Methodologies

	Description
Troubleshooting and / or exercises	Activity in which they formulate problems and/or exercises related with the matter. The student has to develop the suitable or correct solutions by means of the ejercitación of routines, the application of formulas or algorithms, the application of procedures of transformation of the available information and the interpretation of the results. It is used to employ as I complement of the lesson magistral.
Master Session	Exhibition by part of the professor of the contents on the matter object of study, theoretical bases and/or guidelines of a work, exercise or project to develop by the student
Case studies / analysis of situations	Analysis of a fact, problem or real event with the purpose to know it, interpret it, resolve it, generate hypothesis, contrast data, reflexionar, complete knowledges, diagnose it and train in alternative procedures of solution.
Seminars	Activities focused to the work on a specific subject, that allow afondar or complement the contents of the matter. Can employ as I complement of the theoretical classes.

Presentations / exhibitions	Exhibition by part of the alumnado in front of the educational and/or a group of students of a subject on contents of the matter or of the results of a work, exercise, project... Can carry out of individual way or in group.
Introductory activities	Activities directed to take contact and gather information on the alumnado, as well as to present the matter.

Personalized attention

Methodologies	Description
Case studies / analysis of situations	By means of exposed calendar to the start of course will indicate time of tutorías. By means of email, telephone call the personal application will attend to the student in his pedagogical needs.
Troubleshooting and / or exercises	By means of exposed calendar to the start of course will indicate time of tutorías. By means of email, telephone call the personal application will attend to the student in his pedagogical needs.
Seminars	By means of exposed calendar to the start of course will indicate time of tutorías. By means of email, telephone call the personal application will attend to the student in his pedagogical needs.
Presentations / exhibitions	By means of exposed calendar to the start of course will indicate time of tutorías. By means of email, telephone call the personal application will attend to the student in his pedagogical needs.

Assessment

	Description	Qualification	Training and Learning Results		
Presentations / exhibitions	Exhibition by part of the alumnado in front of the educational and/or a group of students of a subject on contents of the matter or of the results of a work, exercise, project... Can carry out of individual way or in group.	30	B5 B6 B16	C23	D5
Multiple choice tests	Proofs for evaluation of the competitions purchased that include enclosed questions with different alternative of answer (true/false, multiple election, emparejamiento of elements...). The students select an answer between a number limited of possibilities.	70	B4 B6	C23 C24 C25 C26
