Tema

Some of the most relevant issues in our discussions will be: the interaction between high culture and low or mass culture, the textual/cultural negotiation in contemporary literature and film, cultural and intersemiotic translation as a form of intertextuality, representation and space in modern literature, visual and textual representations of gender and identity, aiming to create a truly interdisciplinary forum for conceptual and theoretical debate. Recognizing the openness of meaning that lies within the notion of [culture], the course engages with the perspectives of the fields of cultural studies, film studies, visual culture, textual criticism, modernist and postmodernist studies and translation studies.

-Discussion of translation related issues: conformation of imaginaries, sensitive contexts, ideological implications
