Externships: Internships I

| | | | | |
|---------------------|--|----------|------|------------|
| Subject | Externships: Internships I | | | |
| Code | V05G301V01981 | | | |
| Study programme | Grado en Ingeniería de Tecnologías de Telecomunicación | | | |
| Descriptors | ECTS Credits | Choose | Year | Quadmester |
| | 6 | Optional | 4th | 1st |
| Teaching language | Spanish | | | |
| Department | | | | |
| Coordinator | Marcos Acevedo, Jorge | | | |
| Lecturers | Marcos Acevedo, Jorge | | | |
| E-mail | acevedo@uvigo.es | | | |
| Web | http://fatic.uvigo.es | | | |
| General description | (*)Estancia nunha empresa desenvolvendo funcións propias dun/a Enxeñeiro/a Técnico/a de Telecomunicación relacionadas co perfil profesional cursado polo alumno (Sistemas de Telecomunicación, Telemática, Sistemas Electrónicos ou Son e Imaxe) e supervisado por profesorado do Centro e persoal da empresa. | | | |

Training and Learning Results

| | |
|------|---|
| Code | |
| B4 | CG4: The ability to solve problems with initiative, to make creative decisions and to communicate and transmit knowledge and skills, understanding the ethical and professional responsibility of the Technical Telecommunication Engineer activity. |
| B5 | CG5: The knowledge to perform measurements, calculations, assessments, appraisals, technical evaluations, studies, reports, task scheduling and similar work to each specific telecommunication area. |
| B12 | CG12 The development of discussion ability about technical subjects |
| B13 | CG13 The ability to use software tools that support problem solving in engineering. |
| C21 | CE21/ST1 The ability to construct, exploit and manage telecommunication networks, services, process and applications, considered as systems of receiving, transporting, representation, processing, storage, management and presentation of multimedia information from the point of view of transmission systems. |
| C22 | CE22/ST2 The ability of applying the basic techniques of telecommunication networks, services and applications for mobile and fixed environments, personal, local or long distance, with different bandwidth, including telephony, radio broadcasting, TV and data, from the point of view of transmission systems. |
| C23 | CE23/ST3 The ability to analyze the components and their specifications for guided and non-guided communications systems |
| C24 | CE24/ST4 The ability to select circuits, subsystems and systems of radiofrequency, microwaves, broadcasting, radio link and radio determination. |
| C25 | CE25/ST5 The ability to select transmission antennas, equipment and systems, propagation of guided and non-guided waves, with electromagnetic, radiofrequency and optical media, and their corresponding radio electric spectrum management and frequency designation. |
| C26 | CE26/ST6 The ability to analyze, codify, process and transmit multimedia information using analogical and digital signal processing techniques. |
| C27 | CE27/TEL1 The ability to construct, operate and manage telecommunication networks, services, processes and applications considered as systems to receive, transport, represent, process, store, manage and present multimedia information from the computer services point of view. |
| C28 | CE28/TEL2 The ability to apply the techniques that are basis of computer networks, services and applications, such as management, signaling and switching, routing and securing systems (cryptographic protocols, tunneling, firewalls, charging mechanisms, authentication and content protection) traffic engineering (graph theory, queuing theory and teletraffic) rating, reliability and quality of service in both fixed, mobile, personal, local or long distance environments with different bandwidths, including telephony and data. |
| C29 | CE29/TEL3 The ability to build, operate and manage computer services using planning, sizing and analytical tools |
| C30 | CE30/TEL4 The ability to describe, program, assess and optimize communication protocols and interfaces at different network architecture layers . |

| | | |
|-----|-------------|---|
| C31 | CE31/TEL5 | The ability to follow the technological progress of transmission, switching and processing to improve computer networks and services. |
| C32 | CE32/TEL6 | The ability to design networks and service architectures. |
| C33 | CE33/TEL7 | The ability to program network and distributed applications and services. |
| C34 | CE34/SI1 | The ability to construct, exploit and manage telecommunication services and applications, such as receiving, digital and analogical treatment, codification, transporting and representation, processing, storage, reproduction, management and presentation of audiovisual and multimedia information services. |
| C35 | CE35/SI2 | The ability to analyze, specify, carry out and maintain systems, equipments, heads and installations of TV, audio and video for mobile and fixed environments. |
| C36 | CE36/SI3 | The capacity to implement projects at places and installations for the production and recording of audio and video signals. |
| C37 | CE37/SI4 | The ability to carry out acoustic engineering projects related to: acoustical isolation and conditioning of rooms, loudspeaker installations, specification, analysis and selection of electro acoustical transducers, measurement, analysis and control of radio vibration systems, environmental acoustics, submarine and acoustical systems. |
| C38 | CE38/SI5 | The ability to create, modify, manage, broadcast and distribute multimedia contents taking into account the use and accessibility criteria to audiovisual, broadcasting and interactive services. |
| C39 | (CE39/SE1): | The ability to construct, exploit and manage the receiving, transporting, representation, processing, storage, manage and presentation multimedia information from the electronic systems point of view. |
| C40 | (CE40/SE2): | The ability to select electronic circuits and devices specialized in transmission, forwarding or routing, and terminals for fixed and mobile environments. |
| C41 | (CE41/SE3): | The ability to make the specification, implementation, documenting and tuning of electronic systems and equipment (both instrumentation and control oriented), considering the corresponding technical aspects and the regulations. |
| C42 | (CE42/SE4): | The ability to apply electronics as support technology in other fields and activities and not only in information and communication technologies. |
| C43 | (CE43/SE5): | The ability to design analogical and digital electronics circuits of analogical to digital conversion and vice versa, of radiofrequency, of feeding and electrical energy conversion for computing and telecommunication engineering. |
| C44 | (CE44/SE6): | The ability to understand and use feedback theory and electronic control systems. |
| C45 | (CE45/SE7): | The ability to design interface, data capturing and storage devices, and terminals for services and telecommunication systems. |
| C46 | (CE46/SE8): | The ability to specify and use electronic instrumentation and measurement systems. |
| C47 | (CE47/SE9): | The ability to analyze and solve interference and electromagnetic compatibility problems . |
| D2 | CT2 | Understanding Engineering within a framework of sustainable development. |
| D5 | CT5 | Ability to communicate orally and in writing in the Galician language. |

Expected results from this subject

| Expected results from this subject | Training and Learning Results | | |
|--|-------------------------------|-----|----|
| Experience in the exert of the profession of Technical Engineer of Telecommunication and of his more usual functions (according to the programme of the student) in some real surroundings of company. | B4 | C21 | D2 |
| | B5 | C22 | D5 |
| | B12 | C23 | |
| | B13 | C24 | |
| | | C25 | |
| | | C26 | |
| | | C27 | |
| | | C28 | |
| | | C29 | |
| | | C30 | |
| | | C31 | |
| | | C32 | |
| | | C33 | |
| | | C34 | |
| | | C35 | |
| | | C36 | |
| | | C37 | |
| | | C38 | |
| | | C39 | |
| | | C40 | |
| | | C41 | |
| | | C42 | |
| | | C43 | |
| | | C44 | |
| | | C45 | |
| | | C46 | |
| | | C47 | |

| Contents | |
|--|---|
| Topic | |
| General content | To define by the tutor in the company and the academic tutor |
| Integration in the company and in his surroundings of work | During his stay the student will be integrated into the organization of the company and must coordinate with the rest of members of the work team to he was assigned. |
| Development of his professional activity | The student will make the tasks entrusted, in accordance with his knowledges and competences. |

| Planning | | | |
|--|-------------|-----------------------------|-------------|
| | Class hours | Hours outside the classroom | Total hours |
| Practicum, External practices and clinical practices | 145 | 5 | 150 |

*The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

| Methodologies | |
|--|--|
| | Description |
| Practicum, External practices and clinical practices | Stay in a company developing functions of a Telecommunications Technical Engineer so that they can put into practice the knowledge and skills acquired, to complete their academic training. |

| Personalized assistance | |
|--|---|
| Methodologies | Description |
| Practicum, External practices and clinical practices | The student will have a tutor inside the company that will guide him and will supervise in the specific tasks that it will have to develop inside the same; and an academic tutor - professor of the E.E.T. of the University of Vigo- that will define together with the tutor of the company, the general frame of the activity of the student, checking that it adjusts to the profile studied by the student. |

| Assessment | | | | | |
|--|---|---------------|-------------------------------|--|----|
| | Description | Qualification | Training and Learning Results | | |
| Practicum, External practices and clinical practices | The evaluation will realise in function of: 1) The memory of activities 2) The evaluation of the tutor in the company | 100 | B4 B5 B12 B13 | C21 C22 C23 C24 C25 C26 C27 C28 C29 C30 C31 C32 C33 C34 C35 C36 C37 C38 C39 C40 C41 C42 C43 C45 C46 C47 | D2 |

Other comments on the Evaluation

REPORT OF ACTIVITIES: The student must submit a report explaining the activities undertaken during practices, specifying its duration, departments of the company that were conducted, training received (courses, software, etc.), the level of integration within the company and personal relationships.

The report must also include a section of conclusions, containing a reflection on the adequacy of the lessons learned during the university studies to performance practice (negative and positive aspects significant related to the development of practices). It also assessed the inclusion of information on the professional and personal experience with the practices (personal assessment of learning achieved over practices or own contributions and suggestions on the structure and operation of the company visited).

The assessment of memory will be 60% of the final qualification.

COMPANY TUTOR EVALUATION: The company tutor will submit a report assessing aspects with the practices carried out by students: punctuality, attendance, responsibility, teamwork ability and integration in the enterprise, quality of work done, etc.

The assessment of the tutor in the company will be 40% of the final qualification.
