Methodologies	
	Description
Problem solving	Activity in which problems and/or exercises related to the subject are posed. The student should develop suitable and correct solutions by practising routines, applying formulae or algorithms, applying processing techniques to the data available and interpreting results. This activity is usually used to complement lectures.
Lecturing	Explanation given by the lecturer of the contents of the subject being studied. Practical examples may be developed to clarify theoretical concepts.

Personalized assistance			
Methodologies	Description		
Problem solving	Problem solving and/or exercises		

Assessment					
	Description	Qualification	Training and Learning Results		
Problem solving	Problem solving and/or exercises: On-site written exam including theory (short or multiple-choice questions) and practical sections. A minimum mark may be required to pass.	50	B5 C7 D1 B6 C13 D4 B7		

Lecturing

Assessment carried out through exercises and/or short questions or multiplechoice questions on the content covered in the lectures. A minimum mark may be required to pass. 50 A1 B5 C7 A2 B6 C13 A3 B7 A4 A5

Other comments on the Evaluation

Continuous assessment: 1.- The assessed tests described above make up 50% of the total mark. When sitting an exam in the second examination period, the mark from these tests will be saved. 2.- A written exam with both theory and practical sections makes up the remaining 50% of the total mark. This will be held at the end of term. A minimum level will be required to pass. Those students whose marks are not higher than the minimum established for the exam will fail. Those students who do not pass Stage 1 of the continuous assessment and those who have not been following it will be assessed through a global exam based on all the subject content, practical skills and adaptation to new situations. A compulsory minimum mark will be required. Those students whose marks are not higher than the minimum established will fail. Conduct deemed to be inappropriate, contrary or damaging to social harmony may be penalised and lead to the loss of the student[]s right to continuous assessment.

For the second examination period, an on-site written exam will be held to assess the student s competences in relation to the subject, and a minimum mark will be required to pass. Those students whose marks are not higher than the minimum established will fail.

Dates and times of the exams for each examination period are specified in the assessment tests calendar approved by the Faculty of Business Studies and Tourism Board for the academic year 2021-220. In the event of there being any conflict or disparity between exam dates, those indicated on the FCETOU website will prevail.
