Presentation

The Business Administration and Tourism School of Ourense is located in the Business & Lawl Building of the University Campus in the heart of of the city.

The educational offer for the next course 2020-2021 is:

Titles of Degree:

- **Degree in Business Administration**
- **Degree in Tourism**
- **Double Degree Program "Business Administration + Computing Engineering"**
- **Double Degree Program "Business Administration + Law"**
- **Double Degree Program "Tourism + History"**
- **International Double Degree in Business Administration (Germany & Spain)**

Since the academic year 2015-2016, thanks to a Inter-Institutional cooperation agreement with Hochschule Bremerhaven, the Business Administration and Tourism School offers a **International Double Degree Programme** in Business Administration & Management at the **University of Vigo** and Bachelor of Arts in Business Administration at **Hochschule - Bremerhaven**. And for a third year, the **Business Administration International Program** is offered with more than 60 credits taught in English. Since 2016-17 we offer the **Tourism International Program** with more than 39 credits taught in English.

With these agreements and programs the Business Administration and Tourism School is comitted to the internationalization of studies and the participation of students in mobility and exchanges programs, thus opening up a range of new horizons and future options.

Regarding POSTGRADUATE COURSES of the Business Administration and Tourism School:

- **Master Degree in Inland Tourism and Health Management and Planning**
- **MBA in Sport**

Exame de preguntas de desenvolvemento	Resolución de probas ao longo do cuadrimestre sobre a parte práctica da materia.	60	B1 B2 B10 B13 B14	C1 C2 C6 C7 C8 C12 C15	D5
---------------------------------------	--	----	-------------------------------	--	----

Other comments on the Evaluation

O método de avaliación exposto no punto anterior é para a avaliación continua. Para a avaliación continua a nota obtida polo alumnado nas distintas probas de avaliación continua, se gardarán para a convocatoria de xullo. O alumnado que segue a avaliación continua deberá presentarse a todas as probas de avaliación continua especificadas, nas cales poderase exixir un mínimo en cada unha para consideralas superadas. Se o alumno non obtén o mínimo especificado na proba final do "Exame de preguntas obxectivas", non poderá compensar co resto das probas realizadas na materia, polo tanto, a súa nota no acta será de suspenso e pola nota obtida no citado exame de preguntas obxectivas. Avaliación non continua: deberase realizar ao final do cuadrimestre un exame teórico-práctico sobre todos os contidos da materia, 100% da materia (valor 10 puntos). Poderase exixir un mínimo en cada unha das partes que conformen o exame. Polo tanto, se o alumno non obtén o mínimo especificado en cada unha das partes a súa nota no acta será de suspenso. Parte deste exame poderase realizar en ordenador. O alumnado poderá optar entre avaliación continua a través das probas parciais (100% nota final), ou de maneira alternativa, avaliación global de toda a materia nos exames finais das convocatorias oficiais (100% nota final). Na convocatoria de fin de carreira, o exame suporá o 100% da cualificación. As diferenzas entre sistemas de avaliación e metodoloxías entre os distintos centros que imparten o Grao en Administración e Dirección de Empresas na Universidade de Vigo, xustifícanse pola necesaria adaptación na medición da consecución dos mesmos resultados de aprendizaxe e adquisición de iguais competencias ás diferentes organizacións docentes de cada centro, especialmente en cuanto ao tipo de grupos, e número medio de alumnado por grupo.

As probas de avaliación se prevén para unha modalidade presencial. Nembargantes, chegado o momento da súa realización ante a imposibilidade de dispor dos espazos e/ou profesorado necesario para realizar as mesmas, estas poderíanse realizar de forma non presencial, ben a través dos distintos recursos telemáticos dispoñibles na Uvigo (plataforma Faitic), correo electrónico ou no seu caso, mediante probas de forma oral.

Other comments

-Esta guía docente anticipa as liñas de actuación que se deben levar a cabo co alumno na materia e se concíbe flexible, en consecuencia, pode *requirir axustes ao longo do curso académico promovidos pola dinámica da clase e do grupo de destinatarios real ou pola relevancia das situacións que puidesen xurdir. Así mesmo, achégaselle ao alumnado a información e pautas concretas que sexan necesarias en cada momento do proceso formativo.

-As datas e horarios das probas de avaliación das diferentes convocatorias son as especificadas en calendario de probas de avaliación aprobado pola Xunta de Centro para cada curso. No caso de conflito ou disparidade entre as datas dos exames

prevalecerán as sinaladas na páxina web da FCETOU.

-As especificidades da materia serán desenvolvidas na plataforma FAITIC.

Plan de Continxencias

Description

=== MEDIDAS EXCEPCIONAIS PLANIFICADAS ===

Ante a incerta e imprevisible evolución da alerta sanitaria provocada pola COVID- 19, a Universidade establece una planificación extraordinaria que se activará no momento en que as administracións e a propia institución o determinen atendendo a criterios de seguridade, saúde e responsabilidade, e garantindo a docencia nun escenario non presencial ou non totalmente presencial. Estas medidas xa planificadas garanten, no momento que sexa preceptivo, o desenvolvemento da docencia dun xeito mais áxil e eficaz ao ser coñecido de antemán (ou cunha ampla antelación) polo alumnado e o profesorado a través da ferramenta normalizada e institucionalizada das guías docentes DOCNET.

=== ADAPTACIÓN DAS METODOLOXÍAS ===

Non é preciso ningún tipo de modificación ou adaptación xa que o deseño metodolóxico desta materia adaptase a calquera modalidade de ensinanza.

Se fose preciso, as sesións de titorización poderanse realizar por medios telemáticos (correo electrónico, videoconferencia,) ou telefónicamente, baixo a modalidade de concertación previa.

No caso de ter que impartir a docencia en modalidade semipresencial a actividade docente para aqueles alumnos que non poidan estar presentes na aula poderá ser seguida a través do Campus Remoto en horario síncrono.

No caso de ter que impartir a docencia en modalidade totalmente non presencial a actividade docente impartirase mediante Campus Remoto en horario síncrono.

A plataforma de teledocencia Faitic usarase como apoio.

Mentored work	In SG	10	B1 B5 B13	C14
Problem and/or exercise solving	Multiple choice	60	B1 B5 B13	C14

Other comments on the Evaluation

To surpass the subject requires satisfy two conditions:

(1) Obtain a minimum punctuation of 5 points in the group of the proofs to evaluate and

(2) Surpass each one of the parts. The students that does not surpass the practical part in the continuous evaluation and/or decides to opt for following the no continuous evaluation, will have to pass this part through a practical examination in the official announcements. The punctuation obtained by the participation, as well as the realization and the delivery of all those tasks that has established the professor (cases, exercises, supposed, exhibitions, memories, etc), keeps in the announcements of June and Julio of the academic course in force, but does not save for successive courses.

The dates and programs of the proofs of the evaluation of the different announcements is the specified in the calendar of proofs of the evaluation approved by the Board of Centre for the course 2020-21.

Description

=== EXCEPTIONAL PLANNING ===

Given the uncertain and unpredictable evolution of the health alert caused by COVID-19, the University of Vigo establishes an extraordinary planning that will be activated when the administrations and the institution itself determine it, considering safety, health and responsibility criteria both in distance and blended learning. These already planned measures guarantee, at the required time, the development of teaching in a more agile and effective way, as it is known in advance (or well in advance) by the students and teachers through the standardized tool.

=== ADAPTATION OF The METHODOLOGIES ===

- * teaching Methodologies that keep: all.
- * Teaching methodologies that modify: none.
- * Mechanism no presential of attention to the students: road Remote Campus of the Uvigo.
- * Modifications (proceed) of the contained to impart: no.
- * Additional bibliography to facilitate to car-learning: chapter of books and articles.
- * Other modifications: no.

=== ADAPTATION OF The EVALUATION ===

- * Proofs already realized: same weight.
- * Pending proofs that keep: same weight.
- * Proofs that modify

General description	The main objective of the Strategic Management is the description of the strategic process in companies through the analysis, design and strategic implementation. It will enable students to identify and analyze the relevant factors in order to establish strategies in companies and institutions that allow them to be competitive in the market. The student must be able to design an appropriate strategic plan to respond to environmental challenges and meet business objectives. English Friendly subject: International students may request from the teachers: a) materials and bibliographic references in English, b) tutoring sessions in English, c) exams and assessments in English.			

Competencies

Code	
A1	Students need to show they have acquired and understood the knowledge in a field of study underpinned by general secondary education and which is usually at a level which-while drawing on advanced text books-also includes certain aspects that imply being familiar with the cutting edge of this field of study.
A2	Students need to be able to apply the knowledge acquired to their work or vocation in a professional manner, and should have the skills normally demonstrated through the ability to develop and defends points of view and to solve problems related to their field of study.
A3	Students should be able to collect and interpret relevant data (usually within their field of study) in order to make judgements that include a reflection on the relevant social, scientific or ethical issues.
A5	Students should have developed the necessary learning skills in order to continue studying with a high level of autonomy.
B1	Ability to analyse and synthesise
B2	Critical and self-critical thinking
B3	Skills related to the use of those computer applications used in business management
B5	Oral and written communication skills.
B6	Communication skills through the Internet, as well the ability to use multimedia tools for remote communication
B8	Capable of lfuent commnunication within the student´s context including interpersonal skills such as active listening, negotiation, persuasion and presentation
B9	Ability to work effectively within a team
B10	Issue assessment reports on specific situations regarding companies and markets
B11	Design global management projects or projects related to the functional areas within a company
B13	Capacity for learning and independent work
B14	Capacity to apply the theoretical and practical knowledge acquired in a specialised academic context
C1	Acquire and understand knowledge regarding: the relationships between the different subsystems that make up the business system
C2	Acquire and understand knowledge regarding: Economic institutions as a result and the application of theoretical or formal representations of how the economy works
C3	Acquire and understand knowledge regarding: Internal aspects, functions and processes of organisations including their nature, structure, direction, operation and management
C4	Acquire and understand knowledge regarding: The economic framework regulating business activities and the corresponding legislation
C5	Acquire and understand knowledge regarding: The relationship between the business and its surroundings, evaluating its impact on business strategy, behaviour, management and sustainability
C11	Make strategic decisions using different types of business models
C12	Solve problems effectively and make decisions using the appropriate quantitative and qualitative methods, including the identification, expression and solution of business problems

C13 Mobility and adaptability to different contexts and situations

- D1 Effective personal management in terms of time, planning and behaviour, motivation and initiative both as an individual and as a member of the business community
- D2 Capacity for leadership, including empathy with others
- D3 Responsibility and the capacity to take on commitments
- D4 Ethical commitment in work
- D5 Motivation for quality and continuous improvement

Methodologies	
	Description
Lecturing	Demonstration by the professor of the contents of the subject, theoretical concepts, cases of analysis, etc.
Case studies	Presentation of real cases for analysis and discussion in class. Class attendance will be required for ongoing assessment.
Project based learning	Public presentations of the work carried out and cases analysed. The student will be evaluated regarding their capacity for analysis and synthesis, oral communication or argumentation and justification of the decisions taken. Class attendance will be required for ongoing assessment.

Personalized assistance

Methodologies	Description
Lecturing	Time reserved to guide, attend and solve doubts of the students during his process of learning. The tutorials can be carried out by telematic means (e-mail, virtual office, videoconference) under the modality of prior arrangement
Case studies	Time reserved to guide, supervise, attend and solve doubts of the students during the realization of the activities proposed. The tutorials can be carried out by telematic means (e-mail, virtual office, videoconference) under the modality of prior arrangement
Project based learning	Time reserved to guide, supervise, attend and solve doubts of the students during the realization of the activities proposed. The tutorials can be carried out by telematic means (e-mail, virtual office, videoconference) under the modality of prior arrangement

Assessment

	Description	Qualification	Training and Learning Results		
Objective questions exam	Tests that evaluate the knowledge including closed questions with different answer alternatives (true / false, multiple choice, pairings of elements ...). Students select a response from a limited number of possibilities	40	B1 B5 B13 B14	C1 C3 C5 C12	D1
Case studies	The student must analyze real cases for the purpose of knowing, interpreting, solving, generating hypotheses, contrasting data, reflecting, completing knowledge, diagnose and train in alternative solution procedures.	40	B1 B2 B9 B10 B14	C11 C12 C13	
Essay	Project elaborated on a topic and must be written following established norms.	20	B1 B2 B5 B8 B9 B10 B11 B14	C11 C12 C13	D2 D3 D4 D5

Other comments on the Evaluation

The evaluation will be continuous during the semester.

In order to pass the subject, the student must reach a minimum of 3.5 in each part evaluated. If the subject is not passed for not reaching the minimum in any of the evaluated parts but the total score is higher than 5 (out of 10), the grade included in the grade report will be 4.5 (out of 10).

Throughout the course, the works and projects delivered on time through the Fatic platform will be qualified, as well as the presentations of the projects. Both this work and the final exam can be done virtually if exceptional circumstances make it advisable. The examination may be taken orally or in writing. Any contribution made by students, both in face-to-face and virtual sessions, may be additionally valued.

The parts of the subject passed by the student in the continuous evaluation will be valid in the calls of each academic year.

Students who do not follow the continuous assessment: they must pass the exam (5 out of 10) of the whole subject in the call for official exams. The minimum mark in each of the parts of the examination (theory and practice) to be able to compensate and pass the subject will be 3.5 out of 10. The theoretical part will consist of an examination of objective questions and the practical part in the resolution of cases and practical questions. Through this examination, which will be done virtually if necessary, all the competences in the subject will be evaluated.

The dates and schedules of the final evaluation and exams are specified in the calendar of exams approved by the Centre

Board for the present academic course. In case of conflict between test dates will prevail the dates indicated on the website of the FCETOU.

The details and specifications of this educational guide will be published on the virtual platform of the subject in Faitic.

Other comments

This guide aims to anticipate the learning path of the student, and is conceived in a flexible manner. Therefore, it may require adjustments during the course, according to the dynamics of the class or any situations which may arise.

Similarly, it will contribute information and specific guidelines necessary throughout the learning process. The ordinary communication will be done through Faitic

Contingency plan

Description

In the case of teaching in a non-attendance mode, the teaching activity will be carried out by means of the Remote Campus and the use of the Faitic platform, without prejudice to other measures that may be adopted to guarantee the accessibility of the students to the teaching content.

In the case of non-attendance, the work and projects will continue to be delivered, both in the Case Study (laboratory classes corresponding to the GM) and in the Work (classes corresponding to the GP). The evaluation will be carried out with the timely delivery of these works and projects. Also in the case of non-attendance the examination of objective questions will be done virtually, the coordinator will give the necessary guidelines. The examination may be taken orally or in writing.

Tutoring sessions may be conducted by virtual means (e-mail, virtual office, videoconference, etc.) under the modality of prior consultation.

It is recommended to attend the sessions of virtual classes scheduled by the teachers of the subject and consult in tutorials the doubts that arise, for which it is necessary to contact by email with corresponding teacher. It is also highly recommended that students who have connectivity problems communicate this to the subject coordinator.

General description	RFE I é unha asignatura que ten como obxectivo introducir ós alumnos no campo da fiscalidade aplicada. En particular, desenvólvense dous dos impostos máis importantes: o IRPF e o Imposto de Sociedades.			

Competencias

Code	
B1	Capacidade de análise e síntese
B5	Habilidades de comunicación oral e escrita
B9	Capacidade de actuación eficaz dentro dun equipo de traballo
B10	Emitir informes de asesoramento sobre situacións concretas de empresas e mercados
B13	Capacidade de aprendizaxe e traballo autónomo
C8	Aplicar os coñecementos adquiridos a futuras situacións profesionais e desenvolver competencias relacionadas coa elaboración e defensa de argumentos e resolución de problemas dentro da súa área de estudo
D1	Xestión persoal efectiva en termos de tempo, planificación e comportamento, motivación e iniciativa tanto individual como empresarial

Resultados de aprendizaxe

Expected results from this subject	Training and Learning Results	
Potenciar a capacidade de traballar en equipo buscando atopar as mellores solucións tributarias	B9 B13	D1
Xustificar e defender as decisións adoptadas en materia de tributación mediante estudos de caso	B1 B5 B10	C8

Contidos

Topic	
Parte I: Introducción ó Sistema Fiscal Tema 1: Obxectivos e metodoloxía da materia	Obxectivos básicos. A organización da materia. O método de traballo e a súa avaliación.
Tema 2: Caracterización do Sistema Fiscal Español e bases para a fiscalidade persoal e empresarial	O papel dos Impostos na realidade económica. Composición do Sistema Fiscal. Características básicas das principais figuras tributarias.
Parte II: O Imposto sobre a Renda das Persoas Físicas. Tema 3: Introducción ó IRPF Tema 4: Rendas das Persoas Físicas	Elementos básicos do Imposto: contribuínte e unidade familiar, rentas suxeitas e exentas, período impositivo. Rendimentos do Traballo, Rendimentos do Capital, Gañancias e Perdas Patrimoniais
Tema 5: Rendas de Empresarios e Profesionais individuais Tema 6: Liquidación do IRPF	Elección do réxime de estimación da renda. Determinación da renda en Estimación Directa e Estimación Obxectiva. Integración e compensación das rentas. Mínimo Persoal e Familiar. Cuota Integra e Deduccions.
Parte III: O Imposto sobre Sociedades. Tema 7: Introducción ó IS.	Elementos básicos do Imposto: contribuínte, Resultado Contable e Base Imponible. Período impositivo. Imputación temporal de ingresos e gastos.

Tema 8: Operacións determinantes da Base Impoñible	Gastos non deducibles. Amortizacións. Arrendamento Financeiro. Deterioro de Valor e Transmisións Patrimoniais
Tema 9: Liquidación do IS	Proceso liquidatorio. Cuota Integra. Deduccións

Metodoloxía docente

	Description
Actividades introductorias	Presentación do contido e obxectivos da materia. Metodoloxía de traballo e sistemas de control e avaliación.
Lección maxistral	Para cada tema o docente presentará na aula as cuestións mais relevantes e formulará a metodoloxía a seguir para interpretar as consecuencias e efectos prácticos da norma tributaria. Posteriormente o alumno deberá revisar de forma autónoma os contidos expostos.
Estudo de casos	Realizaranse sesións prácticas que terán lugar en aulas-seminario.
Prácticas con apoio das TIC	As sesións prácticas en aula informática faránse de xeito individualizado e consistirán na resolución dun caso práctico empregando as aplicacións informáticas da Axencia Tributaria. Para o seu desenvolvemento os alumnos disporán previamente do enunciado do caso na Plataforma Tema.
Prácticas con apoio das TIC (Repetida, non usar)	Cada semana, despois da sesión maxistral, abrirase un formulario práctico dixital (de resposta curta ou test) na Plataforma Tema, relativo ós contidos desenvolto na sesión maxistral e na práctica. Trátase de actividades que posibilitan o seguimento e avaliación do alumno, que deberá responder nos prazos sinalados.

Atención personalizada

Methodologies	Description
Estudo de casos	Realizaranse supostos prácticos sobre os contidos da materia co obxecto de analizar a casuística fiscal
Prácticas con apoio das TIC	Durante as prácticas de laboratorio e informáticas, preténdese orientar, supervisar, atender e resolver as dúbidas do alumno no seu proceso de adquisición das competencias, en xeral, e na realización das actividades propostas, en particular. Ademais, cada profesor establecerá ó comenzo do curso un horario para titorías individuais ó que o alumno pode acudir para resolveren cualquera tipo de dúbida referente á materia.

Avaliación

	Description	Qualification	Training and Learning Results		
Estudo de casos	Durante as prácticas de laboratorio, preténdese orientar, supervisar, atender e resolver as dúbidas do alumno no seu proceso de adquisición das competencias, en xeral, e na realización das actividades propostas, en particular. Ademais, cada profesor establecerá ó comenzo do curso un horario para titorías individuais ó que o alumno pode acudir para resolveren cualquera tipo de dúbida referente á materia.	10	B1 B9	C8	D1
Prácticas con apoio das TIC (Repetida, non usar)	Avaliarase e puntuarase a resolución dos casos propostos despois de cada sesión maxistral. Este apartado de traballo persoal puntuarase sobre un máximo global de 2 puntos.	20	B10	C8	

Exame de preguntas de desenvolvemento	Ao remate das sesións presenciais, proporáse un caso que o alumno deberá resolver de xeito individual e que permitirá avaliar o seu nivel de coñecementos e capacidade de argumentación e xustificación das decisións adoptadas. A proba relativa ó IRPF puntuarase cun máximo de 4 puntos e a relativa ó IS cun máximo de 3 puntos	70	B10 C8 B13

Other comments on the Evaluation

Convocatoria ordinaria

Nesta asignatura realizarase unha avaliación continua do traballo realizado polo alumno. Para superar a asignatura por avaliación continua deben cumprirse dúas condicións :

1. Acadar alomenos un 25% da nota nas tres probas realizadas (test, proba IRPF, proba IS).
2. Obter alomenos 5 puntos na suma das dúas metodoloxías de avaliación propostas (probas test e probas IRPF e IS).

A non presentación a calquera das dúas probas presenciais escritas suporá que o alumno deixa de ser avaliado en avaliación continua. Tamén deixará de ser avaliado se non acadara alomenos un 25% da nota nas tres probas realizadas (test, proba IRPF, proba IS). A nota final por avaliación continua será a suma das notas parciais obtidas ata ese momento.

Aqueles alumnos que non teñan superado a materia por avaliación continua ou non queiran optar por esta vía terán a opción de presentarse a un examen final. Este examen valerá o 100% da nota, e a calificación obtida substituirá á obtida en avaliación continua. En caso de non presentarse, a nota será a obtida en avaliación continua.

Convocatoria extraordinaria

A convocatoria extraordinaria consistirá nun examen final. Este examen valerá o 100% da nota.

As datas e horarios das probas de avaliación das diferentes convocatorias son as especificadas no calendario de probas de avaliación aprobado pola Xunta de Centro para o curso 2020-2021. No caso de conflito ou disparidad entre as datas dos exames prevalecerán as sinaladas na páxina web da FCETOU.

Recomendacións

Plan de Contingencias

Description

En caso de circunstancias excepcionais e segundo a instrución da Vicerreitoría de Ordenación Académica e Profesorado 3/2020, sobre a elaboración das guías docentes para o curso 2020/21 no caso de impartición das materias en modalidade

non presencial a
actividade docente impartirase mediante Campus Remoto utilizando a plataforma de
teledocencia Faitic como reforzo e sen prexuízo doutras medidas que se poidan adoptar para garantir a accesibilidade do
alumnado aos contidos docentes.

As sesións de titorización poderán realizarse por medios telemáticos (correo electrónico, videoconferencia, foros de FAITIC,
...) baixo a modalidade de concertación previa.

O sistema de avaliación será a través de Campus Remoto e Faitic, coa debida adaptación a estas plataformas

Methodologies	Description
Seminars	

Assessment

	Description	Qualification	Training and Learning Results
Problem solving	Test subject to continuous evaluation. It consists in the resolution, individually or in groups, of questions raised, guided and supervised by the professor on the subject. The participation of the student and their ability to integrate the concepts developed in class will be evaluated.	20	B1 C1 B12 C3 B13 C5 B14 C6
Presentation	Oral presentation by students of a specific topic or a work (previous written presentation).	15	B1 C1 D2 B2 C3 D3 B4 C5 B5 C6

Problem and/or exercise solving	Test to evaluate the knowledge acquired by the student on the subject. The answer must be brief. The ability to understand, the relationship between concepts and application to different situations and contingencies will be taken into account by the student.	50	B1 B2 B12 B13 B14	C1 C3 C5 C6	D3
Essay	Realization by the student of a written work on a specific topic. Their ability to apply the concepts assimilated in lectures to situations in a real or similar context will be evaluated.	15	B1 B2 B4 B5	C1 C3 C5 C6	D2 D3

Other comments on the Evaluation

The description of this guide is intended for face-to-face mode. The mark obtained by the student in the classroom will be valid for the calls to which the enrollment of each academic year entitles.

* The concretion of the activities to carry out will depend to a great extent on the number of students, means to work in group, etc.

The dates and times of the evaluation tests of the different calls are those specified in the calendar of evaluation tests approved by the Board of the Center for the 2019-20 academic year.

In the event of conflict or disparity between the dates of the exams, those indicated on the FCETOU website will prevail.

Other comments

This teaching guide anticipates the lines of action that must be carried out with the student in the subject and is conceived in a flexible way. Consequently, it may require readjustments throughout the academic year promoted by the dynamics of the class and the group of real recipients or by the relevance of the situations that may arise. Likewise, students will be provided with the information and specific guidelines that are necessary at each moment of the training process.

Contingency plan

Description

=== EXCEPTIONAL PLANNING ===

Given the uncertain and unpredictable evolution of the health alert caused by COVID-19, the University of Vigo establishes an extraordinary planning that will be activated when the administrations and the institution itself determine it, considering safety, health and responsibility criteria both in distance and blended learning. These already planned measures guarantee, at the required time, the development of teaching in a more agile and effective way, as it is known in advance (or well in advance) by the students and teachers through the standardized tool.

=== ADAPTATION OF THE METHODOLOGIES ===

* Teaching methodologies maintained

* Teaching methodologies modified

* Non-attendance mechanisms for student attention (tutoring)

* Modifications (if applicable) of the contents

* Additional bibliography to facilitate self-learning

* Other modifications

=== ADAPTATION OF THE TESTS ===

* Tests already carried out

Test XX: [Previous Weight 00%] [Proposed Weight 00%]

...

* Pending tests that are maintained

Test XX: [Previous Weight 00%] [Proposed Weight 00%]

...

* Tests that are modified

CRITERIOS DE AVALIACION PARA ASISTENTES. 1º EDICIÓN DE ACTAS

Os alumnos que sigan a avaliación continua deberán realizar obrigatoriamente así seguintes probas:

1.- Nos GM un suposto de análise económico, financeiro e patrimonial dunha empresa do IBEX. Dito suposto será valorado nas diferentes sesións do GM, según o seguimento continuado valorando o avance na realización de análise, e poderá realizarse de forma individual ou en grupo. O final deberá entregarse o traballo e a súa exposición, según os criterios

indicados. Poderá utilizarse calquera programa informático (Power Point, Word, etc), para a presentación e exposición de traballo. A valoración do devandito suposto será como máximo do 30% da nota final.

2.- Exámen final da materia, que consistirá en 20 cuestións tipo test, e que tendrá una valoración máxima do 70% da nota final.

O alumno deberá alcanzar unha comprensión da lexislación contable e da información financeira publicada polas empresas así como un coñecemento das técnicas de análise.

CRITERIOS DE AVALIACION PARA NON ASISTENTES. 1º EDICIÓN DE ACTAS

Se o alumno non seguiu a avaliación continua será cualificado coa nota que sacase no exame. É necesario sacar un 5 sobre 10 puntos para superar a materia.

O alumno deberá alcanzar unha comprensión da lexislación contable e da información financeira publicada polas empresas así como un coñecemento das técnicas de análise.

Competencias evaluadas: as mesmas que no sistema de avaliación para asistentes.

Resultados de aprendizaxe evaluados: os mesmos que no sistema de avaliación para asistentes.

CRITERIOS DE AVALIACION. 2º EDICIÓN DE ACTAS E FIN DE CARREIRA

Os estudantes de avaliación continúa que se presentan en xullo se valorarán según os mesmos criterios que na 1ª edición de actas.

Os alumnos de fin de carreira examinaráselle da totalidade da materia. É necesario sacar un 5 sobre 10 puntos para superar a materia

O alumno deberá alcanzar unha comprensión da lexislación contable e da información financeira publicada polas empresas así como un coñecemento das técnicas de análise.

Competencias evaluadas: as mesmas que no sistema de avaliación para asistentes.

Resultados de aprendizaxe evaluados: os mesmos que no sistema de avaliación para asistentes.

As datas e horarios das probas de avaliación das diferentes convocatorias son as especificadas no calendario de probas de avaliación aprobado pola Xunta de Centro para o curso 2020-2021.

No caso de conflito ou disparidade entre as datas dos exames prevalecerán as sinaladas na páxina web da facultade.

Other comments

Para cursar esta materia é preciso ter coñecementos avanzados de contabilidade, que se adquiren nas materias de contabilidade financeira, polo que é conveniente cursar e ter superado previamente as materias anteriormente indicadas.

Plan de Continxencias

Description

=== MEDIDAS EXCEPCIONAIS PLANIFICADAS ===

Ante a incerta e imprevisible evolución da alerta sanitaria provocada pola COVID- 19, a Universidade establece una planificación extraordinaria que se activará no momento en que as administracións e a propia institución o determinen atendendo a criterios de seguridade, saúde e responsabilidade, e garantindo a docencia nun escenario non presencial ou non totalmente presencial. Estas medidas xa planificadas garanten, no momento que sexa preceptivo, o desenvolvemento da docencia dun xeito mais áxil e eficaz ao ser coñecido de antemán (ou cunha ampla antelación) polo alumnado e o profesorado a través da ferramenta normalizada e institucionalizada das guías docentes DOCNET.

=== ADAPTACIÓN DAS METODOLOXÍAS ===

* Metodoloxías docentes que se manteñen

Resolución de problemas e seminario. A parte fundamental da asignatura, e a realización do análise económico, financeiro a patrimonial dunha empresa do IBEX.

* Metodoloxías docentes que se modifican

Lección maxistral, que se substitue pola subida a FAITIC dos temas da materia e a creación de Foros en FAITIC de cada parte da materia, pra resolver as dúbidas e consultas dos alumnos/as

* Mecanismo non presencial de atención ao alumnado (titorías)

Sustitúese as tutorías presenciales polo correo electrónico e os Foros de dúbidas da parte teórica e do traballo IBEX

* Modificacións (se proceder) dos contidos a impartir

Os contidos son os mesmos tanto na actividade presencial como no caso de continxencias.

* Bibliografía adicional para facilitar a auto-aprendizaxe

A bibliografía e a mesa que a indicada na guía docente, tanto pra parte presencial como no caso de continxencias

* Outras modificacións

=== ADAPTACIÓN DA AVALIACIÓN ===

* Probas xa realizadas

Os criterios de avaliación permanecen inalterables, nos porcentaxes. EN caso de aplicar o plan de continxencias, o traballo IBEX enviarase via email, e se eliminará a exposición oral do mesmo, e o exame se realizará a través de FAITIC, con mesmos criterios de valoración que si fose o examen presencial

Resolución caso práctico traballo IBEX: Peso anterior 30%; Peso Proposto 30%

Exámen: Peso anterior: 70%; Peso proposto: 70%

* Probas pendentes que se manteñen

Non procede

* Probas que se modifican

Non procede

* Novas probas

Non se realizarán novas probas no caso de continxencias

General description	The basic aim of this subject is the treatment of information for stock valuation, planning and control activities of organisations and accounting information for the process of decision-making. The subject is aimed basically at industrial companies, from an internal approach, and analysis of the productive process of the company.			

Competencies

Code	
B1	Ability to analyse and synthesise
B2	Critical and self-critical thinking
B3	Skills related to the use of those computer applications used in business management
B5	Oral and written communication skills.
B6	Communication skills through the Internet, as well the ability to use multimedia tools for remote communication
B8	Capable of effective communication within the student's context including interpersonal skills such as active listening, negotiation, persuasion and presentation
C1	Acquire and understand knowledge regarding: the relationships between the different subsystems that make up the business system
C3	Acquire and understand knowledge regarding: Internal aspects, functions and processes of organisations including their nature, structure, direction, operation and management
C5	Acquire and understand knowledge regarding: The relationship between the business and its surroundings, evaluating its impact on business strategy, behaviour, management and sustainability
C6	Acquire and understand knowledge regarding: The different processes, procedures and practices related to business management
C7	Acquire and understand knowledge regarding: The main instrumental techniques applied to the business context
C8	Apply the knowledge acquired to future professional situations and develop competences related to posing and defending arguments
C9	Identify the generalities of the economic problems posed in companies, and know how to apply the main instruments available in order to address these problems
C10	Assess the situation and foreseeable evolution of a company based on the relevant information records
C11	Make strategic decisions using different types of business models
C12	Solve problems effectively and make decisions using the appropriate quantitative and qualitative methods, including the identification, expression and solution of business problems
C13	Mobility and adaptability to different contexts and situations
C14	Draw up plans and policies in the different functional areas within organisations
C15	Have the ability to gather and interpret relevant data in order to make judgements that include a reflection on relevant social, scientific or ethical issues
C16	Skills in looking for, identifying and interpreting sources of relevant economic information

Learning outcomes

Expected results from this subject	Training and Learning Results
------------------------------------	-------------------------------

Identify the characteristics of the internal and external fields of the company.	B1 B2 B8	C1 C3 C5 C6 C10 C13 C14 C15 C16
Identify the information users and their particular needs.	B1 B2 B3 B5 B6 B8	C1 C3 C6 C7 C8 C9 C10 C13 C15 C16
Apply cost accounting models based on the current business to be analysed.	B1 B2 B3 B5 B6 B8	C1 C3 C5 C6 C7 C8 C9 C12 C13 C14
Apply budgetary techniques for the planning activity of the company	B1 B2 B3 B5 B8	C1 C3 C5 C6 C7 C8 C9 C10 C11 C12 C13 C14 C15 C16
Build a system of information for decision-making.	B1 B2 B3 B5 B6 B8	C1 C3 C5 C6 C7 C8 C9 C10 C11 C12 C13 C14 C15 C16

Other comments on the Evaluation

The description of this syllabus was developed for the on-campus modality.

The concretion of the activities to implement will depend to a large extent on the number of students in each group. This guide is subject to modifications along the course if necessary.

The dates and schedules of the exams of evaluation were approved by Board of Faculty and are available on the website of the Faculty

Inappropriate behavior, harmful and contrary to the coexistence and its correction can result in penalties.

Contingency plan

Description

=== EXCEPTIONAL PLANNING ===

Given the uncertain and unpredictable evolution of the health alert caused by COVID-19, the University of Vigo establishes an extraordinary planning that will be activated when the administrations and the institution itself determine it, considering safety, health and responsibility criteria both in distance and blended learning. These already planned measures guarantee, at the required time, the development of teaching in a more agile and effective way, as it is known in advance (or well in advance) by the students and teachers through the standardized tool.

=== ADAPTATION OF THE METHODOLOGIES ===

* Teaching methodologies maintained

* Teaching methodologies modified

* Non-attendance mechanisms for student attention (tutoring)

- * Modifications (if applicable) of the contents
- * Additional bibliography to facilitate self-learning
- * Other modifications

=== ADAPTATION OF THE TESTS ===

- * Tests already carried out
- Test XX: [Previous Weight 00%] [Proposed Weight 00%]

...

- * Pending tests that are maintained
- Test XX: [Previous Weight 00%] [Proposed Weight 00%]

...

- * Tests that are modified
- [Previous test] => [New test]

- * New tests

- * Additional Information

General description	O proceso acelerado de globalización do sistema económico mundial está a orixinar importantes consecuencias para a actividade das empresas, que vense obrigadas, cada vez máis, a actuar nos mercados internacionais. Por iso, é preciso estudar e coñecer os factores que conducen á globalización dos negocios e, sobre todo, as estratexias máis adecuadas para facer fronte a esta nova realidade. Entender e elixir a estratexia de entrada nos mercados exteriores, coñecer a localización das actividades da cadea de valor, comprender as estratexias de comercialización dos produtos ou servizos e analizar a xestión da distancia cultural entre países, son algúns dos obxectivos desta materia.			

Competencias

Code	
B1	Capacidade de análise e síntese
B2	Pensamento crítico e autocrítico
B5	Habilidades de comunicación oral e escrita
B8	Comunicarse con fluidez no seu entorno, incluíndo competencias interpersoais de escoita activa, negociación, persuasión e presentación
B9	Capacidade de actuación eficaz dentro dun equipo de traballo
B10	Emitir informes de asesoramento sobre situacións concretas de empresas e mercados
B11	Redactar proxectos de xestión global ou de áreas funcionais da empresa
B13	Capacidade de aprendizaxe e traballo autónomo
B14	Capacidade de aplicar os coñecementos teóricos e prácticos adquiridos nun contexto académico especializado
C1	Posuír e comprender coñecementos sobre as interrelacións existentes entre os distintos subsistemas que conforman o sistema empresarial
C3	Posuír e comprender coñecementos sobre os aspectos internos, funcións e procesos das organizacións incluíndo a súa natureza, estrutura, goberno, operativa e dirección.
C5	Posuír e comprender coñecementos sobre a relación entre a empresa e o seu entorno avaliando a súa repercusión na estratexia, comportamento, xestión e sustentabilidade empresarial
C11	Tomar decisións estratéxicas utilizando diferentes tipos de modelos empresariais
C12	Solucionar de maneira eficaz problemas e tomar decisións utilizando métodos cuantitativos e cualitativos apropiados, incluíndo entre eles a identificación, formulación e solución dos problemas empresariais
C13	Mobilidade e adaptabilidade a entornos e situacións diferentes
D1	Xestión persoal efectiva en termos de tempo, planificación e comportamento, motivación e iniciativa tanto individual como empresarial
D2	Capacidade de lideranza, incluíndo empatía co resto de persoas
D3	Responsabilidade e capacidade para asumir compromisos
D4	Compromiso ético no traballo
D5	Motivación pola calidade e mellora continua

Resultados de aprendizaxe

Expected results from this subject	Training and Learning Results		
Interpretar as principais teorías do comercio internacional, desde as paradigmas clásicos ata os enfoques que tratan de explicar os fluxos do comercio internacional a partir das actividades que realizan as empresas.	B1 B13	C5	D1 D5

Distinguir as principais causas da aceleración internacionalizadora das empresas iniciada no século XX.	B1 B2 B13	C1 C3 C5	D1 D5
Identificar algunhas da estrutura organizativas máis frecuentes no terreo dos negocios internacionais.	B1 B13	C3	D1 D5
Distinguir os factores relevantes que afectan á estratexia competitiva das empresas nos mercados internacionais.	B1 B2 B13	C1 C3 C5 C11	D1 D5
Avaliar as distintas alternativas de entrada nos mercados exteriores: exportacións, acordos de cooperación e investimento directo.	B1 B10	C5 C11	D1 D5
Sintetizar as peculiaridades específicas a ter en conta na dirección estratéxica dunha empresa multinacional.	B1 B10 B13	C1 C3 C5	D1 D5
Demostrar o manexo dos conceptos teóricos adecuados para resolver e interpretar determinados problemas relacionados coa dirección de empresas internacionalizadas.	B1 B5 B8 B9 B10 B11 B13 B14	C1 C3 C5 C11 C12 C13	D1 D2 D3 D4 D5

Metodoloxía docente

	Description
Actividades introdutorias	Actividades encamiñadas a tomar contacto e reunir información sobre o alumnado, así como a presentar a materia.
Flipped Learning	Algunhas actividades de aprendizaxe realizaranse fora da aula, e coa presenza do docente se facilitará e potenciará outros procesos de adquisición e practica de coñecementos.
Estudo de casos	Análise dun feito, problema ou suceso real coa finalidade de coñecelo, interpretalo, resolvelo, xerar hipóteses, contrastar datos, reflexionar, completar coñecementos, diagnosticalo e adestrarse en procedementos alternativos de solución. Realizarase durante as clases dos grupos medianos.
Traballo tutelado	O/A estudante, de maneira individual ou en grupo, elabora un documento sobre a temática da materia ou prepara seminarios, investigacións, memorias, ensaios, resumos de lecturas, conferencias, etc. Realizarase durante as clases dos grupos pequenos.

Atención personalizada

Methodologies Description

Flipped Learning	Atención das consultas do alumnado relacionadas cos aspectos teóricos explicados na aula. Desenvolverase de forma presencial (directamente na aula e en horario de titorías). Tamén poderá realizarse por medios telemáticos (correo electrónico, despacho virtual, videoconferencia, ...), baixo a modalidade de concertación previa.
Traballo tutelado	Atención das consultas do alumnado relacionadas co traballo a realizar nos grupos pequenos. Desenvolverase de forma presencial (directamente na aula e en horario de titorías). Tamén poderá realizarse por medios telemáticos (correo electrónico, despacho virtual, videoconferencia, ...), baixo a modalidade de concertación previa.
Estudo de casos	Atención das consultas do alumnado relacionadas cos casos a resolver nos grupos medianos. Desenvolverase de forma presencial (directamente na aula e en horario de titorías). Tamén poderá realizarse por medios telemáticos (correo electrónico, despacho virtual, videoconferencia, ...), baixo a modalidade de concertación previa.

Avaliación					
	Description	Qualification	Training and Learning Results		
Estudo de casos	Entregas dos casos estudados e resoltos nas sesións dos grupos medianos.	40	B1 B2 B5 B8 B9 B14	C5 C12 C13	D1 D2 D3 D4 D5
Exame de preguntas obxectivas	Exame tipo test dos contidos desenvolvidos mediante Flipped Learning nas sesións teóricas.	40	B1 B2 B10 B13	C1 C3 C5 C11	D1 D5
Presentación	Exposición por parte do alumnado ante o docente e os seus compañeiros dos resultados do traballo tutelado.	20	B1 B2 B5 B8 B9 B10 B11 B13 B14	C11 C12 C13	D1 D2 D3 D4 D5

Other comments on the Evaluation

Primeira oportunidade: o conxunto de criterios de avaliación arriba exposto constitúe o sistema de avaliación continua na primeira oportunidade. É necesario alcanzar un mínimo de 3.5 (sobre 10) en cada proba para poder compensala e superar a materia.

Poderá valorarse adicionalmente calquera contribución realizada polos alumnos nas sesións presenciais.

Considerarase que todo alumno que realice polo menos unha das probas programadas optou pola avaliación continua, non podendo renunciar á mesma.

O alumno que non siga o procedemento de avaliación continua deberá realizar un exame final, con parte teórica e parte práctica, que suporá o 100% da nota. A parte teórica consistirá nun exame de preguntas obxectivas (tipo test) e a parte práctica na resolución de casos e/ou preguntas prácticas. É necesario alcanzar un mínimo de 3.5 (sobre 10) en cada parte para poder compensala e superar a materia. Mediante este exame, avaliaranse todas as competencias da materia.

Segunda oportunidade: os alumnos que non superen a materia na primeira oportunidade, teñen dúas opcións:

- Realizar un exame con parte teórica e parte práctica, que suporá o 100% da nota. A parte teórica consistirá nun exame de preguntas obxectivas (tipo test) e a parte práctica na resolución de casos e/ou preguntas prácticas. É necesario alcanzar un mínimo de 3.5 (sobre 10) en cada parte para poder compensala e superar a materia. Mediante este exame, avaliaranse todas as competencias da materia.

- Conservar a nota obtida na Presentación (20%) e no Estudo de casos (40%), sempre que sexan superiores a 3.5 (sobre 10), e realizar únicamente o Exame de preguntas obxectivas (40%). É necesario alcanzar un mínimo de 3.5 (sobre 10) nesta proba para poder compensala e superar a materia.

Se en calquera das dúas oportunidades non se aproba a materia por non alcanzar o mínimo nalgunha proba ou parte, pero a puntuación total é superior a 5 (sobre 10), a cualificación en actas será 4.5 (sobre 10).

A concreción das actividades a realizar dependerá en gran medida do número de alumnos, medios para traballar en grupo, etc.

As datas e horarios das probas de avaliación das diferentes convocatorias son as especificadas no calendario de probas de avaliación aprobado pola Xunta de Centro para o curso 2020-2021. En caso de disparidade ou conflito entre as datas dos exames prevalecerán as sinaladas na páxina web da facultade.

As diferenzas no método de avaliación que utilizan os centros da Facultade de Ciencias Económicas e Empresariais de Vigo e a Facultade de Ciencias Empresariais e Turismo de Ourense obedecen á necesaria adaptación dos idénticos resultados de aprendizaxe propostos e competencias á diferente organización de clases docentes empregada por ambos os centros.

IMPORTANTE: É obrigación dos alumnos coñecer e seguir as instrucións relativas as distintas probas de avaliación, tanto as contidas na Guía docente ou calqueira outro documento de organización da materia que o profesor poña a súa disposición, como as que se lle fagan chegar puntualmente a través das canles habituais (correo electrónico e/ou Faitic).

Other comments

Esta guía docente anticipa as liñas de actuación que se deben levar a cabo co alumno na materia e concíbese de forma flexible. En consecuencia, pode requirir reaxustes ao longo do curso académico promovidos pola dinámica da clase e do grupo de destinatarios real ou pola relevancia das situacións que puidesen xurdir. Así mesmo, aportarase ao alumnado a información e pautas concretas que sexan necesarias en cada momento do proceso formativo.

A copia ou plaxio total ou parcial en calquera tipo de traballo ou exame suporá un cero nesa proba. Alegar descoñecemento do que supón un plaxio non eximirá aos alumnos da súa responsabilidade neste aspecto.

Na avaliación terase en conta non só a pertinencia e calidade do contido das respostas, senón tamén a súa corrección lingüística.

É responsabilidade dos alumnos consultar os materiais dispoñibles na plataforma de teledocencia (Faitic) (novidades, documentos, cualificacións) e estar ao tanto dos avisos e das datas de realización das diferentes probas.

Plan de Continxencias

Description

=== MEDIDAS EXCEPCIONAIS PLANIFICADAS ===

Ante a incerta e imprevisible evolución da alerta sanitaria provocada pola COVID- 19, a Universidade establece una planificación extraordinaria que se activará no momento en que as administracións e a propia institución o determinen atendendo a criterios de seguridade, saúde e responsabilidade, e garantindo a docencia nun escenario non presencial ou non totalmente presencial. Estas medidas xa planificadas garanten, no momento que sexa preceptivo, o desenvolvemento da docencia dun xeito mais áxil e eficaz ao ser coñecido de antemán (ou cunha ampla antelación) polo alumnado e o profesorado a través da ferramenta normalizada e institucionalizada das guías docentes DOCNET.

=== ADAPTACIÓN DAS METODOLOXÍAS ===

Se, debido á situación excepcional, non se pode impartir a docencia dun modo presencial, impartirase de forma virtual mediante Campus Remoto co reforzo, se é necesario, da plataforma de teledocencia Faitic, garantindo sempre a accesibilidade do alumnado aos contidos docentes. Manteranse as metodoloxías docentes previstas, pero adaptándoas ao novo escenario virtual.

=== ADAPTACIÓN DA AVALIACIÓN ===

Se, debido á situación excepcional, non se poden facer as probas de avaliación dun modo presencial, as devanditas probas, tanto os exames (de avaliación continua e non continua) como o resto de probas (estudo de casos e presentacións), faranse de forma virtual, mediante Campus Remoto co reforzo, se é necesario, da plataforma de teledocencia Faitic. Nese caso a proba Exame de preguntas obxectivas (40%) non será necesariamente de tipo test ou podería facerse de preguntas de desenvolvemento. Poderá valorarse, adicionalmente, calquera contribución realizada polo alumnado nas sesións virtuais.

Recoméndase asistir ás sesións de clases virtuais que programen os profesores da materia e consultar en titorías as dúbidas que xurdan, para o que hai que contactar polo correo electrónico co profesor correspondente. As sesións de titorización realizaranse por medios telemáticos (correo electrónico, despacho virtual, videoconferencia, etc.) baixo a modalidade de concertación previa. Tamén é moi aconsellable que os alumnos que teñan problemas de conectividade llo comuniquen ao coordinador da materia.

Other comments on the Evaluation

The evaluation method described in the previous point is relevant for continuous evaluation option. The theoretical-practical tests on the contents of the subject, that suppose 40% of the total marks in the continuous evaluation option, require a minimum mark. Therefore, it is necessary to score more than 5 marks (out of 10) in these tests to be considered passed. That is, if any of the tests is not passed, the obtained marks will not be compensated with the rest of the marks obtained in the subject; consequently the subject will not be passed. Non-continuous evaluation. In May's or July's calls, a test including all the contents of the subject must be passed (total score 10 marks). These tests will consist in two parts: a theoretical-practical part and another part, in which students must show that they have the skills and competences acquired in the subject. This will be done through a practical exercise to be produced on the computer. The two tests require obtaining a minimum score. Therefore, it is necessary to score more than 5 marks (out of 10) in each of the parts so that the subject is considered passed. Students can choose between the continuous assessment system based on partial exams plus production and delivery of a team project (100% final grade), or alternatively, showing sufficient knowledge of the subject in the final exams at the official calls (100% final grade). If the final exam, non continuous evaluation, option is chosen, the result of exam will be the final marks of the subject. Differences between evaluation systems and methodologies among the different centers that teach the Degree in Business Administration at the University of Vigo, are due to the necessary adaptation to specific conditions of the groups such as number of students, internal organization and special needs. Nevertheless, the learning outcomes, competences and measurement methodologies will be equivalent among the different teaching centres.

Evaluation tests are foreseen to take place in-person. Nevertheless, if it is not possible to carry out in-person tests due to insufficient availability of suitable physical space and/or staff, then evaluation tests will be carried out remotely. In the case of such an eventuality, the evaluation tests will take place using the different telematic resources of Uvigo including the on-line learning platform Fatic, webmail or by oral examinations.

Investment decisions/O04G020V01402

Financing decisions/O04G020V01501

Other comments

This subject guide introduces the course of action that the student must follow throughout the course. The subject guide has a margin of flexibility so it allows for the introduction of adjustments during the course in order to respond to the specific dynamics of the course, the final users (the students) or any other relevant issue that may arise. Furthermore, the student will receive all the information and specific indications that are necessary at each stage of the learning process.

Specific aspects of the subject will be available and carried out on the on-line learning platform [FAITIC].

The dates and timetable of the evaluation tests of the different calls of each subject will be passed by the [Junta de Centro].

The resulting official exam dates and timetables will be publicly available on FCETOU's web page. If any conflict or incoherency arises in relation to the dates of the exams, those published at FCETOU's web page will prevail.

Contingency plan

Description

=== EXCEPTIONAL PLANNING ===

Given the uncertain and unpredictable evolution of the health alert caused by COVID-19, the University of Vigo establishes an extraordinary planning that will be activated when the administrations and the institution itself determine it, considering safety, health and responsibility criteria both in distance and blended learning. These already planned measures guarantee, at the required time, the development of teaching in a more agile and effective way, as it is known in advance (or well in advance) by the students and teachers through the standardized tool.

=== ADAPTATION OF THE METHODOLOGIES ===

The methodology design of the subject is suited to any learning modality. Thus, no specific adaptations or changes to the methodology are needed. In case that Covid-19 related measures are required during the academic year, tutor sessions will take place using technology, including videoconferences, web mail and phone calls, all of them previously scheduled.

In the case that semi-presential learning is required, those students who are not present in the class will follow the lessons through [Campus Remoto] in a synchronized timetable.

In the case that non-presential learning is required, all the students will follow the lessons through [Campus Remoto] in a synchronized timetable.

If it is considered necessary, the on-line learning platform [Faitic] will be used as a supporting tool.
