General description	Security Business addresses the necessary competencies to understand the operation of a Security Operation Center (SOC), from a technological, operational and intelligence point of view. The infrastructure, organization, operation and metrics mechanisms necessary for the business exploitation of the services associated with a SOC will be deepened. Different specialization environments will be studied, such as the banking sector, public administration or the military sector. CHECK THE GUIDE IN UDC

Description

=== EXCEPTIONAL PLANNING ===

Given the uncertain and unpredictable evolution of the health alert caused by COVID-19, the University of Vigo establishes an extraordinary planning that will be activated when the administrations and the institution itself determine it, considering safety, health and responsibility criteria both in distance and blended learning. These already planned measures guarantee, at the required time, the development of teaching in a more agile and effective way, as it is known in advance (or well in advance) by the students and teachers through the standardized tool.

=== ADAPTATION OF THE METHODOLOGIES ===

- * Teaching methodologies maintained
- * Teaching methodologies modified
- * Non-attendance mechanisms for student attention (tutoring)
- * Modifications (if applicable) of the contents
- * Additional bibliography to facilitate self-learning
- * Other modifications

=== ADAPTATION OF THE TESTS ===

- * Tests already carried out
- Test XX: [Previous Weight 00%] [Proposed Weight 00%]

...

- * Pending tests that are maintained
- Test XX: [Previous Weight 00%] [Proposed Weight 00%]

...

- * Tests that are modified
- [Previous test] => [New test]

- * New tests

- * Additional Information
