

## IDENTIFYING DATA

### Internships: Internships

Subject	Internships: Internships			
Code	P03G370V01981			
Study programme	(*)Grao en Enxeñaría Forestal			
Descriptors	ECTS Credits	Choose	Year	Quadmester
	6	Optional	4th	An
Teaching language	Spanish Galician			
Department				
Coordinator	Picos Martín, Juan			
Lecturers	Picos Martín, Juan			
E-mail	jpicos@uvigo.es			
Web	<a href="http://http://transferencia.uvigo.es/transferencia_gl/practicas/">http://http://transferencia.uvigo.es/transferencia_gl/practicas/</a>			
General description	<a href="http://transferencia.uvigo.es/opencms/export/sites/transferencia/transferencia_gl/documentos/instrucion_curriculares.pdf">http://transferencia.uvigo.es/opencms/export/sites/transferencia/transferencia_gl/documentos/instrucion_curriculares.pdf</a>			

## Competencies

### Code

C41 Ability to carry out the professional tasks of the degree in the field of individual and team work, applying, according to the practice in question, some of the techniques and skills that, by way of example and without being exclusive, they are cited in the verification memory.

## Learning outcomes

Expected results from this subject	Training and Learning Results
------------------------------------	-------------------------------

6R. 2018 Capacity to project, design and develop complex products (pieces, component, products finished, etc.), processes and systems of the his speciality, that fulfil the requirements established, including the knowledge of the social aspects, of health and environmental security, economic and industrial; as well as select and apply methods of appropriate project.

7R. 2018 Capacity of the project using any knowledges advanced of the his speciality in engineering.

9R. 2018 Capacity to consult and apply codes of good practices and security of the his speciality.

11R. 2018 Understanding of the techniques and methods of analysis, project and applicable investigation and his limitations within the scope of the his speciality.

12R. 2018 practical Competition to resolve complex problems, realize complex projects of engineering and realize specific investigations stop his speciality.

13R. 2018 Knowledge of the application of materials, teams and tools, technological processes and of engineering and his limitations within the scope of the his speciality.

14R. 2018 Capacity to apply norms of engineering in the his speciality.

15R. 2018 Knowledge of the social implications, of health and security, environmental, economic and @industrial of the practice in engineering.

16R. 2018 general Ideas on economic questions, organisational and of management (how management of projects, management of risks and change) in the industrial and entrepreneurial context.

17R. 2018 Capacity to collect and interpret data and handle complex concepts inside the his speciality, to issue judgements that involve a reflection on ethical and social questions

18R. 2018 Capacity to manage activities or technical projects or complex professionals of the his speciality, assuming the responsibility of the takes of decisions.

19R. 2018 Capacity to communicate of effective way information, ideas, problems and solutions in the field of the engineering and with the society in general.

20R. 2018 Capacity to work effectively in national and international contexts, individually and in team, and cooperate with the engineers and people of other disciplines.

21R. 2018 Capacity to recognize the need of a continuous training and realize this activity of independent way during his professional life.

**Contents****Topic**

The contents of the practical will be posed in each particular case by the School of Forest Engineering and the organisation and will attend to the acquisition by part of the student practitioner of some general and specific competitions related in this description of matter.

They developed any practical activity related with the degree

Professional activity of the student by the respective organisation that offer the practice.

They will be able to in practice the competitions purchased in the degree

**Planning**

	Class hours	Hours outside the classroom	Total hours
Practicum, External practices and clinical practices	0	150	150

\*The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

**Methodologies**

	Description
Practicum, External practices and clinical practices	The contents of the practical will be posed in each particular case by the School of Forest Engineering and the organisation and will attend to the acquisition by part of the student practitioner of some general and specific competitions related in this description of matter.

**Personalized assistance**

Methodologies	Description
Practicum, External practices and clinical practices	The student will have a tutor in the centre and one in the company

**Assessment**

	Description	Qualification	Training and Learning Results
Practicum, External practices and clinical practices		100	C41

**Other comments on the Evaluation**

The positive evaluation of the realisation of the practice will take place on the base of a favourable report issued by the organisation of received of the student practitioner. Anyway the student will have to present to the Direction of the School of Forest Engineering a memory summary of the practice realised

**Sources of information****Basic Bibliography****Complementary Bibliography****Recommendations****Other comments**

The fixed competition worked is the \*CE41, apart from this the tutor marked the others competitions worked that will depend on the practices realised and will be able to be in the group of the general, transversal and specify.

GENERAL COMPETITIONS: \*CG1-\*CG14

TRANSVERSAL COMPETITIONS: \*CT1-\*CT10

SPECIFIC COMPETITIONS: \*CE1-\*CE40

Eligible subject for dual training projects as established by the memory of the degree.

**Contingency plan****Description**

=== EXCEPTIONAL PLANNING ===

Given the uncertain and unpredictable evolution of the health alert caused by COVID-19, the University of Vigo establishes

an extraordinary planning that will be activated when the administrations and the institution itself determine it, considering safety, health and responsibility criteria both in distance and blended learning. These already planned measures guarantee, at the required time, the development of teaching in a more agile and effective way, as it is known in advance (or well in advance) by the students and teachers through the standardized tool.

=== ADAPTATION ===

In case of activation of health alert periods, internships will be subject to the prescriptions of health and academic authorities. If it is possible to carry out totally or partially activities in on-line mode (remote work) it will be taken into account to be potentially applied during health alert periods.
