A información sobre as actividades avaliativas está dispoñible no espazo da materia no campus virtual, baixo a etiqueta Avaliación de cada tema.

Para poder sumar as cualificacións dos exames coa do resto de metodoloxías/probas, será necesario obter unha puntuación mínima de 4 puntos sobre 10 en cadanseu exame.

Existe a posibilidade de realizar unha actividade voluntaria seguindo a metodoloxía da Aprendizaxe Baseada en Proxectos (ABP). O alumnado traballará os Obxectivos de Desenvolvemento Sostible da Axenda 2030 conxuntamente en tres materias ("Ciencia política", "Ciencia da administración e Xestión Pública" e "Economía Pública") segundo os criterios que se indicarán no seu momento na plataforma virtual.

O alumnado terá opción a presentarse á convocatoria extraordinaria (segunda convocatoria) a partir da adaptación que destas actividades realice o docente e cuxo contido será colgado da plataforma.

Other comments on the Evaluation

In this subject there is the option of carrying out a voluntary activity following the methodology of Project-Based Learning (PBL). Students will work on the Sustainable Development Goals of the 2030 Agenda together in three subjects ("Political Science", "Science of Administration and Public Management" and "Public Economics"). The evaluation of this activity will have a value of 2 points in the final grade.

□ The information about the evaluation activities is available in the space of the subject in the virtual campus, under the label □Evaluación□ of each topic.

□ Students will have the option to present themselves to the extraordinary call (June Exam) based on the adaptation of these activities by the teacher and whose content will be posted on the platform. The Second Chance exam might consist of an exam that scores 100% of the grade.

□ It will be a necessary requirement for the development of the subject that the teaching staff can have an updated PHOTOGRAPH* of the students that must be uploaded to the platform at the beginning of the course, and always before September 30.

(*) The sole purpose of processing this data is so that the teaching staff of the subject can verify the identity of the students enrolled in it. The basis of legitimacy for the treatment of this data is carried out in application of the provisions of article 6.1y) of the RXPd in which the treatment is necessary for the exercise of the public powers conferred on the person responsible for the treatment based on article 9 of the Law 39/2015, of October 1, of the common administrative procedure of public administrations and in article 25.7 of RD 1791/2010, of December 30, for which the University Student Statute is approved.

Access to the image and personal data of the students is only allowed to the teachers of each subject for the performance of the academic activities indicated in this teaching guide and they will not be used or disclosed for any other purpose, and the corresponding duty of confidentiality must be kept.

That shape the design and operation of the political system in the that are simultaneously overlapping how citizen and university students. Given the extension and complexity of the subjects to treat, easily will result to understand, that need to do a compendium very strict of the same in the academic journey of this subject. That is also one of the reasons that advises a different space of treatment of each of the subjects.</p> <p>The student of this discipline can fall in the temptation that it results donated to assimilated since all it in her treated sounds more or less next, well poles his previous knowledges, well pole informative treatment of the diaries mass media of the country that include always any of the elements included in the program. It Would be, in the senior part of the cases, a severe root that you need avoid. No it think neither that it can have overlap of contents with any already studied subject; it is not like this because the Political Science is the science of the realism and, therefore, go more there of the appearances or of the illusory normativism since it can show how behind one beautiful juridical frame, even constitutional, can dominate the corruption, the nepotism or the mere non-compliance. Here You can put that our objectives are very ambitious: because they aspire to explain how works in the reality our political model in the three parts in that comes divided the subject.</p> <p>The basic information envelope to subject finds in this teaching Guide of the subject and in the platform Moovi of the University of Vigo. 	The choice between carrying out the Case Studies through works, or carrying them out by the methodologies of (ApS and Innovation Project) will be voluntary by the students, who will be duly informed from the beginning of the teaching of the subject about both modalities, its realization and evaluation. The teacher will also publish this detailed information in the space reserved for the subject in Moovi.					
	ApS is an EXPERIENTIAL LEARNING (connecting with various groups through one or several public entities), preparing students for global citizenship and social responsibility in an interconnected, "glocal" world, especially in THEMES ALIGNED WITH THE SDGS OF THE 2030 AGENDA: protection of cultural heritage; equality and non-discrimination; protection of the environment; food security (sustainable and resilient agricultural practices and genetic diversity); circular economy; global food waste; energy and renewable problems; new technologies and the effect on fundamental rights. The TEACHING INNOVATION PROJECT will also be aligned to these themes of the subject.					

Other comments on the Evaluation

The information about the evaluation activities is available in the space of the subject in the virtual campus, under the label Evaluation of each topic.

It is an essential condition for the completion of the final evaluation of the subject, obtaining at least 0.5% in each of the sections (Test type tests, Practices and Case studies).

As expressed in previous sections, throughout the course there will be 3 tests with a weighting or value of the Tests = Test Type Tests (40%) + Practices (Problem Solving) (30%) + Case Studies (30%). In the ordinary call and in the extraordinary call, a period will be opened so that students can undergo these tests through continuous evaluation, prior to the official date established by the Faculty for the "final exam". In this way there is the possibility of carrying out the evaluation (continuous and / or global evaluation) in the ordinary call and in the extraordinary call.

In the extraordinary call (June / July) the same criteria indicated for the ordinary call or first call will be applied, except in relation to the PBL, ApS and Innovation Project methodologies of the Faculty, which must be carried out in the 1st call or ordinary call (from September to December). Students will have the option to apply for the extraordinary call (second call) from the adaptation of these activities made by the teacher and whose content will be posted on the platform.

This subject is English Friendly, which implies the following commitment: The subject is taught in Spanish but the teacher has translated the teaching guide into English; Materials and bibliographic references will be provided for the follow-up of

the subject in English, tutorials will be attended in English, if the international student demands it, and tests and evaluations will be designed and implemented in English (all this will be done if the international student demands it).

It will be a necessary requirement for the development of the subject that the teaching staff can have an updated PHOTOGRAPH* of the students that must be uploaded to the platform at the beginning of the course, and always before September 30.

(*) The sole purpose of processing this data is so that the teaching staff of the subject can verify the identity of the students enrolled in it. The basis of legitimacy for the treatment of this data is carried out in application of the provisions of article 6.1y) of the RXPD in which the treatment is necessary for the exercise of the public powers conferred on the person responsible for the treatment based on article 9 of the Law 39/2015, of October 1, of the common administrative procedure of public administrations and in article 25.7 of RD 1791/2010, of December 30, for which the University Student Statute is approved. Access to the image and personal data of the students is only allowed to the teachers of each subject for the performance of the academic activities indicated in this teaching guide and they will not be used or disclosed for any other purpose, and the corresponding duty of confidentiality must be kept. the same.

Other comments on the Evaluation

La nota alcanzada en la evaluación continua tendrá un peso del 40% en la calificación global. La nota obtenida en el examen final tendrá un peso específico del 60% en la calificación global

Para poder presentarse al examen final y que se respete la nota da evaluación continua será imprescindible que: (1) el estudiante haya realizado todas las pruebas de la evaluación continua; y que (2) alcance un aprobado en las pruebas de las que conste la evaluación continua. Si no se cumpliesen ambos requisitos, el estudiante deberá hacer la prueba final en la modalidad que se indica al final de este apartado.

Para que la nota de la evaluación continua se sume a la del examen final será preciso que el alumno alcance un aprobado en este último.

Los estudiantes que no superen la evaluación continua podrán realizar el examen final pero deberán superar una parte específica en la que serán evaluados de las competencias trabajadas en la evaluación continua no superada.

EVALUACIÓN CONTINUA Y EVALUACIÓN GLOBAL

A priori se entiende que todo el alumnado sigue la evaluación continua, cuyo compromiso se adquiere con la participación en las actividades de evaluación. Aquella persona que desee presentarse a una única prueba en la fecha oficial (evaluación GLOBAL) debe comunicarlo según indica la normativa durante el primer mes desde el inicio del curso. La evaluación GLOBAL constará de una prueba final general con la que es posible medir todas las competencias, por lo tanto, la prueba será diferente a la del alumnado de evaluación continua. La calificación final del alumnado de evaluación continua será la media de las calificaciones alcanzadas en las actividades realizadas durante el curso (60% de la nota final) y el examen final (40% de la nota final). Para calcular la nota media es obligatorio alcanzar una puntuación mínima de 4 puntos en el examen. Si no se alcanzan los 4 puntos, la nota que constará en la evaluación será suspenso con la nota numérica que corresponda una vez obtenida la media entre ambas partes, excepto en el caso de que esta sea superior a 5, en cuyo caso se consignará la puntuación de 4,9. La persona que no se presente al examen constará como No Presentado, aunque haya entregado actividades de evaluación continua.

La asistencia a las clases, así como la actitud, buena disposición y participación en las mismas se tendrán en cuenta positivamente en la calificación final y matrícula de honor.

APRENDIZAJE BASADO EN PROYECTOS

De forma voluntaria, el alumnado puede sustituir la metodología/prueba "trabajo tutelado" por "aprendizaje basado en proyectos". En lugar de desarrollar un pequeño proyecto de investigación a través de fuentes primarias o secundarias, continuarán con el trabajo realizado con esta metodología en la asignatura Gobernanza, Globalización y Derechos Humanos. La propuesta del alumnado y, después de establecer objetivos y procedimientos autorizados por el docente, es posible aplicar esta metodología a otro proyecto.

CONVOCATORIA EXTRAORDINARIA

Durante el mismo curso académico, se mantendrán las notas de las pruebas superadas en la primera convocatoria (ordinaria) para la segunda convocatoria (extraordinaria). Se podrán entregar pruebas no realizadas o suspendidas, excepto aquellas que se realizaron en el aula y no sea posible recuperar la puntuación relativa a la participación y asistencia.

General description	<p>It is not possible to understand the state political models of the 21st century without referring to the higher or lower levels of political decentralization that they have. The modern State was born as a backbone in the centralization of power against the disintegration of power typical of medieval polyarchy and which the enlightened accused as absolutely irrational and as a source of obscurantism and injustice. Like many Jacobin archetypes, this one has had a limited practical journey, almost always hindered, to a greater or lesser extent, by the multiple pre-existing local powers, and it is very difficult to stop the enormous and rich pluralism that characterizes the different modes of coexistence in the society that we design human beings. Be that as it may, these tensions were, in many cases, persistent in most state political organizations, characterizing one of the lines of social fracture that Rokkan singles out. Even in little more than two centuries, the symbol of modernity that centralization represented, has become the opposite, criticized for lack of it.</p> <p>The Spanish State is not only not an exception to the pattern we have indicated, but the cleavage, the center-periphery split, seems to be at the heart of its social and political existence throughout its history and, as an idiosyncratic element that is, its vitality has not diminished over time, not even due to the persistent and even violent combat of the various political regimes experienced; on the contrary, in our contemporaneity it continues to be the focus of permanent conflicts and defining state and sub-state agendas of all kinds (political, social, media, economic).</p> <p>The study of the Autonomous Governments subject aims to address the complexity of this phenomenon by focusing on the institutionalized model in 1978, although it should be borne in mind that its evolution in the last forty years has led to numerous changes and, as noted, it is a latent problem in the permanent attempt to find solutions to the problematic Spanish territorial structure, characterized by emotional impulses rather than by organizational rationality. It can be seen, in conclusion, that the topic will be difficult to interpret but, precisely for this reason, it will be a challenge for the Science of Politics that we intend to implement from our classrooms.</p> <p>English Friendly subject: International students may request from the teachers: a) materials and bibliographic references in English, b) tutoring sessions in English, c) exams and assessments in English.</p>
