Assessme					
	Description	Qualification	L	ining earnir Result	ng
Case studie	is In order to opt for continuous evaluation, it will be necessary to submit several resolved cases. In the case of opting for the non-continuous evaluation, a practical exam will also be carried out. In both cases, a minimum score of five points (out of 10) will be required in order to make the average with the rest of the items.	20	B1 B2 B5 B8 B9 B10 B11 B13 B14	C11 C12 C13	D2
Objective questions exam	Several tests will be carried out to evaluate the knowledge acquired on the subject during the course, tests that will refer both to the knowledge acquired through the reference bibliography, and to the development and content of the classes. A minimum score of five points (out of 10) will be required to be able to make the average with the rest of the items.	60	B1 B2 B10 B13		D1 D5
Project	It will be necessary to deliver a project carried out in a group to evaluate the knowledge acquired during the course. A minimum score of five points (out of 10) will be required to be able to make the average with the rest of the items.	20	B1 B2 B5 B8 B9 B10 B11 B13 B14	C11 C12 C13	D2

## Other comments on the Evaluation

Students may choose to be assessed using the continuous assessment (CA) system, or alternatively opt for a Global Assessment (GA) test. The default assessment is the CA. Students may choose GA according to the procedure and deadline established by the centre. The choice of GA implies the waiver of the right to continue being assessed by means of the remaining CA activities and the grade obtained up to that moment in any of the tests that have already been taken.

**Continuous assessment:** In this case, the student will take several partial liberating theoretical exams. To pass it, a minimum grade of 5 (out of 10) is required and the weight of these exams in the final grade will be 60% (none of them, individually considered, will have a weight that exceeds 40% of the final mark).

The remaining 40% of the grade will correspond to the practical part, divided equally between the presentation of cases (20%) and the completion of a project (20%). To be able to take these two tests it is necessary to attend 80% of the seminars and to pass them you must achieve a minimum grade of 5 out of 10 in each of them.

In cases where the student has decided to opt for CA and has not passed the subject, they may take the official exams to recover the part(s) they have failed. In this sense, the grade obtained in the passed part will be saved, and the student will only need to take the first period exam with the failed part. Likewise, the approved parts will be kept for the examination of the second period.

For successive calls, the approved parts will not be saved.

**Global assessment:** In any case, in each call there will be a theoretical exam of the subject that will have a weight of 60% of the grade. In this case, it will also be necessary to deliver on the same day or before a piece of work done individually that will weigh 20%. The remaining 20% will correspond to the realization of a practical exam and the delivery of the practical cases carried out by the students of continuous evaluation. You need to get a minimum score of 5 points (out of 10) in each part to be able to average.

Students who do not take part in the CA or the GA will appear in the minutes as "no-shows".

It is recommended that students take into account Title VII (On the use of illicit means) of the Regulations on Assessment, Grading and Quality of Teaching and the Student Learning Process:

https://secretaria.uvigo.gal/uv/web/normativa/public/normativa/documento/downloadbyhash/4904ced4d24eb81fe5715ddde2 c48c59c0a7c4d624cd0e7491df7a753985ccfa

The dates and times of the GA tests (first and second chance) are those specified in the calendar of assessment tests approved by the Faculty Board for the academic year 2023/24. In case of conflict or disparity between the exam dates, those published on the faculty website, http://fccee.uvigo.es/organizacion-docente.html, will prevail.

In the extraordinary End of Degree call, a final exam will be held that will account for 100% of the grade.

The differences in the evaluation method used by the centers of the Faculty of Economic and Business Sciences of Vigo and the Faculty of Business Sciences and Tourism of Ourense are due to the necessary adaptation of the same proposed learning outcomes and competencies to the different organization of teaching used by both centers. In any case, the exact weights of each test will be announced at the beginning of the course on the tele-teaching platform.

## Recommendations

#### Subjects that it is recommended to have taken before

Business: Basics of management/V03G020V01102 Business: Business management/V03G020V01203 Strategic management/V03G020V01503 Organizational theory/V03G020V01505

#### Other comments

Students will be provided with the specific information and guidelines necessary at each stage of the learning process.

The subject is also taught in the PCEO Ade-Dereito in the 5th year, 2nd semester. The coordinator is Professor Oscar García Álvarez.

The tutorials of the teachers will be collected in the MOOVI platform.
