Contents

Topic		
Approach to environmental management systems.	Topic 1. Introduction to environmental management and environmental management systems.	
	Topic 2. Environmental management instruments.	

Development and implementation of an environmental management system.

Topic 3. Introduction to the ISO 14001 standard and the EMAS regulation.

Topic 4. Basic implications of the implementation of an Environmental Management System.

Topic 5. Requirements of the Environmental Management System.

Integration with quality systems and other tools related to Environmental Management Systems

Topic 6. Key aspects in the integration of Systems.

Topic 7. Life Cycle Analysis.

Planning

	Class hours	Hours outside the classroom	Total hours
Seminars	26	58	84
Lecturing	12	30	42
Mentored work	1	10	11
Mentored work	1	10	11
Problem and/or exercise solving	2	0	2

*The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

Methodologies

	Description
Seminars	Training in the resolution of situations and practical cases.
Lecturing	Explanation and discussion in the classroom of each topic.
	The master session aims to facilitate the basic training of students in this subject.
Mentored work	Proposal for the resolution of practical cases autonomously for students.
Mentored work	(*)Proposta para a resolución de casos prácticos de xeito autónomo para o alumnado.

Personalized assistance

Methodologies	Description
Lecturing	Through presentation in the classroom and using the Moovi tele-teaching platform, encouraging the active participation of students at all times.
Seminars	Through individual or group tutoring to carry out practical cases.
Mentored work	During tutoring hours individually or in a small group.
Mentored work	
Tests	Description
Problem and/or exercise solving	During the realization of exercises or activities.

Assessment

	Description	Qualification	Training and Learning Results			
Seminars	Assistance and attitude during the realization and quality of the activities carried out.	10	A3 A4	B1	C8 C9 C12 C14	D1 D3 D4 D5
	Evaluation of learning results 1 and 2					D9
Mentored work	Execution of an Environmental Management System.	30	A3 A4	B1	C8 C9 C12 C14	D1 D3 D4 D5
	Evaluation of learning results 1 and 2.					D9
Mentored work	Execution of an Environmental Management System.	30	A3 A4	B1	C8 C9 C12 C14	D1 D3 D4 D5
	Evaluation of learning results 1 and 2.					D9
Problem and/or exercise solving	Issues related to the training provided during the master classes and seminars.	30	A3 A4	B1	C8 C9 C12 C14	D1 D3 D4 D5
	Evaluation of learning results 1 and 2					D9

Other comments on the Evaluation

The continuous evaluation modality will be used as preferred following the sequence of activities proposed. Students who want Global Assessment (100% of the grade in the official exam) must notify the person responsible for the subject, by email or through the Moovi platform, within a period not exceeding one month from the beginning of the teaching of the subject.

It is an essential requirement to achieve at least 50% of the grade in each of the sections: master class and seminars in order to pass the subject.

For the second edition, the partial marks obtained will be maintained, with the exception of the one corresponding to the exam.

The End of Degree call will be a single final exam with a value of 100% of the grade.

Date of exams:

End of Race 09/20/2023 at 4:00 p.m.

1st edition 11/06/2023 at 10 a.m.

2nd edition 07/04/2024 at 10 a.m.

In any case, if the dates of the exams do not coincide with the dates published by the Faculty of Sciences, what is published on its website and on the bulletin board will be valid.
