

(*)Facultade de Ciencias Económicas e Empresariais

Presentación

(*)

A Facultade de Ciencias Económicas e Empresariais ten unha ampla traxectoria dentro da nosa universidade. A principios dos 70 xa se impartían ensinanzas de Ciencias Económicas no antigo Colexio Universitario de Vigo, que en 1980 pasaría a integrarse na Universidade de Santiago de Compostela. En 1990 segrégase no Campus de Vigo, o que suporá o nacemento da Universidade de Vigo.

No curso 1991/92 iníciase a docencia das licenciaturas de Ciencias Económicas e de Ciencias Empresariais no edificio actual, rexistrándose dos procesos de reforma dos seus plans de estudos nos anos 1995 e 2002. A raíz da promulgación do RD 1393/2007 sobre ordenación das ensinanzas universitariasponse en marcha o proceso de adaptación ao Espazo Europeo de Educación Superior, de tal xeito que, para o curso académico 2009/10, comezarán a impartirse as titulacións de Grao en Administración e Dirección de Empresas e en Economía ás que se refiren estas guías.

Perséguese con elo ofertar unhas titulacións máis adaptadas ao contexto actual, cunha adaptación das metodoloxías docentes orientadas cara a aprendizaxe do alumnado e o desenvolvemento das súas capacidades.

Localización

(*)

A Facultade de Ciencias Económicas e Empresariais de Vigo está no Campus de Lagoas/Marcosende, aproximadamente a 15 km. de la ciudad.

En caso de precisar información é posible contactar a través das seguintes vías:

Correo - Facultade de Ciencias Económicas e Empresariais, Campus de Lagoas-Marcosende, s/n, 36310 VIGO

Servizos ofertados

(*)

A Facultade conta cunha importante dotación de infraestructuras destinadas a dar soporte ás actividades de investigación, docencia e extensión universitaria. Resumidamente, hai 15 aulas de docencia, 13 aulas-seminario, 6 aulas de informática e un aula informática de libre acceso. Adicionalmente dispón dun salón de actos cun aforo aproximado dunhas 550 persoas , un salón de graos para 60-80 personas, biblioteca con 400 postos de lectura e cafetería-comedor.

A continuación desglósase a información sobre servicios importantes para o alumnado:

SERVICIOS OFERTADOS AOS ESTUDANTADO

- AULA INFORMÁTICA DE LIBRE ACCESO:

Ordenadores a disposición dos alumnos con aplicaciones de uso corrente, acceso a Internet e posibilidade de impresión de documentos

- REDE INALÁMBRICA:

Acceso WIFI a Internet en toda a Facultade.

- REPROGRAFÍA:

Fotocopias, encuadernacións, transparencias, impresión de documentos, material de estudio, etc...

Horario regular : Mañá de 9 a 14 h. - Tarde de 15:45 a 18:00 h.

- CAFETERÍA E COMEDOR:

Servicio de cafetería completo, almorzos e comidas con menús do día.

Horario SS.Cafetería: De 8:45 a 21 h.

Horario SS.Comedor: De 13 a 15:30 h.

- SERVICIOS ADMINISTRATIVOS:

Servicios de xestión do alumnado (matriculas, traslados, solicitudes de validacións, emisión de títulos, etc...), asuntos económicos e secretaría do Decanato.

Horario atención ó público: De 9 a 14 h.

- BIBLIOTECA:

Servicio de asesoramento e empréstito bibliográfico, salas de estudio e lectura e consulta bases de datos.

Para o servicio de empréstito requírese carnet de biblioteca.

Dotacións: 414 postos de lectura e estudio.

2 postos consulta bases de datos.

29.000 volumes aprox. (libros, informes, etc.)

560 títulos de publicacións periódicas:

330 revistas e 230 estatísticas.

Other comments on the Evaluation

Sistema de avaliación continua (AC): Realizánsense ao longo do curso 3 probas, cunha ponderación do 35%, 25% e 40% respectivamente. A última destas probas terá lugar o mesmo día que o exame final, avaliación global (AG). Alternativamente ao sistema de avaliación continua, o estudiantado poderá optar a ser avaliado con exame final, que suporá o 100% da cualificación. Igualmente poderase optar a ser avaliado con exame que suporá o 100% da cualificación na segunda convocatoria.

A avaliación da convocatoria fin de carreira, consistirá na resolución dunha proba escrita presencial, sobre a parte teórica e practica da materia. Na convocatoria de Fin de carreira, o exame suporá o 100% da cualificación.

As diferenzas entre sistemas de avaliación entre os distintos centros que imparten o Grao en Administración de Empresas na Universidade de Vigo xustifícase pola necesaria adaptación ou na medición da consecución dos mesmos resultados de aprendizaxe e adquisición de iguais competencias ás diferentes organizacións docentes de cada Centro, especialmente en canto a tipo de grupos e número medio de alumnos por grupo.

El alumnado que no participe en la AC ni en la AG, figurarán en las actas como no presentados.

Recoméndase ao alumnado ter en conta o Título VII (Do uso de medios ilícitos), del Regulamento sobre a Avaliación, a calificación e a calidade da docencia e do proceso de aprendizaxe do estudiantado (<https://secretaria.uvigo.gal/uv/web/normativa/public/normativa/documento/downloadbyhash/4904ced4d24eb81fe5715ddd2c48c59c0a7c4d624cd0e7491df7a753985ccfa>)

As datas e horas das probas da AG (de primeira y segunda oportunidade) son as especificadas no calendario de probas de avaliación aprobado para Xunta de Facultade para o curso 2023/24. Noa caso de conflito ou disparidade entre as datas dos exames, prevalecerán la publicadas na web da facultade, <http://fccee.uvigo.es/organizacion-docente.html>

A información sobre as tutorías está na páxina da materia na plataforma Moovi e seá polo sistema de concertación previa

Methodologies

	Description
Lecturing	The attendance and active participation of students in the classroom is required through exhibitions, exercise resolution, discussions and other activities. The student is advised to pre-work on the material provided by the teacher and to consult the recommended literature to complete the information in order to follow the explanations.
Presentation	Students presentation to the teacher and/or a group of students of a topic on content of the subject or the results of a work, exercise, project... It can be done individually or as a group.
Problem solving	Activity in which problems, case studies, learning projects and/or exercises related to the subject are formulated. In some cases students must develop the right or correct solutions through routine exercises, the application of formulas or algorithms, the application of procedures for transforming the available information and the interpretation of the results. In others, it is a student activity that includes the search and collection of information, reading and management of bibliography, writing, application of knowledge and skills in collaborative projects in interdisciplinary groups, etc. In addition, the results of the work will be presented by the students to the teacher and /or the group of students w. It can be done individually or as a group.
Project based learning	This activity allows the cooperation of several subjects and confront students, working as a team (which can be collaborative and interdisciplinary), with open problems. It allows them to train, among others, the capabilities of learning in cooperation, leadership, organization, communication and strengthening personal relationships.
Portfolio/dossier	Compilation of the student's work with the objective of demonstrating their efforts, progress and achievements in an area.
Seminars	Interviews that the students hold with the teachers of the subject for advice/development of activities of the subject and the learning process. The tutorial schedule and procedure are indicated on the Moovi educational platform.

Personalized assistance

Methodologies	Description
Lecturing	Time dedicated to the resolution of questions and doubts. This activity is developed in class meetings of the professor with the students and/or in the professor's office.
Problem solving	Time dedicated to the resolution of questions and doubts. This activity is developed in class meetings of the professor with the students and/or in the professor's office.
Presentation	Time dedicated to the resolution of questions and doubts. This activity is developed in class meetings of the professor with the students and/or in the professor's office.
Project based learning	Time dedicated to the resolution of questions and doubts. This activity is developed in class meetings of the professor with the students and/or in the professor's office.

Assessment

Description	Qualification	Training and Learning Results

Presentation	This refers to oral presentations by the the students in front of the proffessor and/or a group of students of a piece of the subject, of any class related content, or of the results of a work, exercise, project□ They can be done individually or in group They are mandatory and not recoverable activities and have to be done on the dates set.	20	B1 B5 B9 B13	C14
Problem solving	These assesments allow to evaluate the students capability to apply the acquired theoretical and practical knowledges in a team work and/or autonomously, as well as the oral and written communication skills with others. These activities have to be delivered in the established dates and sessions. It is a mandatory and not recoverable activity.	10	B1 B5 B9 B13	C14
Project based learning	The ability to apply the knowledge acquired in the theoretical-practical sessions to a global project (real or fictitious) is evaluated, as well as teamwork, presentation and content. They are mandatory and not recoverable activities and have to be done on the dates set.	20	B5 B9	C14
Portfolio/dossier	The suitability of the delivered material is evaluated in relation to the indications of the assigned task. Work activities and its collection during class sessions. They are mandatory and not recoverable activities and have to be done on the dates set.	10	B1	C14
Objective questions exam	Activities designed for the evaluation of acquired competences both in the theoretical and the practical clases of the subject. They can include questions with different type of answers (true/false, multiple election,...) as well as short, numerical or essay questions. Students have to either select a response/s from a limited number of possibilities, and/or to respond to the questions, essays or exercises that they are asked. The erronee answers penalise. The professors mighth ask for a PDF with the resolutions Partial exams can be done along the semester. It will be considered as part of the content of the subject, and therefore, will be subject to evaluation, the theory from the text book, the exercises as well as all reading, activity, case, audiovisual material, web page, work or comment indicated or made by the professors in the classroom in boht theoretical and practical classes.	40	B13	

Other comments on the Evaluation

To pass the subject two conditions are required: (1) to obtain a minimum of 5 points in the whole of the tests/methodologies considered to be evaluated, and (2) to obtain a minimum of 5 points in the final examination (marked on 10) in order to add the rest of the valuables methodologies. The score obtained by the participation as well as the realization and delivery of all those activities and tasks established by the professor (cases, exercises, supposed, exhibitions, memories or any other), will be kept in the first and second evaluation calls of the academic course but in any case they will be saved for successive courses/years. In the final call or the final evaluation of the grade, the exam will take 100% of the grading.

The students may choose to be evaluated through the continuous assessment system (CA), or alternatively opt for a Global Assessment (GA) test. The default evaluation is CA. Students may choose GA according to the procedure and the period established by the center. Choosing GS implies formally indicating the right to continue evaluating through the remaining CA activities and the grade obtained up to that moment in any of the tests/activities that have already been taken.

In case of NOT giving up the continuous assessment, it will be considered that the student has taken the continuous assessment when they have taken any of the tests/assessment activities of this modality.

The students who do not follow the continuous evaluation must indicate it BEFORE one month from the beginning of the semester. In this case, they will be evaluated by means of a final written (or oral, if needed) exam/evaluation scored on 10 points (100% of the grading). In this case, the exam and evaluation activities do not have to coincide with the ones for those students that follow the continuous evaluation. In such exam both theoretical and practical contents will be evaluated, as well as the students critical capability.

The dates and times of the GA tests (first and second chance) are those specified in the evaluation test calendar approved by the Xunta de Facultade for the 2023/24 academic year. In case of conflict or disparity between exam dates, those published on the faculty website will prevail. <http://fccee.uvigo.es/organizacion-docente.html>.

It is recommended that students take into account Title VII (Use of illegal means), of the Regulation on Assessment, qualification and quality of teaching and the student learning process of the University of Vigo

Other comments

This educational guide anticipates the learning assets and methodologies for the development of the subject and it is conceived in a flexible form. The data that appear in this guide and in its planning and educational methodologies are orientative by considering adjustments derived from the heterogeneity of the groups and of the students or any other circumstance that may arise.

In consequence, it can require readjustments along the academic course promoted by the dynamics of the class and of the group or by the importance of the situations that could arise.

Likewise, The teaching staff will offer students the information and material that is necessary for the realization of the proposed activities through the educational platform of the University of Vigo (MOOVI), as well as the specific guidelines at each moment of the training process.

This subject is also in the PCEO Administration and Business Degree and Law Degree. It is taught during the first semester of the fourth course and it is taught by Prof. Dr. Carmen Otero Neira.

Essay questions exam	Proofs that include open questions about a subject. The students must develop, relate, organize and present the knowledges that they have about the subject in an extensive answer. This evaluation consist of two exams to evaluate the Part I (35%) and Part II (35%).	70	B1	C1		
			B2	C3		
			B5	C5		
			B13	C11		
				C12		

Other comments on the Evaluation

All the specifications about the evaluation will be clearly detailed on Moovi, in the document 'Conditions of the subject' at the beginning of the course.

The dates and hours of the official examinations (first and second call) are the specified in the exams calendar approved by Xunta de Facultade for the present academic course, and will be able to consult on the website of the faculty: <http://fccee.uvigo.es/>

The students will be able to choose to be evaluated under a continuous assessment frame (EC), or alternatively a non-continuous assessment frame (EG). The assessment by default is the EC. The election of EG supposes the renunciation of the right to be evaluated under EC and the qualifications obtained until this moment. Independently of the modality of evaluation (continuous or global), it is necessary to have at least a 5 (over 10) in each test/evidence of evaluation to pass the subject. Equally, all the tests/evidence are liberatory for all the calls of the present course. Students can take the exam with the part that has been failed in the official calls to pass that part.

CONTINUOUS ASSESSMENT (EC)

The EC will be considered when the student has attended and participated actively in more than 80% of the practical classes and has delivered 100% of the cases proposed in the practical sessions. In case of unattendance of the 80% of the practical sessions, it will be understood that the student has opted for EG.

For the students under EC, the absence of some face-to-face practice by a justified cause (inside the percentage to keep the EC) will lead to the students to do and present individually the corresponding case of that practical for students of EG.

The test/evidence of evaluation for the assessment EC will be the following:

1. Practical cases developed in group in the face-to-face sessions of practices (30%): 70% result of the case + 30% active participation in the group.
 2. Individual examination for evaluation contained Part I (35%)
 3. Individual examination for evaluation contained Part II (35%)
- All the EC tests/evidence will be done during the first four-month period.

GLOBAL EVALUATION (EG) The EG is headed to students that opt by this modality of evaluation or students that have not met the EC conditions. The students of EG will have the right to be evaluated for the practical classes, although they do not attend them. This evaluation will consist of an individual Examination for practices and an individual work for the practices proposed specifically on Moovi, that should be delivered on the date of the official examination.

The EG consists of the following test/evidence of evaluation, only in official announcements, that will conform 100% of the qualification (10 on 10), with the following weighting:

1. Individual examination for evaluation contained Part I (35%)
2. Individual examination for evaluation contained Part II (35%)
3. Individual examination for evaluation of practices (15%)
4. Individual work on practices (15%) - work proposed specifically on Moovi, to be delivered on the date of the official examination.

FIN DE CARRERA CALL

In the fin de carrera call, the evaluation will consist of the following tests, that will conform 100% of the qualification (10 on 10), with the following weighting:

1. Individual examination for evaluation contained Part I (35%)
2. Individual examination for evaluation contained Part II (35%)
3. Individual examination for evaluation of practices (30%)

In the Fin de Carrera call, the student must obtain a minimum of 5 in each proof of evaluation to surpass the subject.

The students that do not participate in the EC neither in the EG, will have the qualification of "no presented". It will be considered that students who have done any of the activities/tests of evaluation are under EC.

With independence of the assessment modality or call, students must take into account the Title VII (on the use of illicit means), of the Regulamento da Avaliación, calificación e a calidade da docencia e do proceso de aprendizaxe (available on the link <https://secretaria.uvigo.gal/uv/web/normativa/public/normativa/documento/downloadbyhash/4904ced4d24eb81fe5715ddd2c48c59c0a7c4d624cd0e7491df7a753985ccfa>)

General description	RFE é unha materia que ten como obxectivo introducir ao alumnado no campo da fiscalidade aplicada. En particular, desenvólvense dous dos impostos máis importantes que inciden na actividade empresarial: o IRPF e o Imposto de Sociedades. Esta materia tamén se imparte no PCEO de ADE-DEREITO en 5º curso, 2º cuatrimestre.			

Resultados de Formación e Aprendizaxe

Metodoloxía docente

	Description
Actividades introductorias	Presentación do contido e obxectivos da materia. Metodoloxía de traballo e sistemas de control e avaliación.
Lección maxistral	Para cada tema o docente presentará na aula as cuestións mais relevantes e formulará a metodoloxía a seguir para interpretar as consecuencias e efectos prácticos da norma tributaria. Posteriormente o alumno deberá revisar de xeito autónomo os contidos expostos.
Estudo de casos	Realizaranse sesións prácticas que terán lugar en aulas-seminario. Para cada sesión proporánse casos a estudar en grupos reducidos (de 3 ou 4 estudantes) conformados ó inicio do curso. Cada grupo deberá comentar, resolver e defender os casos plantexados. O alumnado disporá previamente dos enunciados dos casos a través da Plataforma Virtual e deberá elaborar no seu grupo reducido unha primeira proposta de solución xustificada que deberá ser entregada a través da Plataforma Virtual antes do desenvolvemento da sesión presencial.
Prácticas con apoio das TIC	As sesións prácticas en aula informática faranse de xeito individualizado e consistirán na resolución dun caso práctico empregando as aplicacións informáticas da Axencia Tributaria. Para o seu desenvolvemento o alumnado disporá previamente do enunciado do caso na Plataforma Virtual.
Resolución de problemas de forma autónoma	Cada semana, despois da sesión maxistral, abrirase un formulario práctico dixital (de resposta curta ou test) na Plataforma Virtual, relativo aos contidos desenvolvidos na sesión maxistral e na práctica. Trátase de actividades non presenciais que posibilitan o seguimento e avaliación do alumnado, que deberá responder nos prazos sinalados.

Atención personalizada

Methodologies	Description
Estudo de casos	Farase un seguimento individualizado dos resultados acadados e das dúbidas surxidas nos estudos de caso. A resolución de dúbidas realizarase en modalidade presencial. De concurrir circunstancias extraordinarias as sesións de titorización poderán realizarse por medios telemáticos no Despacho Virtual baixo a modalidade de concertación previa. De selo caso, estas titorías tamén poderán ser colectivas sobre temas específicos.
Prácticas con apoio das TIC	O alumnado resolverá de xeito individualizado casos prácticos nas aulas de informática empregando os programas da Axencia Tributaria (Simulador RentaWeb e Simulador SociedadesWeb)

Avaliación

	Description	Qualification	Training and Learning Results			
Estudo de casos	A entrega das propostas de solución dos estudos de caso (prácticas) feitas en grupo avaliarase conxuntamente coas probas tipo tests: será necesario ter entregado alomenos 6 casos para ter puntuación nas probas test.	0	A2	B1 B3 B9	C8 C16	D1
Resolución de problemas de forma autónoma	En AC avaliarase e puntuarase a resolución dos test propostos despois de cada tema. En AC este apartado de traballo persoal puntuarase sobre un máximo global de 3 puntos (30%). Será requisito necesario para obter puntuación neste apartado que o grupo ao que pertence cada estudante teña entregado alomenos 6 propostas de solución dos estudos de caso.	30	A2	B10 B13	C8	
Exame de preguntas de desenvolvemento	En AC ó remate das partes II e III do programa da materia, en dúas sesións presenciais, proporase un caso que o alumnado deberá resolver de xeito individual e que permitirá avaliar o seu nivel de coñecementos e capacidade de argumentación e xustificación das decisións adoptadas. A proba relativa ó IRPF puntuarase cun máximo de 4 puntos (40%) e a relativa ó IS cun máximo de 3 puntos (30%).	70	A2	B10 B13	C8	

Other comments on the Evaluation

Nesta asignatura realizarase unha avaliación continua (AC) do traballo realizado polo estudante, que será o sistema de avaliación preferente.

Para superala asignatura por AC deben cumprirse dúas condicións:

1. Acadar alomenos un 25% da nota en cada un dos tres apartados puntuables (proba IRPF, proba IS, tests).
2. Obter alomenos 5 puntos na suma destes tres apartados puntuables (probas IRPF e IS, tests).

A non presentación a calquera das dúas probas presenciais escritas (IRPF e IS) suporá que o estudante deixa de ser avaliado en AC.

Tamén se sairá da AC se non se acada alomenos un 25% da nota máxima en cada un dos tres ítems avaliados (proba IRPF, proba IS, tests).

A nota final por AC será a suma das notas parciais obtidas ata ese momento.

Aqueles estudantes que se queden fora da AC terán a opción de presentarse á proba de Avaliación Global (AG) na convocatoria oficial. Esta proba de AG consistirá na realización de dous estudos de caso completos, un de IRPF e outro de IS. A proba AG suporá o 100% da cualificación e non terá en conta os puntos obtidos en Avaliación Continua.

En caso de non presentarse pero ter feito traballo de AC a nota final será a obtida en AC.

O alumnado que se presente a convocatoria extraordinaria ou a convocatoria de fin de carreira realizará una proba de Avaliación Global con dous estudos de caso (IRPF e IS). Esta proba valerá o 100% da cualificación.

As datas dos exames finais poderán ser consultadas en www.fcce.uvigo.es

Traballo	Realización por parte do alumnado dun traballo escrito sobre un tema concreto. Avaliarase a súa capacidade de aplicar os conceptos asimilados nas clases maxistras a situacións nun contexto real ou similar.	15	B1 B2 B4 B5	C1 C3 C5 C6	D1 D2 D3 D4

Other comments on the Evaluation

O método de avaliación da materia por defecto será a Avaliación Continua (AC). A concreción das actividades a realizar dependerá en gran medida do número de alumnos, medios para traballar en grupo, etc, e os detalles das puntuacións obtidas nas diferentes actividades a realizar se explicitarán na plataforma de teledocencia.

Alternativamente ao sistema de avaliación continua, o estudiantado poderá ser avaliado en Avaliación Global (AG) cun exame final que suporá o 100% da cualificación, tanto na convocatoria ordinaria como na extraordinaria.

Na convocatoria de fin de carreira, o exame suporá o 100% da cualificación.

Os estudantes que non participen na Avaliación Continua nin na Avaliación Global, figurarán nas actas como non presentados.

Recoméndase ao alumnado ter en conta o Título VII (Do uso de medios ilícitos), do Regulamento sobre a Avaliación, a calificación e a calidade da docencia e do proceso de aprendizaxe do estudiantado:

(<https://secretaria.uvigo.gal/uv/web/normativa/public/normativa/documento/downloadbyhash/4904ced4d24eb81fe5715ddde2c48c59c0a7c4d624cd0e7491df7a753985ccfa>)

As datas e horas das probas de AG (de primeira e segunda oportunidade) son as especificadas no calendario de probas de avaliación aprobado pola Xunta de Facultade para o curso 2023/24. En caso de conflito ou disparidade entre as datas de exames, prevalecerán as publicadas na web da facultade, <http://fccee.uvigo.es/organizacion-docente.html>.

Os horarios de titorías dos docentes da materia estarán dispoñibles na secretaría virtual.

Esta materia no PCEO Grao en Administración e Dirección de Empresas - Grao en Dereito, impártese no 2º cuatrimestre do terceiro curso e o profesorado responsable está integrado por Fernando Comesaña Benavides e José Santiago Gómez Fraiz.

Corporate Governance
Corporate Responsibility

Planning

	Class hours	Hours outside the classroom	Total hours
Lecturing	45	87	132
Problem solving	19.5	45	64.5
Seminars	7.5	15	22.5
Essay questions exam	3	0	3

*The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

Methodologies

	Description
Lecturing	Exhibition in the classroom by part of the professor of the contained more relevant, from the base of teaching material place to disposal of the students in platform and bibliography indicated.
Problem solving	Proposal of practical exercises in group of reduced laboratory how supplement of the theoretical explanation of the contained of the subject. Joint resolution with the students and attention customized of the teacher. Resolution of doubts to the students and consideration, when fulfil, of tools computings.
Seminars	Control of the process of learning of the students and evaluation of the knowledge in groups reduced from activities proposed pole professor and his resolution and interaction with the students. Possibility of evaluation of knowledges and skills.

Personalized assistance

Methodologies Description

Problem solving	Proposal of practical exercises in group of laboratory reduced as I complement of the theoretical explanation of the contents of the matter. Conjoint resolution with the students and personalised attention of the educational. Resolution of doubts to the students and consideration, where appropriate, of computer tools.
Seminars	Resolution with the students and personalised attention of the educational. Resolution of doubts to the students and consideration, where appropriate, of computer tools.

Assessment

	Description	Qualification	Training and Learning Results	
Seminars	Evidence of learning through a set of activities proposed to the student to consolidate their learning process during the academic year and evaluated in a small group on a voluntary basis. Assessment of group work skills and adaptation to work environments with special emphasis on social behavior	75	B3 B4	D5
Essay questions exam	Resolution of a written written test, at the end of the semester, on the acquisition of competences of the subject. In case of not having passed the subject by continuous evaluation, the student must obtain a minimum of 5/10 in this test.	25	B3 B4	C4 C6

Other comments on the Evaluation

In continuous evaluation, each test scores out of 10 points but the weighting is: Individual Accounts 15%, Consolidated Accounts 15%, Accounting Analysis 15% and Theoretical Aspects and Audit Reports 30%.

Students who have obtained more than 4 points in each test and whose average mark is equal to or greater than 5 points will have passed the subject.

The final exam will improve the grade obtained in continuous assessment.

Alternatively to the system of continuous evaluation, the student will be able to be evaluated with ordinary call examination that will suppose 100% of the qualification. The same for the extraordinary call.

In the announcement of end of career, the examination will suppose 100% of the qualification.

General description	Esta materia ten como obxecto básico o tratamento da información para a valoración das existencias, a planificación e o control da actividade das organizacións e a información contable para o proceso de toma de decisións. A materia está orientada basicamente sobre empresas industriais, no seu ámbito interno, coa análise do proceso produtivo da empresa.			

Resultados de Formación e Aprendizaxe

Code	
B1	Capacidade de análise e síntese
B2	Pensamento crítico e autocrítico
B3	Habilidades relacionadas co uso de aplicacións informáticas utilizadas na xestión empresarial
B5	Habilidades de comunicación oral e escrita
B6	Habilidades de comunicación a través de Internet e, dominio de ferramentas multimedia para a comunicación a distancia
B8	Comunicarse con fluidez no seu entorno, incluíndo competencias interpersoais de escoita activa, negociación, persuasión e presentación
C1	Posuír e comprender coñecementos sobre as interrelacións existentes entre os distintos subsistemas que conforman o sistema empresarial
C3	Posuír e comprender coñecementos sobre os aspectos internos, funcións e procesos das organizacións incluíndo a súa natureza, estrutura, goberno, operativa e dirección.
C5	Posuír e comprender coñecementos sobre a relación entre a empresa e o seu entorno avaliando a súa repercusión na estratexia, comportamento, xestión e sustentabilidade empresarial
C6	Posuír e comprender coñecementos sobre os distintos procesos, procedementos e prácticas de xestión empresarial
C7	Posuír e comprender coñecementos sobre as principais técnicas instrumentais aplicadas ao ámbito empresarial
C8	Aplicar os coñecementos adquiridos a futuras situacións profesionais e desenvolver competencias relacionadas coa elaboración e defensa de argumentos e resolución de problemas dentro da súa área de estudo
C9	Identificar a xeneralidade dos problemas económicos que se suscitan nas empresas, e saber utilizar os principais instrumentos existentes para a súa resolución
C10	Valorar, a partir dos rexistros relevantes de información, a situación e previsible evolución dunha empresa
C11	Tomar decisións estratéxicas utilizando diferentes tipos de modelos empresariais
C12	Solucionar de maneira eficaz problemas e tomar decisións utilizando métodos cuantitativos e cualitativos apropiados, incluíndo entre eles a identificación, formulación e solución dos problemas empresariais
C13	Mobilidade e adaptabilidade a entornos e situacións diferentes
C14	Elaborar os plans e políticas nas diferentes áreas funcionais das organizacións
C15	Ter a capacidade de reunir e interpretar datos relevantes para emitir xuízos que inclúan unha reflexión sobre temas relevantes de índole social, científica ou ética
C16	Habilidades na procura, identificación e interpretación de fontes de información económica relevante

Planificación			
	Class hours	Hours outside the classroom	Total hours
Resolución de problemas	35	65	100
Saídas de estudo	2	2	4
Lección maxistral	37	60	97
Resolución de problemas e/ou exercicios	3.5	20.5	24

*The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

Metodoloxía docente	
	Description
Resolución de problemas	Proposta de exercicios en seminarios prácticos, con resolución guiada polo profesor e tras o previo desenvolvemento de casos similares por parte dos alumnos.
Saídas de estudo	Visitas a empresas para coñecer o seu proceso produtivo
Lección maxistral	Exposición na aula, por parte do docente, dos contidos máis relevantes e de maior dificultade conceptual. Control da aprendizaxe.

Atención personalizada	
Methodologies	Description
Resolución de problemas	Nos seminarios prácticos, o alumno ten a posibilidade de resolver todas as dúbidas que poden xurdirlle no seu traballo en casa e na aula. O horario e o procedemento de solicitude das tutorías será indicado na Moovi da materia.

Avaliación			
	Description	Qualification	Training and Learning Results
Resolución de problemas	Evidencias da aprendizaxe práctica a través da resolución das cuestións que se propoñen ao alumno durante o curso, para consolidar o seu proceso de aprendizaxe na materia. Estas probas son presenciais.	65	B1 C1 B2 C3 B3 C5 B5 C6 B6 C7 B8 C8 C9 C10 C11 C12 C13 C14 C15 C16
Resolución de problemas e/ou exercicios	Resolución dunha proba escrita presencial, ao final do cuadrimestre, sobre a adquisición de competencias. Esixese un nivel mínimo en teoría e en práctica da devandita proba para superar a convocatoria. Valorarase contido e forma da proba escrita.	35	B1 C1 B2 C3 B3 C5 B5 C6 B6 C7 B8 C8 C9 C10 C11 C12 C13 C14 C15 C16

Other comments on the Evaluation

Esta guía é aplicable en docencia exclusivamente presencial. A nota da avaliación continua terá vixencia para as convocatorias que dá dereito a matrícula de cada curso académico. A nota final do curso (para primeira e segunda oportunidade) será a maior de: a) suma da nota obtida nas probas de avaliación realizadas ao longo do cuadrimestre (cunha ponderación do 65% sobre o total), e da nota obtida nunha última proba que coincidirá coa data da avaliación global en primeira oportunidade (cunha ponderación do 35% do total), exixirase nesta última proba unha nota mínima de 2,5 puntos, e b) nota obtida na proba da avaliación global.

A concreción das actividades a realizar dependerá en gran medida do número de alumnos, a presencialidade total ou híbrida, os medios para traballar en grupo, etc.

Si no proceso de corrección das distintas probas de avaliación, incluída a final, o equipo docente o considerase necesario, poderase convocar ao alumnado afectado a ler e aclarar os contidos da proba realizada.

As datas e horas das probas de AG (de primeira e segunda oportunidade) son as especificadas no calendario de probas de avaliación aprobado pola Xunta de Facultade para o curso 2023/24. En caso de conflito ou disparidade entre as datas de exames, prevalecerán as publicadas na web da facultade, <http://fccee.uvigo.es/organizacion-docente.html>.

Conductas inadecuadas o pouco respetuosas para a convivencia en el aula afectarán a la valoración final, polo que recoméndase ao alumnado ter en conta o Título VII (Do uso de medios ilícitos), do Regulamento sobre a Avaliación, a calificación e a calidade da docencia e do proceso de aprendizaxe do estudantado (<https://secretaria.uvigo.gal/uv/web/normativa/public/normativa/documento/downloadbyhash/4904ced4d24eb81fe5715ddde2c48c59c0a7c4d624cd0e7491df7a753985ccfa>)

General description	The accelerated process of globalization of the world economic system is causing important consequences for the activity of companies, which are increasingly forced to act in international markets. Therefore, it is necessary to study and understand the factors that lead to the globalization of business and, above all, the most appropriate strategies to deal with this new reality. Understanding and choosing the strategy for entering foreign markets, knowing the location of the activities in the value chain, understanding the marketing strategies for products or services and analyzing the management of the cultural distance between countries, are some of the objectives of this assignment.			
	English Friendly subject: International students may request from the teachers: a) resources and bibliographic references in English, b) tutoring sessions in English, c) exams and assessments in English			

Training and Learning Results

Code	
B1	Ability to analyse and synthesise
B2	Critical and self-critical thinking
B5	Oral and written communication skills.
B8	Capable of fluent communication within the student's context including interpersonal skills such as active listening, negotiation, persuasion and presentation
B9	Ability to work effectively within a team
B10	Issue assessment reports on specific situations regarding companies and markets
B11	Design global management projects or projects related to the functional areas within a company
B13	Capacity for learning and independent work
B14	Capacity to apply the theoretical and practical knowledge acquired in a specialised academic context
C1	Acquire and understand knowledge regarding: the relationships between the different subsystems that make up the business system
C3	Acquire and understand knowledge regarding: Internal aspects, functions and processes of organisations including their nature, structure, direction, operation and management
C5	Acquire and understand knowledge regarding: The relationship between the business and its surroundings, evaluating its impact on business strategy, behaviour, management and sustainability
C11	Make strategic decisions using different types of business models
C12	Solve problems effectively and make decisions using the appropriate quantitative and qualitative methods, including the identification, expression and solution of business problems
C13	Mobility and adaptability to different contexts and situations
D1	Effective personal management in terms of time, planning and behaviour, motivation and initiative both as an individual and as a member of the business community
D2	Capacity for leadership, including empathy with others
D3	Responsibility and the capacity to take on commitments
D4	Ethical commitment in work
D5	Motivation for quality and continuous improvement

Mentored work	The student develops exercises or projects in the classroom with the professor supervision. Its development can be linked with autonomous activities of the student

Assessment

Description	Qualification	Training and Learning Results		
Case studies In order to opt for continuous evaluation, it will be necessary to submit several resolved cases. In the case of opting for the non-continuous evaluation, a practical exam will also be carried out. In both cases, a minimum score of five points (out of 10) will be required in order to make the average with the rest of the items.	20	B1 B2 B5 B8 B9 B10 B11 B13 B14	C11 C12 C13	D1 D2 D3 D4 D5
Objective questions exam Several tests will be carried out to evaluate the knowledge acquired on the subject during the course, tests that will refer both to the knowledge acquired through the reference bibliography, and to the development and content of the classes. A minimum score of five points (out of 10) will be required to be able to make the average with the rest of the items.	60	B1 B2 B10 B13	C1 C3 C5 C11	D1 D5
Project It will be necessary to deliver a project carried out in a group to evaluate the knowledge acquired during the course. A minimum score of five points (out of 10) will be required to be able to make the average with the rest of the items.	20	B1 B2 B5 B8 B9 B10 B11 B13 B14	C11 C12 C13	D1 D2 D3 D4 D5

Other comments on the Evaluation

Students may choose to be assessed using the continuous assessment (CA) system, or alternatively opt for a Global Assessment (GA) test. The default assessment is the CA. Students may choose GA according to the procedure and deadline established by the centre. The choice of GA implies the waiver of the right to continue being assessed by means of the remaining CA activities and the grade obtained up to that moment in any of the tests that have already been taken.

Continuous assessment: In this case, the student will take several partial liberating theoretical exams. To pass it, a minimum grade of 5 (out of 10) is required and the weight of these exams in the final grade will be 60% (none of them, individually considered, will have a weight that exceeds 40% of the final mark).

The remaining 40% of the grade will correspond to the practical part, divided equally between the presentation of cases (20%) and the completion of a project (20%). To be able to take these two tests it is necessary to attend 80% of the seminars and to pass them you must achieve a minimum grade of 5 out of 10 in each of them.

In cases where the student has decided to opt for CA and has not passed the subject, they may take the official exams to recover the part(s) they have failed. In this sense, the grade obtained in the passed part will be saved, and the student will only need to take the first period exam with the failed part. Likewise, the approved parts will be kept for the examination of the second period.

For successive calls, the approved parts will not be saved.

Global assessment: In any case, in each call there will be a theoretical exam of the subject that will have a weight of 60% of the grade. In this case, it will also be necessary to deliver on the same day or before a piece of work done individually that will weigh 20%. The remaining 20% will correspond to the realization of a practical exam and the delivery of the practical cases carried out by the students of continuous evaluation. You need to get a minimum score of 5 points (out of 10) in each part to be able to average.

Students who do not take part in the CA or the GA will appear in the minutes as "no-shows".

It is recommended that students take into account Title VII (On the use of illicit means) of the Regulations on Assessment, Grading and Quality of Teaching and the Student Learning Process:

<https://secretaria.uvigo.gal/uv/web/normativa/public/normativa/documento/downloadbyhash/4904ced4d24eb81fe5715ddde2c48c59c0a7c4d624cd0e7491df7a753985ccfa>

The dates and times of the GA tests (first and second chance) are those specified in the calendar of assessment tests approved by the Faculty Board for the academic year 2023/24. In case of conflict or disparity between the exam dates, those published on the faculty website, <http://fccee.uvigo.es/organizacion-docente.html>, will prevail.

In the extraordinary End of Degree call, a final exam will be held that will account for 100% of the grade.

The differences in the evaluation method used by the centers of the Faculty of Economic and Business Sciences of Vigo and the Faculty of Business Sciences and Tourism of Ourense are due to the necessary adaptation of the same proposed learning outcomes and competencies to the different organization of teaching used by both centers. In any case, the exact weights of each test will be announced at the beginning of the course on the tele-teaching platform.

Problem and/or exercise solving	It values that the student achieve the suitable solutions, apply routines and procedures of transformation of the available information and interpret the results.	40	B1 B2 B3 B4 B5 B10 B11 B12 B13 B14	C1 C7 C16	D3 D4 D5

Other comments on the Evaluation

The students will be able to opt by the continuous evaluation (100% final note) or, of alternative way, by the global evaluation of all the matter in the final examinations of the official announcements (100% final note). In the official exam calls, the evaluation will mean 100% of the grade. The dates of the examinations can consult in the Web of the Faculty: <http://fccee.uvigo.es>

The differences between systems of evaluation between the distinct centres that give the Degree in Administration of Companies in the University of Vigo justifies by the necessary adaptation of the measurement of the achievement of the same results of learning and acquisition of equal competitions to the different educational organisations of each Centre, especially regarding type of groups and half number of students by group.

Other comments

At the beginning of each topic the student is provided with the bibliography and the specific resources necessary for the adequate tracings of its content.

Students who do not participate in the CE or in the EG, will appear in the minutes as "no-shows".

It is recommended that students take into account Title VII (The use of illicit means), of the Regulation on the Evaluation, qualification and quality of teaching and the learning process of the student

(<https://secretaria.uvigo.gal/uv/web/normativa/public/normativa/documento/downloadbyhash/4904ced4d24eb81fe5715ddde2c48c59c0a7c4d624cd0e7491df7a753985ccfa>)

The dates and times of the EG tests (first and second chance) are those specified in the evaluation test calendar approved by the Xunta de Facultade for the 2023/24 academic year. In case of conflict or disparity between the exam dates, those published on the faculty website, <http://fccee.uvigo.es/organizacion-docente.html>, will prevail.

"This subject in the PCEO Degree in Administration and Direction of Companies-Right gives in the first cuatrimestre of the fifth course. The responsible professor is Francisco Xavier Martínez Cobas".

Tutoring information will be available on the Moovi platform.
