Planning

	Class hours	Hours outside the classroom	Total hours
Problem solving	30	30	60
Lecturing	45	80	125
Essay questions exam	2	38	40

*The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

Methodologies

	Description
Problem solving	Proposal of practical exercises in small group as a complement of the theoretical explanation. Exercises will be solved and students questions will be answered giving a personalized treatment to students
Lecturing	Main contents explanations by the professor, using resources like slides, web contents, computer programs and book references.

Personalized assistance

Methodologies	Description
Problem solving	Answering of questions by the professor in reduced groups

Assessment

Description	Qualification	Training and Learning Results
-------------	---------------	-------------------------------

Essay questions exam	Continuous evaluation through midterm exams with resolution of written exam, on the acquisition of competitions of the matter. Students can choose between continuous evaluation through midterm exams (100% final mark), or as an alternative way, global evaluation of all the subject in the final exams and end-of-degree exam in official dates (100% final mark). Continuous assessment system: 3 exams will be carried out throughout the course, with a weighting of 35% the first one, 35% the second one and finally 30% the last one. Students will be able to choose between continuous assessment or global assessment through final exam (100%). There is no deadline date for communicating the decision between continuous assessment or final exam. In the second-chance and end-of-degree exam, the continuous assessment mark is not kept and a final global exam will necessarily have to be taken with 100% of the grade.	100	C1 C3 C5 C7 C8 C9 C12	D7
