Other comments on the Evaluation

1ST EVALUATION OPPORTUNITY (JANUARY)

Final Delivery - Tuesday 16 January 2024

2ND EVALUATION OPPORTUNITY (JULY)

Consult dates at: <http://belasartes.uvigo.es/gl/docencia/exames/>

Students must present the same number of projects according to the same parameters that were transmitted during the course of the course. It must be based on the same type of thematic content, objectives to be achieved and development methodology, stipulated during the teaching of the subject.

The three projects will be carried out again and delivered individually by each student, regardless of whether during the teaching of the subject, in the 1st term and until the call (January), any of them were carried out in a group. That is to say, they must consist of a completely different work from the one carried out and handed in at the 1st Call (January).

It will not be possible, therefore, to re-submit any work already assessed (either positively or negatively) in the 1st call (January), being obligatory to re-submit all the work required for the July call.

This work must be done, until the date of the July exam, under the supervision of some or all of the teachers of the subject and, therefore, the teachers must know the process of carrying out this work and know that it will be presented as a result to be assessed in the July exam. Students must maintain contact with the teachers involved during the stipulated tutorial timetables.

General description	Object and space are, first of all, elements or appearances that defined the structural character of the sculpture during all the 20th century. The matter pretends to show and analyse those debates where the thematic structure object and space have importance inside the panorama of the contemporary art. It dictates structure is organised in four territories of problems: in the first place, we speak of the concepts of authorship that have to see with the creation, production and reproduction of objects and spaces; a second group would have to see with the creative processes determinants for the preparation of the object; a third field would have to see with the mechanisms *procesuales and **categorial; and, finally, it would be the expansionary fabric that the sculpture developed like a need where the space was an indisputable ally from his billed like space of thought until his dissolution between a *tupida network of new forms of cultural leisure.
