IDENTIFYING DATA

Econometrics II

Subject	Econometrics II
Code	V03G100V01601
Study programme	Degree in Economics

Descriptors	ECTS Credits		Choose	Year	Quadmester
	6		Mandatory	3rd	2nd

Teaching language	Spanish English
Department	
Coordinator	Álvarez García, María Begoña Miles Touya, Daniel Gustavo
Lecturers	Álvarez García, María Begoña Miles Touya, Daniel Gustavo
E-mail	alvarez@uvigo.es dmiles@uvigo.es
Web	
General description	In this course we will give an introduction to those econometric methods needed for working with microeconomic data

Competencies

Code	
C1	Understand the basic mathematical tools required to formalize economic behavior.
C8	Ability to look for, identify and interpret relevant sources of economic information and their contents.
C10	Ability to use technical tools to formulate simple models concerning economic variables.
C12	Use empirical techniques to assess the consequences of alternative actions to ultimately choose the best option.
D1	Respect civic and ethical values. Strong commitment to work ethic.
D2	Ability to work within a team.
D4	The responsibility and capacity to embrace commitments.
D5	Skill to make coherent and intelligible statements both in oral and written form.
D6	Ability to communicate in English within a professional context.
D7	Critical and self-critical thinking.

Learning outcomes

Expected results from this subject	Training and Learning Results	
Formulate economic questions to resolve by means of models *econométricos identifying the necessary data to be able to answer said questions and the problems that arise in the modelling.	C1 C8 C10 C12	D1 D2 D4 D5 D6 D7

Contents

Topic
1.- Introduction
2.-Review of basic concepts and model of regression
3.- Introduction to the asymptotic theory
4.-Instrumental variables
5.- Maximum likelihood and GMM
6.-Discrete dependent variable
7.-Sample selection models
8.- Introduction to quantile regression

Planning

	Class hours	Hours outside the classroom	Total hours
Lecturing	22.5	72.5	95
Computer practices	27.5	27.5	55

*The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

Methodologies

	Description
Lecturing	Exhibition by part of the teacher and work of the student
Computer practices	Exhibition by part of the teacher and work of the student

Personalized assistance

Methodologies	Description
Computer practices	Discussion of doubts of exercises previously resolved by the students

Assessment

	Description	Qualification	Training and Learning Results	
Lecturing	-Unannounced exams of continuous evaluation (25%) -Exercises to resolve by the student (10%) -Final Examination (45%)	80	C1 C8 C10 C12	D1 D2 D4 D5 D6 D7
Computer practices	Introduction to the programming for the resolution of concrete situations. Development of basic skills in programming and resolution of problems by means of programming. (10%) Final Examination (10%)	20	C1 C8 C10 C12	D1 D2 D4 D5 D6 D7

Other comments on the Evaluation

The dates of examinations will have to be consulted in the page web of the Faculty: http://fccee.uvigo.es/

Final exam: 100% of the course thought a different exam than the exam for continuous evaluation students.

Final degree exam: 100% of the course.
