ethical and social questions 18R. 2018 Capacity to manage activities or technical projects or complex professionals of the his rescality accurate the responsibility of the takes of decisions

speciality, assuming the responsibility of the takes of decisions.

Contents	
Торіс	
Subject1 Introduction and generalities	Hydrological cycle.
	The hydrological basin.
	Physical parameters of the basin.
	Soil and climate.
	Actions of the forest on the water regulation.
	Hydrological subsystems.
	Hydrological models.
	legal framework .
Subject 2 Precipitation	Training and types.
	Measured atmospheric humidity.
	Terminal Speed drops rain.
	Size drops and kinetical energy.
	Measure and distribution of the precipitation. Methods of work with rainfall
	data.
	Half precipitation on an area
Subject 3 Evaporation	Solar radiation
	Profiles of wind in vegetation
	Evaporation and evapotranspiration
	Empirical methods
	Interception and transpiration in forests
Subject 4 Infiltration	Measure of humidity and potential water in the floor
	influential Factors
	instantaneous and accumulated Infiltration
	Flow in saturated means. Law of Darcy
	Models of infiltration
	Measured of the hydraulic conductivity
Subject 5 Runoff	Generation and classification of the flow of runoff
	Coefficient of runoff. Number Of Curve
	Methods of Green-Ampt
	Methods of estimate of runoff monthly
	Water balance and Thornthwaite
Subject 6 Hydrographs	Separation of basic flow
	Unitary and synthetic hydrographs
	Maximum Discharge of runoff

D4

C9

Subject 7 Surface water and groundwater	Aquifers hydrogeological variables Equations of subterranean flow			
Subject 8 hydrological Measurements	ydrological Measurements Discharge Measurements of speed of flow Measurements with sensors of pressure Types of control of relation level and discharge			
Subject 9 Driving of avenues of water	Introduction Traffic of aggregat hydrological Traffi Traffic distributed cinematic Wave	ted systems c in rivers of increasing		
Subject 10 hydrological Statistics	Concepts. Analysis of frequer Work of distributio Period of return. Theory of adjust st Analysis of frequer	ncy. m. tatistical. ncy for extreme values .		
Subject 11 hydrological Restoration forest	Action of the forest on water regulation. Distribution of the the precipitation in forest masses. Intercept. Translocation. Trunk runoff Hydrological techniques reforestation			
Subject 12: Water erosion	Types of erosion. Parametric models Models of analytical solution . Stabilization and rehabilitation techniquesn of areas with risk of erosion			
Subject 13: Restoration of banks and rivers	Main pressures and impacts of the Spanish rivers Environmental Assessment of the rivers Features and banks Performances for the improvement and restoration of rivers Development projects Ecological restoration of rivers and banks			
Subject 14: transversal Works in the course	Dams of consolida Dams of retention Planning and tech Act longitudinal in Design of breakwa Pavers background Deflectors	tion nical criteria of execution margines rivers aters d		
Planning				
	Class hours	Hours outside the classroom	lotal hours	
Computer practices	10	10	20	
Autonomous problem solving	30	30	60	
Studies excursion	3	3	6	
Lecturing	30	30	60	
Problem and/or exercise solving	<u>خ</u>	0	<u>う</u> 1	
*The information in the planning table is for gui	L Idanco only and door	U not take into account the bet	L	
	uance only and does		erogeneity of the students.	
Methodologies				
Description				

	Description
Computer practices	I handle of software draw computer-aided for treatment of watershed.
	By means of this methodology develop the competitions A19 and A62
Autonomous problem solving	They will explain and/or they will resolve problems in group from a series of billed facilitated by the professor.
5	The students will have to resolve a small number of exercises for each one of the subjects, that will have to deliver in the term indicated for his qualification.
	By means of this methodology develop the competitions A19 and A62
Studies excursion	It will realise visit to a place of interest hydrological to observe the hydrological conditions of the same and infrastructures and techniques of restoration employed.
	By means of this methodology develop the competitions A19 and A62
Lecturing	Classes in the classroom to the groups, where explain the corresponding contents to each subject. By means of this methodology develop the competitions A19 and A62

Personalized assistance

Methodologies

Description

Autonomous problem solving

Assessment Qualification Description Training and Learning Results Problem and/or exercise Practical supposition for his resolution. 30 C9 By means of this methodology evaluate the competitions A19 and solving A62 Problem and/or exercise Proof with questions type test and of short answer, where the 70 C9 student will have to show the knowledge purchased. solving By means of this methodology evaluate the competitions A19 and A62
