Web	http://www.cepovisa.com			
General description	He *estudiante will purchase *conocimientos *y *destrezas in *los *cuidados of basic infirmery, as well as in wools relate *personales.			

Competencies

Code	
A2	Students know how to apply their knowledge to their work or vocation in a professional manner and have the skills that are often demonstrated through the preparation and defense of arguments and the resolution of problems within their area of study.
A5	Students have developed those skills needed to undertake further studies with a high degree of autonomy.
B1	To be able, in the field of nursing, to provide a professional and technical health care, appropriate to the health needs of people they assist, in accordance with the state of development of the scientific knowledge of each moment and with the quality and safety levels established in the legal and ethical applicable standards.
B3	To know how to apply the foundations and technical and methodological principles of nursing.
B4	To be able to understand the interactive behaviour of a person on the basis of gender, group or community within his social and multicultural context.
B6	To apply the nursing interventions on scientific evidence and on the available resources.
B7	To know how to understand, without prejudice, people, considering their physical, psychological and social aspects, as autonomous and independent individuals, ensuring respect for their views, beliefs and values, besides ensuring the right to privacy, through professional confidentiality and secrecy
B10	To protect the health and well-being of individuals, families or groups assisted, ensuring their safety.
B11	To know how to establish effective communication with patients, families, social groups and colleagues. To promote training and information for health.
B12	To apply the ethical and deontological code of Spanish nursing, understanding the ethical implications of health in a world in transformation.
B13	To apply the principles of health and socio-health financing and use properly the available resources
B15	To be able to work with a professional team as the basic unit in which professionals are structured in uni or multidisciplinary and interdisciplinary way and the rest staff of the welfare organizations.
C4	Use of drugs, evaluating the expected benefits and associated risks or effects derived from its management and consumption.
C11	To establish an emphatic and respectful relationship with the patient and family, according to the situation of the person, problem of health and stage of development.
C12	To use strategies and skills that allow an effective communication with patients, families and social groups, as well as the expression of its worries and interests.
C18	To know and apply the principles underlying the comprehensive nursing care
C22	To promote the involvement of individual, groups and family in their health-disease process.
C29	To identify care needs arising from health problems.
C31	To perform the techniques and procedures of nursing care, establishing a therapeutic relationship with patients and families.

C33	To have cooperative attitude with the different members of the team.
C42	To identify structural, functional, psychological and life forms changes, associated with the aging process
C49	To provide care, guaranteeing the right to dignity, privacy, confidentiality and problem-solving ability of the patient and family.
C50	To personalise care considering age, gender, cultural differences, ethnic group, beliefs and values.
D6	Skills in interpersonal relationships
D7	Critical reasoning.
D8	Autonomous learning.
