| General description | <p>Provide students the knowledges, attitudes and skills to be able to develop of the competitive improvement of the public organisations and deprived in a global frame so that it contribute to a sustainable local development and that make possible the creation of wealth, in general, and the improvement of the conditions of life and of work.</p> <p>International students may request from the teachers:</p> <ul style="list-style-type: none"> <li>a) materials and bibliographic references in English,</li> <li>b) tutoring sessions in English,</li> <li>c) exams and assessments in English.</li> </ul> |          |      |            |

## Competencies

|      |  |
|------|--|
| Code |  |
| A1   | Students have demonstrated to possess and understand knowledge in an area of study that starts from the base of general secondary education, and is usually found at a level that, although supported by advanced textbooks, also includes some aspects that imply knowledge coming from the vanguard of his field of study. |
| A2   | Students know how to apply their knowledge to their work or vocation in a professional manner and possess the skills that are usually demonstrated through the elaboration and defense of arguments and the resolution of problems within their area of study.   |
| A3   | Students have the ability to gather and interpret relevant data (usually within their area of study) to make judgments that include a reflection on relevant social, scientific or ethical issues.   |
| A4   | Students can transmit information, ideas, problems and solutions to a specialized and non-specialized audience.  |
| A5   | Students develop those skills of necessary learning to undertake back studies with a high degree of autonomy.  |
| B1   | Skills in the search for information, in relation to primary and secondary information sources, including the use of computers for online searches   |
| B2   | Ability to analyze, synthesize and integrate knowledge and planning for the preparation of judgments with limited information  |
| B6   | Perseverance skills for performing tasks and missions and confidence in one's own work.  |
| D1   | Capacity of analysis and synthesis for building and defending arguments Know how   |
| D2   | Ability to organize, plan and use time efficiently, and self-control skills in situations of pressure.   |
| D8   | Capacity to cooperate teamwork and open to different points of view and opinions   |

## Learning outcomes

|   |                               |
|---|-------------------------------|
| Expected results from this subject  | Training and Learning Results |
| To state the key points found in the main theories of design, image and creativity. |                               |
| Students possess and comprise knowledges in the area of study                       | A1                            |
| Students can apply the knowledges at work   | A2                            |

|  |                |
|--|----------------|
| Students can gather and use notable data (usually inside his area of study) and can make reflexion   | A3             |
| Students can transmit information, ideas, problems and solutions to a specialized and non-specialized audience.                                | A4             |
| Students develop those skills of necessary learning to undertake back studies with a high degree of autonomy.                                  | A5             |
| Students can gather information, including the use of computers for researches on line   | B1             |
| Students can analyse, synthesize and integrate knowledges and formulate trials with limited information  | B2             |
| Students persevere in the realisation of tasks and their own work  | B6             |
| Capacity of analysis and synthesis for building and defending arguments, organising, scheduling and using the time, as well as working in team | D1<br>D2<br>D8 |

## Contents

| Topic                                 |  |

## Planning

|                         | Class hours | Hours outside the classroom | Total hours |
|-------------------------|-------------|-----------------------------|-------------|
| Introductory activities | 1           | 0                           | 1           |
| Lecturing               | 30          | 45                          | 75          |
| Mentored work           | 16          | 58                          | 74          |

\*The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

## Methodologies

|                         | Description   |
|-------------------------|---|
| Introductory activities | Activities aimed at making contact and gathering information about the students, as well as presenting the subject. It will be done in person and / or through the Remote Campus.   |
| Lecturing               | Presentation by the professor of the contents on the subject matter of study, theoretical bases and guidelines of the project to be developed. It will be done in person, through the teledoaching platform and / or through the Remote Campus. |
| Mentored work           | Students will develop a project under the guidelines and supervision of the professor. The work will be monitored in the classroom (if possible), through the FaiTIC platform and through the Remote Campus.                                    |

## Personalized assistance

### Methodologies Description

|               |   |
|---------------|---|
| Lecturing     | Personalized attention will make preferably by telematic means (email, campus remoto, forums of doubts in FaiTIC). If a student wants, as possible, it can be presencially. They will be indicated at the beginning of course the concrete forms of communication as well as the schedules. |
| Mentored work | Personalized attention will make preferably by telematic means (email, campus remoto, forums of doubts in FaiTIC). If a student wants, as possible, it can be presencially. They will be indicated at the beginning of course the concrete forms of communication as well as the schedules. |

## Assessment

| Description   | Qualification | Training and Learning Results |    |    |
|---|---------------|-------------------------------|----|----|
|   |               | A1                            | B1 | D1 |
| Mentored work Group and / or individual project development. Its delivery will be made through the FaiTIC platform within the period stipulated by the center for each call | 100           | A2                            | B2 | D2 |
|   |               | A3                            | B6 | D8 |
|   |               | A4                            |    |    |
|   |               | A5                            |    |    |
|   |               |                               |    |    |

## Other comments on the Evaluation

### JULY EVALUATION

In July, students will have to make the project too.

## ENGLISH GROUP :

Only 20 students or 50% of the students enrolled can study the subject in English. If a selection is necessary, the professor will establish a criteria, based in the english level accredited and the order of application

### Recommendations

---

### Contingency plan

#### Description

=== EXCEPTIONAL PLANNING ===

Given the uncertain and unpredictable evolution of the health alert caused by COVID-19, the University of Vigo establishes an extraordinary planning that will be activated when the administrations and the institution itself determine it, considering safety, health and responsibility criteria both in distance and blended learning. These already planned measures guarantee, at the required time, the development of teaching in a more agile and effective way, as it is known in advance (or well in advance) by the students and teachers through the standardized tool.

=== ADAPTATION OF THE METHODOLOGIES ===

\* Teaching methodologies maintained

All

\* Teaching methodologies modified

None

\* Non-attendance mechanisms for student attention (tutoring)

Remote campus, email and forums on the Teledocencia platform

\* Modifications (if applicable) of the contents

None

\* Additional bibliography to facilitate self-learning

Students have all the material on the platform, part of it made by the professor, to be able to track the subject.

\* Other modifications

None

=== ADAPTATION OF THE TESTS ===

\* Tests already carried out

Weight is maintained as all activities are adapted to any circumstance

\* Pending tests that are maintained

Weight is maintained as all activities are adapted to any circumstance.

\* Tests that are modified

None

\* New tests

None

\* Additional Information

Not necessary
