

## (\*)Facultade de Historia

### (\*)Información básica

(\*)

O grao en Xeografía e Historia proporciona ao alumnado unha serie de competencias que integran a aprendizaxe de coñecementos, a adquisición de habilidades e destrezas e a formación en actitudes e valores. Na liña doutras titulacións recoñecidas nas universidades europeas, ademáis de englobar contidos das disciplinas de Xeografía, Historia e Historia da arte, a oferta da nosa Facultade dota ao alumnado dunha serie ampla de competencias xerais e específicas.

Grao Xeografía e Historia (Plano 2014/15)

Destaca o **carácter humanístico** das disciplinas cunha longa e consolidada traxectoria académica e universitaria, e a súa capacidade para coñecer a orixe e a evolución de moitas das realidades culturais do noso tempo. En conxunto ofertamos unha formación básica en contidos interdisciplinares relativos ao coñecemento da estrutura diacrónica do pasado, das coordenadas espazo-temporais, interrelacionadas coas xeográficas e artísticas.

A formación inclúe ámbitos temáticos e territoriais específicos e contidos instrumentais, a través das **prácticas** que os nosos estudantes realizan en diversas institucións e empresas. O coñecemento do noso pasado permite achegarse as ferramentas analíticas e conceptuais que a súa vez incitan á reflexión, á crítica e ao respecto pola diversidade e a alteridade; en definitiva o coñecemento doutras realidades, moi variadas fomenta os valores humanos e achega principios éticos tan necesarios na sociedade actual.

O carácter multidisciplinar e polivalente dos estudos (Historia, Arte e Xeografía) capacita para un **amplo abanico de saídas profesionais** aos seus egresados, que resultan tan competitivos como os especializados nunha soa das disciplinas humanísticas, tendo en conta da cada vez maior flexibilidade do actual mercado laboral entre titulacións e postos de traballo. Os servizos educativos, os servizos da administración, os medios de comunicación, os centros de educación superior e secundaria, e un longo espectro de institucións e empresas, proporcionan un marco para o desempeño de actividades relacionadas co perfil formativo do grao, preparando para unha gran variedade de actividades.

Ademais, a riqueza histórica, artística, arqueolóxica e natural proporciona unha estreita relación entre os estudos universitarios e o mercado laboral, abrindo unha nova vía de profesionalización ante a crecente consideración do legado cultural herdado como recurso dotado de valor económico ou produtivo. A demanda e saídas profesionais no terreo da conservación, protección, xestión e difusión do patrimonio e o resto de actividades relacionadas co turismo cultural abren un amplo horizonte á saída profesional dos futuros graduados, que poden nesa liña especializarse no máster que ofertamos.

Co obxectivo de dar resposta á demanda social de diferentes profesionais, e aos futuros graduados/as posibilitase unha continuación académica coherente con dous Másteres: Valoración, Xestión e Protección do Patrimonio.

Unha situación similar presenta o **Máster de Arqueoloxía e Ciencias da Antigüedad** orientado á especialización en arqueoloxía.

---

## (\*)Presentación

(\*)

A Facultade de Historia da Universidade de Vigo, sita no Campus Universitario de Ourense, oferta tres titulacións adaptadas ao Espazo Europeo de Educación Superior (EEES): un Grao e dous Posgraos.

Xunto á habitual **modalidade presencial**, poderase optar pola modalidade semipresencial, sempre que se xustifique a imposibilidade de asistir con regularidade ás aulas; os motivos deben estar en relación con obrigas de carácter laboral, familiar, atención a persoas dependentes, actividades deportivas de alto nivel, necesidades educativas especiais. O proceso para acollerse a esta modalidade terá lugar unha vez formalizada a matrícula; estudante debe cubrir un impreso coa solicitude e entregar a documentación xustificativa.

Os docentes poñerán a disposición destes estudantes o material preciso a través da plataforma de teledocencia e os medios para superar as materias do grao, en igualdade de condicións que os presenciais.

A oferta de **Posgraos** contempla dúas titulacións:

- **Mestrado semipresencial en Valoración, Xestión e Protección do Patrimonio**, en colaboración coa Escola Superior de Enxeñaría de Minas do campus de Vigo.
- **Mestrado Interuniversitario de Arqueoloxía e Ciencias da Antigüedad (USC y U Vigo) coa participación do Instituto de Ciencias do Patrimonio (Incipit) do CSIC**. O seu programa ten unha dobre orientación: profesionalizante e investigadora. Na súa primeira vertente, aspira a formar arqueólogos que poidan desenvolver a súa labr profesional neste campo nos próximos anos; na segunda, dá paso ao programa de doutoramento da USC

### Delegación de alumnado

Funcións:

É o órgano de representación estudiantil institucional que se ten artellado na Facultade de Historia.

Todos os alumnos/as poden acudir á sede da Delegación para obter información e facer uso dos seus recursos. Para cubrir as súas necesidades a Delegación ten un orzamento proporcional ao número de alumnos/as que representa. Segundo o Regulamento de Estudantes no artigo 27, entre os fins da Delegación de alumnos está:

- Actuar como órganos de diálogo coas autoridades académicas no establecemento dunha información adecuada sobre a vida universitaria.
- Xestionar os seus recursos.
- Promover e coordinar actividades de extensión universitaria.
- Elixir os seus representantes perante calquera autoridade, institución ou organización, naqueles casos para os que non exista regulamento de elección.

**Representantes:** <http://historia.uvigo.es/gl/alumnado/delegacion-de-alumnado>

### **BIBLIOTECA DO CAMPUS DE OURENSE**

Presente fisicamente nos trescampus, a Biblioteca Universitaria conta en cada un deles cunha biblioteca central e varias salas repartidas polas escolas e facultades que compoñen a Universidade.

A Biblioteca Central do Campus de Orense, fundada no ano 2000, conta cun fondo de uns 100.000 libros e unhas 750 publicacións periódicas divididas en diferentes temas como son xeografía, historia, arte, dereito e química.

Servizos que ofrece:

Préstamo interbibliotecario a nivel nacional e internacional.

Préstamo para alumnos, PDI e PAS.

Información bibliográfica, búsquedas e referencias bibliográficas.

Catálogo automatizado colectivo de publicacións periódicas (a nivel nacional).

Contacto:

Conserxería (988 387320)

Campus As Lagoas - 32004- Orense

Horario de atención ao público: De luns a venres de 8:30h a 21:00h

Acceso ao Catálogo da Biblioteca

### **CONTA DE CORREO ELECTRÓNICO DA UNIVERSIDADE DE VIGO**

Basta con estar matriculado na Universidade e dispor do cartón universitario.

No momento de formalizar a matrícula créase unha conta de correo cun nome de usuario e coa extensión alumnos.uvigo.es

Con ese nome de usuario e esa clave tamén poderás acceder á rede WIFI. Todas as instalacións da Universidade de Vigo teñen acceso a internet por rede WIFI

<http://www.uvigo.es>

### **CARNET UNIVERSITARIO**

O Carné Universitario é unha tarxeta intelixente realizada en colaboración co Santander, que acredita o estudante, profesorado e personal de administración e servizos como membros da comunidade universitaria.

Ademais de todas as funcións asociadas ás tarxetas intelixentes, o carné poderá dispoñer de servizos financeiros 4B Maestro, se se solicitan voluntariamente

Para qué podes utilizalo?

Acreditación universitaria

Acceso a recintos e ordenadores das aulas de informática e persoais\*

Préstamo de libros en bibliotecas

Consultas en Puntos de Información e, opcionalmente, en caixeiros 4B\*

Tarxeta deportiva

Moedeiro electrónico

Descostos en comercios

Tarxeta 4B Maestro (opcional)

Firma Electrónica

Solicítalo en calquera momento nas Oficinas Universitarias Santander do campus, levando unha fotografía recente. Recíbalo no teu domicilio particular. Para que inclúa o servizo 4B Maestro só necesitas ser titular dunha conta bancaria no Santander. Esta contorna non ten nin gastos de administración nin de mantemento.

O Carné Universitario non hai que renovalo cada ano. Para activar a función financeira diríxete á Oficina Universitaria.

## SEGURO ESCOLAR

Os alumnos da Universidade de Vigo, sexa cal for a súa nacionalidade ou estudos que cursen, quedan cubertos por un seguro escolar. Do mesmo xeito que se regula para os niveis educativos previos, a Lei establece a cobertura obrigatoria.

Ademais, a Universidade de Vigo subscribiu un seguro adicional, seguro cum laude, para todos os seus alumnos, incluídos aqueles que non quedan cubertos polo seguro obrigatorio. Ambos os seguros páganse no momento de formalizar a matrícula, polo que non teñen custo adicional algún.

Con carácter complementario aos dous anteriores, a Universidade de Vigo dispón dun seguro voluntario, seguro cum laude plus, con maiores coberturas que aqueles e a un custo moi reducido (ao redor de 10 euros por curso).

## OUTROS SERVICIOS

- **Actividades Culturais**
- **Deportes**
- **Voluntariado**
- **Area de Emprego**
- **Fundación Universidade de Vigo**

\*The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

### Methodologies

	Description
Introductory activities	Session oriented to take contact and gather information on the students and his motivations. Presentation of the matter and of the surroundings in which it will develop the module, employing tools of *teleformación and telecommunication.
Seminars	Activity focused on the work on a specific topic, which allows to deepen or complement the contents of the subject. They can be used as a complement to the theoretical classes.
Case studies	Analysis of cases or situations in relation with the concept and categories of the Cultural Heritage. Process based in the platform of *teleformación.
Autonomous problem solving	Activities linked to the development of the reflection, debate, critical and open generation of alternatives moving the knowledges and the skills of the students by means of the different technological tools of teaching.

### Personalized assistance

#### Methodologies Description

Seminars	Educational interaction with students the purpose of basic exhibition of contents, orientation, advice and resolution of doubts in the process of the learning, with the support of the means of remote teaching.
----------	---

#### Tests Description

Essay	Resolution of doubts and personalised attention of the practical exercises realised by the students (glossary, specific forums). Resources used: platform Moodle of remote teaching and Campus Remoto videoconference.
-------	--

### Assessment

	Description	Qualification	Training and Learning Results			
Objective questions exam	It tests type test, realised through the virtual platform. The result of learning evaluated is: Know the concept of cultural heritage, his evolution and his distinct categories.	40	A5	B1	C8	D4 D6
Essay	The students carry out a task that consists of short texts and/or critical comments in response to the practical exercises (glossary, specific forums) proposed by the teaching staff The result of learning evaluated is: Know the concept of cultural heritage, his evolution and his distinct categories	40	A5	B1	C8	D4 D6
Systematic observation	Communication and active participation in the activities of the matter through telematic means. The result of learning evaluated is: Know the concept of cultural heritage, his evolution and his distinct categories	20	A5	B1	C8	D4 D6

### Other comments on the Evaluation

According to the 2023 "Regulation on the evaluation, qualification and quality of teaching and the student learning process of the University of Vigo", there are two evaluation systems that students can choose: the preferred one, which will be applied by default, of "continuous evaluation" (diversified tests and activities that take place throughout the semester), and the so-called "global evaluation" (examinations and/or delivery of work/exercises to be carried out on the official dates of evaluation established in the academic calendar), which must be expressly requested by the interested students, and communicated to the responsible teaching staff within a maximum period of 31 days from the beginning of each term.

The "global evaluation" tests for this subject will consist as follows: quiz-type exam (50%) + delivery of exercises (glossary, specific forums) (50%).

Students have two evaluation calls/opportunities. The first is carried out during the teaching semester. The second (or 2nd opportunity) will take place in the month of July, for which access to the teaching platform will be enabled again.

### Recommendations

#### Other comments

The teaching of the subject will be always of face-to-face telematic way, well was synchronous or asynchronous, using the eMoodle (MooVi) educational platform and participating in the educational activities through multiple videoconference (Remote Campus).

To be able to receive the teaching of effective way it si recommended , previously to the start of the subject, to consult the manual of access to the platform and to follow the technical specifications in order to assist to the remote sessions. It is indispensable that each student access to the educational platform of the subject previously to the beginning of the same.

Methodologies	Description
Autonomous problem solving	Resolution of doubts and personalised attention of the practical exercises realised by the students (glossary, specific forums). Resources used: platform Moodle of remote teaching and Campus Remoto videoconference.
Case studies	Information and personalised consultancy of the autonomous practices realised by the *alumnado through the TIC. Resources used: platform Moodle of remote teaching and Campus Remoto videoconference.

<b>Assessment</b>			
	Description	Qualification	Training and Learning Results
Essay	The student realises and presents a Report of Heritage Assessment (IVP) on one very cultural of his election (transversal of the module), using tools of remote delivery in the virtual platform. The result of learning evaluated is: Know the methodological tools for the realisation of a process of estimate of the value of a very cultural any one, from criteria standardised.	40	B1
Objective questions exam	It tests type test, realised through the virtual platform. The result of learning evaluated is: Know the methodological tools for the realisation of a process of estimate of the value of a very cultural any one, from criteria standardised.	30	B1 C8 D4
Systematic observation	Communication and active participation in the activities of the matter throughout the telematic means. Evaluation of the result of the learning "Know the methodological tools for the realisation of a process of estimate of the value of a very cultural any one, from criteria standardised".	20	B1
Presentation	Presentation and defense in the classroom of the Report of Heritage Assessment (IVP) prepared by the student. The result of learning evaluated is: Know the methodological tools for the realisation of a process of estimate of the value of a very cultural any one, from criteria standardised.	10	

### **Other comments on the Evaluation**

According to the 2023 "Regulation on the evaluation, qualification and quality of teaching and the student learning process of the University of Vigo", there are two evaluation systems that students can choose: the preferred one, which will be

applied by default, of "**continuous evaluation**" (diversified tests and activities that take place throughout the semester), and the so-called "**global evaluation**" (tests and/or delivery of work/exercises to be carried out on the official dates of evaluation established in the academic calendar), which must be expressly requested by the interested students, and communicated to the responsible teaching staff within a maximum period of 31 days from the beginning of each term.

The "**global evaluation**" tests for this subject will consist of the following: quiz test (40%) + delivery of a "Heritage Evaluation Inform" (60%).

Students have two evaluation calls/opportunities. The first is carried out during the teaching semester. The second (or 2nd opportunity) will take place in the month of July, for which access to the teaching platform will be enabled again.

	Class hours	Hours outside the classroom	Total hours
Introductory activities	1	0	1
Seminars	4	20	24
Case studies	1	30	31
Problem solving	0	19	19

\*The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

## Methodologies

	Description
Introductory activities	Session of 1 hour of destined length to the presentation of the subject, of the educational and the taking of contact with the students. After making a brief presentation and taking of contact between the educational and the students, will explain the surroundings in which it will develop the module (through tools of virtual and telecommunication); it will present the subject and his basic aims; it will make a basic explanation of the contents of each subject and the main resources for his learning; as well as the calendar, methodology and criteria of evaluation. Finally they will explain the available resources to put in contact with the educational and the mates, formulate questions or make virtual/ on-line attention.
Seminars	They will be to disposal of the students 4 hours of virtual clases in group with the purpose of orientation, advice and resolution of doubts in the process of learning through means of virtual attention
Case studies	It will propose the analysis of one or several problems or real cases, with the purpose to know it, interpret it, resolve it, as half directed to the practical application of the theory studied in the subject. It will make through means of virtual attention
Problem solving	Activities linked to the development of the reflection, the debate, the criticism and the open generation of alternatives and hypothesis of solution, using the knowledges and skills that pretend to develop through this subject. It will make through means of virtual attention

## Personalized assistance

Methodologies	Description
Introductory activities	The teacher will answer all questions regarding the contents of the discipline by the students (virtually through Moovi, previously arranged virtual tutoring, telephone or by email).
Seminars	The teacher will answer all questions regarding the contents of the discipline by the students (virtually through Moovi, previously arranged virtual tutoring, telephone or by email).
Case studies	The teacher will answer all questions regarding the contents of the discipline by the students (virtually through Moovi, previously arranged virtual tutoring, telephone or by email).
Problem solving	The teacher will answer all questions regarding the contents of the discipline by the students (virtually through Moovi, previously arranged virtual tutoring, telephone or by email).

## Assessment

	Description	Qualification	Training and Learning Results
Introductory activities	Participation in theoretical classes and forums of the discipline	10	A4 B1 C3 D1 C4 D9

Seminars	Online assessment tests (test type tests) will be carried out, on the contents of the subject (topics 1 and 2) - on the explanations of the teacher's seminars - on the date indicated and whose information will be from the beginning of the course available on the MooVi platform. The learning outcome evaluated is: Understand the key concepts around cultural heritage, at the legal level, for their academic training and professional development through a coherent and orderly synthesis of the abundant and dispersed legal corpus in this area.	40	B1 C3 D1 C4 D9
Case studies	The work and projects proposed by the teacher will be carried out, using remote delivery tools on the indicated date and whose information will be from the beginning of the course available on the MooVi platform. The result of learning evaluated is: To train the student to develop projects and work in the heritage field with sufficient legal knowledge, through eminently practical declasses.	25	C3 C4
Problem solving	The work and projects proposed by the teacher will be carried out, using remote delivery tools on the indicated date and whose information will be from the beginning of the course available on the mooVi platform. The learning result evaluated is: the critical analysis of aspects related to Cultural Heritage	25	B1 D1

### Other comments on the Evaluation

According to the provisions of the "Regulation on the evaluation, qualification and quality of teaching and the learning process of the student body of the University of Vigo", of 2023, there are two evaluation systems that students can choose: the preferred, which will be applied by default, of "continuous evaluation" (tests and diversified activities that take place throughout the semester), and the so-called "global evaluation" (exams and / or delivery of work / exercises to be carried out on the official evaluation dates established in the academic calendar), which must be expressly requested by the interested students, and communicated to the responsible teaching staff within a maximum period of 31 days from the beginning of each semester.

The "global assessment" tests of this subject will consist of the following: in the same as in the continuous assessment.

Students have two calls/opportunities for evaluation. The first takes place during the teaching semester. The second (or 2nd opportunity) will be held in July, for which access to the teaching platform will be enabled again.

For the successful completion of the subject, it is advisable to follow the schedule that will be accessible at the beginning of the Master (MooVi), which will facilitate the proper realization of the activities planned by the teacher. No activity or work submitted after the deadline will be evaluated. It is advisable to ask any questions to the teacher of the subject to be able to correct it as soon as possible and not wait for the deadline of delivery.

The evaluation of the ordinary call and the second call will be carried out in the same way, with the same requirements.

This subject is English Friendly, which implies the following commitment: The subject is taught in Spanish but the teacher translated the teaching guide into English; Materials and bibliographic references will be provided for the follow-up of the subject in English, tutorials will be attended in English, if demanded by the international student, and tests and evaluations will be designed and implemented in English (all this will be done if the international student demands it).

### Methodologies

	Description
Introductory activities	Session oriented to take contact and gather information on the students and his motivations. Presentation of the matter and of the surroundings in which it will develop the module, employing virtual tools and telecommunication.
Seminars	Educational interaction/students with the purpose of orientation, advice and resolution of doubts in the process of the learning, with the support of the virtual platform.
Case studies	Analysis of a fact, phenomenon, real event in the field of the management of the cultural heritage entering to the one proposal of project of interpretation, keeping the lines of an initial protocol of work that accredit the theoretical progress-practical of the students in the matter. Process based on the virtual platform.

### Personalized assistance

Methodologies	Description
Introductory activities	The personalised attention will consist in the orientation of the level of learning required, the introduction of the materials, the resolution of doubts and the explanation of the dynamics of the development of the matter in the virtual platform.
Case studies	Resolution of doubts and personalised attention of the works realised by the students. Resources used: virtual platform (FaiTic/Moodle) and e-meeting.

### Assessment

	Description	Qualification	Training and Learning Results			
Systematic observation	Control and continuous follow-up of the progress of the students in the matter, based in criteria of efficient use of the Tics and of intervention in the virtual surroundings. Communication and active participation in the activities of the matter through telematic means. Result of learning evaluated: know the diverse models of heritage management.	30	A1	B1	C8	D3 D7
Debate	Communication and active participation in the forum of debate between the group of students, centred in the contents of the matter. Result of learning evaluated: know the diverse models of heritage management	30	A1	B1	C8	D3 D7
Essay	The students makes and presents a project of interpretation of the cultural heritage in the context of his management (analysis and comment, individual or groups) using tools of remote delivery in the date indicated. Result of learning evaluated: Application of the knowledge of the diverse models of heritage management in the design of similar diagrams in the intervention on new patrimonial assets.	40	A1	B1	C8	D3 D7

### Other comments on the Evaluation

According to the 2023 "Regulation on the evaluation, qualification and quality of teaching and the student learning process of the University of Vigo", there are two evaluation systems that students can choose: the preferred one, which will be applied by default, of "**continuous evaluation**" (diversified tests and activities that take place throughout the semester), and the so-called "**global evaluation**" (tests and/or delivery of work/exercises to be carried out on the official dates of evaluation established in the academic calendar), which must be expressly requested by the interested students, and communicated to the responsible teaching staff within a maximum period of 31 days from the beginning of each term.

The "**global evaluation**" tests for this subject will consist as follows: Essay (40%) + delivery of exercises (specific forum, comments on virtual classroom) (60%)

Students have two evaluation calls/opportunities. The first is carried out during the teaching semester. The second (or 2nd opportunity) will take place in the month of July, for which access to the teaching platform will be enabled again.

For all the students will specify in MooVi the methodology, the activities, assessment, together with the calendar of delivery. The use of the materials offer to students in MooVi have to respect the rights of author.

### **Recommendations**

### **Other comments**

The teaching of the subject will be always of face-to-face telematic way, well was synchronous or asynchronous, using the eMoodle (MooVi) educational platform and participating in the educational activities through multiple videoconference (e-meeting, Remote Campus).

To be able to receive the teaching of effective way it si recommended , previously to the start of the subject, to consult the manual of access to the platform and to follow the technical specifications in order to assist to the remote sessions. It is indispensable that each student access to the educational platform of the subject previously to the beginning of the same.

General description	(*)Esta materia ofrece unas nociones fundamentales sobre los sistemas de representación gráfica y su aplicación en la representación de bienes patrimoniales tanto a través de sus vistas como de otros métodos de proyección. Asimismo proporciona una introducción a las herramientas de software para poder generar planos y documentos de representación gráfica a escala considerando unas pautas básicas recogidas en normas ESO. Objetivos: Gestionar y elaborar documentación geomática de los bienes patrimoniales. Documentar las características físicas, formales y el estado de conservación del patrimonio cultural inmueble y su entorno inmediato.			

**Training and Learning Results**

Code	
A2	That students know how to apply the knowledge acquired and their ability to solve problems in new or unfamiliar environments within broader (or multidisciplinary) contexts related to their area of study.
B2	Acquire the necessary knowledge to handle the different tools of graphic, dimensional and geospatial documentation to be applied in the documentation and valuation of Cultural Heritage.
C5	Master and be able to apply instruments and procedures of various cartographic techniques to the real cultural heritage for its dimensional control and the elaboration of graphic documentation using CAD tools.
C6	Analyze, refine and interpret geographic information, as well as its storage in databases, based on technical requirements for the inventory and documentation of an intervention project.
D4	To be able to integrate the diverse information and data contributed by diverse technicians and tools in the writing of conclusions of action.
D8	Acquire advanced knowledge and demonstrate, in a context of scientific and technological research or highly specialized, a detailed and substantiated understanding of the theoretical and practical aspects and the methodology of work in one or more fields of study.

**Expected results from this subject**

Expected results from this subject	Training and Learning Results
Realize calculations with scales, interpret views and flats	A2 B2 C5 C6 D4 D8
Elaborate graphic documentation where represent the cultural heritage (plans 2D, models 3D) employing tools CAD	A2 B2 C5 C6 D4 D8

**Contents**

Topic	
Introduction to CAD representation	- Concept of drawing and drawing to scale. - Standardization in the edition of plans: formats, folding, scale, drawing area, labeling, lines..

Representation systems	<ul style="list-style-type: none"> <li>- Fundamentals of representation systems: Dihedral, Dimensioned Plans, Axonometric, Conical.</li> <li>- Interpretation of pieces in isometric; obtaining views; basics of dimension</li> <li>- Reading and interpretation of plans in System of Dimensioned Plans</li> </ul>
CAD software	<ul style="list-style-type: none"> <li>- Fundamentals: interface, formats, units and drawing spaces</li> <li>- Tools for CAD delineation and assistance with drawing</li> <li>- Creation of texts in CAD</li> <li>- Introduction and scaling of orthophotos in CAD</li> <li>- Tools for editing plans: work with graphic windows. Printing in CAD.</li> </ul>

### Planning

	Class hours	Hours outside the classroom	Total hours
Lecturing	4	0	4
Case studies	0	18	18
Problem solving	0	18	18
Autonomous problem solving	0	30	30
Seminars	1	0	1

\*The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

### Methodologies

	Description
Lecturing	Exhibition of the main theoretical contents of the subject with the help of audiovisual media. Students will have the possibility of attending this session in the form of a videoconference.
Case studies	Analysis of a problem or real case, in order to know it, interpret it, solve it, generate hypotheses, diagnose it and go into alternative solution procedures, to see the application of theoretical concepts in reality. They will be used as a complement to the theoretical classes for self-learning.
Problem solving	Activities in which problems and / or exercises related to the subject are formulated.
Autonomous problem solving	The student must develop autonomously the analysis and resolution of problems and / or exercises.
Seminars	Realization of group and personalized tutorials, organization of forums, chats, debates, wikis, etc.
Introductory activities	Activities aimed at making contact and gathering information about the students, as well as presenting the subject. The file of the subject, objectives, calendar, evaluation criteria will be presented, as well as discussion forums and news and other environments in which the learning will unfold.

### Personalized assistance

### Assessment

	Description	Qualification	Training	Learning Results
Problem and/or exercise solving	Essays and Remote Delivery Projects	40	A2 B2	C5 D4 C6 D8
Systematic observation	Active participation through the telematic means	20	A2 B2	C5 D4 C6 D8
Objective questions exam	Test that includes closed questions with different answer alternatives (true/false, multiple choice, pairing of elements...). Students select an answer from a limited number of possibilities.	40	A2 B2	C5 D4 C6 D8

### Other comments on the Evaluation

According to the 2023 "Regulation on the evaluation, qualification and quality of teaching and the student learning process of the University of Vigo", there are two evaluation systems that students can choose: the preferred one, which will be applied by default, of "**continuous evaluation**" (diversified tests and activities that take place throughout the semester),

and the so-called "**global evaluation**" (tests and/or delivery of work/exercises to be carried out on the official dates of evaluation established in the academic calendar), which must be expressly requested by the interested students, and communicated to the responsible teaching staff within a maximum period of 31 days from the beginning of each term.

The "**global evaluation**" tests for this subject will consist as follows: objective questions test (50%), problems and/or exercises solving (50%).

Students have two evaluation calls/opportunities. The first is carried out during the teaching semester. The second (or 2nd opportunity) will take place in the month of July, for which access to the teaching platform will be enabled again.

General description	This course aims to train students to manage large amounts of documentary data in various formats, so that they cooperate in the common task of managing cultural heritage. Its basic role is to provide students with the theoretical and methodological knowledge necessary for the design of databases as well as for the management and writing of metadata. English Friendly subject: International students may request from the teachers: a) resources and bibliographic references in English, b) tutoring sessions in English, c) exams and assessments in English.

Seminars	4	0	4
Case studies	1	20	21
Problem solving	0	20	20
Project	0	13	13
Essay	0.5	14.5	15
Systematic observation	0	1	1

\*The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

### Methodologies

	Description
Introductory activities	Activities directed to take contact and gather information on the students, as well as to present the module. They will present the module outline form of the matter, aims, calendar, criteria of evaluation, as well as forums of debate and news and other surroundings in which it will manage the learning.
Seminars	Activities focused to the work on each one of the technologies that present in the matter, so that the students can understand the theoretical principles of each technician to the time that take contact with the tools software that will allow them put in technical said practice during a process of documentation. These seminars will realise by means of videoconference and tutorial videosl, on the studies of case of employment of each technician.
Case studies	Analysis of a problem or real case, with the purpose to know it, interpret it, resolve it, generate hypothesis, diagnose it and get introduced to alternative procedures of solution, to see the application of the theoretical concepts in the reality. They will employ as I complement of the theoretical classes for the autolearning.
Problem solving	Activities in which they formulate problems and/or exercises related with the matter.

### Personalized assistance

Methodologies	Description
Case studies	Resolution of doubts and personalised attention of the work performed by the students. Resources used: platform for virtual teaching Moodle, and videoconference and e-meeting
Problem solving	Resolution of doubts and personalised attention through the videoconference and e-meeting.

### Assessment

Description	Qualification	Training and Learning Results

Project	The students presents the results of the preparation of an individual project on the generation of data by means of the technicians of documentation developed in the subject. The results of learning evaluated are the capacity to generate documentary data in diverse formats, so that they cooperate in the work of management of the cultural heritage.	40	A1 B2 C5 D4 C6 D5
Essay	The student presents the result obtained in the preparation of a document on the thematic of the matter in the preparation of seminars, investigations, memories, essays, summaries of readings, conferences, etc. The results of the learning are the qualification of the student for the geomatic documentation of the heritage. It pretends that the student was able to document the physical characteristics, formal and the state of conservation of the immovable cultural heritage and his immediate surroundings.	40	A1 B2 C5 D4 C6 D5
Systematic observation	The performance of the student is being observed, as well as of the practices and seminars through the telematic tools. The results of the learning are the qualification of the student for the geomatic documentation of the heritage.	20	B2 C5 D4 C6 D5

### Other comments on the Evaluation

According to the 2023 "Regulation on the evaluation, qualification and quality of teaching and the student learning process of the University of Vigo", there are two evaluation systems that students can choose: the preferred one, which will be applied by default, of "**continuous evaluation**" (diversified tests and activities that take place throughout the semester), and the so-called "**global evaluation**" (tests and/or delivery of work/exercises to be carried out on the official dates of evaluation established in the academic calendar), which must be expressly requested by the interested students, and communicated to the responsible teaching staff within a maximum period of 31 days from the beginning of each term.

The "**global evaluation**" tests for this subject will consist as follows: project (50%) and essay (50%).

Students have two evaluation calls/opportunities. The first is carried out during the teaching semester. The second (or 2nd opportunity) will take place in the month of July, for which access to the teaching platform will be enabled again.

This activity can develop of form semi-face-to-face (through emeeting) or of form no face-to-face (through the email or of Faitc)

### Assessment

	Description	Qualification	Training and Learning Results			
Laboratory practice	Proofs for the evaluation that include activities, problems or practical exercises to resolve. The students have to give answer to the activity posed, applying the theoretical and practical knowledges of the subject. The results of the learning are: Design and schedule a campaign of prospecting, as well as interpret the results expected.	40		B2	C7	D4
Essay	The student presents the result obtained in the preparation of a document on the thematic of the matter, in the preparation of seminars, investigations, memories, essays, summaries of readings, conferences, etc. The results of the learning are: Design and schedule a campaign of prospecting, as well as interpret the results expected.	20	A2	B2	C7	D4 D5
Case studies	(*)Proba na que un alumno/a debe analizar un feito, problema ou suceso real coa finalidade de coñecelo, interpretalo, resolvelo, xerar hipóteses, contrastar datos, reflexionar, completar coñecementos, diagnosticalo e adestrarse en procedementos alternativos de solución.	40	A2	B2	C7	D4 D5

### Other comments on the Evaluation

According to the 2023 "Regulation on the evaluation, qualification and quality of teaching and the student learning process of the University of Vigo", there are two evaluation systems that students can choose: the preferred one, which will be applied by default, of "**continuous evaluation**" (diversified tests and activities that take place throughout the semester), and the so-called "**global evaluation**" (tests and/or delivery of work/exercises to be carried out on the official dates of evaluation established in the academic calendar), which must be expressly requested by the interested students, and communicated to the responsible teaching staff within a maximum period of 31 days from the beginning of each term.

The "**global evaluation**" tests for this subject will consist as follows: practical exercises (40%), essay (20%), case studies (40%).

Students have two evaluation calls/opportunities. The first is carried out during the teaching semester. The second (or 2nd opportunity) will take place in the month of July, for which access to the teaching platform will be enabled again.

General description	The aim of this course is to qualify the student to interpret cartographic documentation and know apply different technologies of preparation of necessary cartography in the projects of documentation of the cultural heritage real estate and his immediate surroundings. English Friendly subject: International students may request from the teachers: a) resources and bibliographic references in English, b) tutoring sessions in English, c) exams and assessments in English.			

**Training and Learning Results**

Code	
A3	That students are able to integrate knowledge and face the complexity of making judgments based on information that, being incomplete or limited, includes reflections on social and ethical responsibilities linked to the application of their knowledge and judgments.
B2	Acquire the necessary knowledge to handle the different tools of graphic, dimensional and geospatial documentation to be applied in the documentation and valuation of Cultural Heritage.
C5	Master and be able to apply instruments and procedures of various cartographic techniques to the real cultural heritage for its dimensional control and the elaboration of graphic documentation using CAD tools.
C6	Analyze, refine and interpret geographic information, as well as its storage in databases, based on technical requirements for the inventory and documentation of an intervention project.
D5	Be able to predict and control the evolution of complex situations through the development of new and innovative work methodologies adapted to the specific scientific / research, technological or professional field, in general multidisciplinary, in which their activity is developed.
D8	Acquire advanced knowledge and demonstrate, in a context of scientific and technological research or highly specialized, a detailed and substantiated understanding of the theoretical and practical aspects and the methodology of work in one or more fields of study.

**Expected results from this subject**

Expected results from this subject	Training and Learning Results
Know the different technologies that allow generating cartographic documents of heritage assets	A3

### Methodologies

	Description
Introductory activities	Activities directed to take contact and gather information on the students, as well as to present the subject. They will present index card of the matter, aims, calendar, criteria of evaluation, as well as forums of debate and news and other surroundings in which it will manage the learning.
Lecturing	Exhibition of the main theoretical contents of the matter with help of audiovisual means. The students will have the possibility to assist to said session in shape of videoconference.
Case studies	Analysis of a problem or real case, in order to know it, interpret it, solve it, generate hypotheses, diagnose it and go into alternative solution procedures, to see the application of theoretical concepts in reality. They will be used as a complement to the theoretical classes for self-learning.
Autonomous problem solving	Activities in which they formulate problems and/or exercises related with the matter. The student has to develop of autonomous form the analysis and resolution of the problems and/or exercises.
Mentored work	The student presents the result obtained in the preparation of a document on the thematic of the matter in the preparation of seminars, investigations, memories, essays, summaries of readings, conferences, etc

### Personalized assistance

#### Methodologies Description

Mentored work	The personalised attention will consist in the orientation of the level of learning required, the introduction to the materials, the resolution of doubts and the explanation of the dynamics of the development of the matter in the platform of teledocencia.
---------------	---

### Assessment

	Description	Qualification	Training and Learning Results		
Project	The students present the results of the preparation of an individual project on the generation of data by means of the technicians of documentation developed in the subject. The results of learning evaluated are the capacity to generate documentary data in diverse formats, so that they cooperate in the work of management of the cultural heritage.	40	A3	B2	C5 C6

Essay	The student presents the result obtained in the preparation of a document on the thematic of the matter, in the preparation of seminars, investigations, memories, essays, summaries of readings, conferences. The results of learning evaluated are the capacity to manage big quantities of documentary data in diverse formats, so that they cooperate in the common work of management of the cultural heritage.	40	A3	B2	C5 C6	
Systematic observation	Evaluation of the active participation and based of the students in the activities of the process education-learning	20	A3	B2	C5 C6	D5 D8

### Other comments on the Evaluation

According to the 2023 "Regulation on the evaluation, qualification and quality of teaching and the student learning process of the University of Vigo", there are two evaluation systems that students can choose: the preferred one, which will be applied by default, of "**continuous evaluation**" (diversified tests and activities that take place throughout the semester), and the so-called "**global evaluation**" (tests and/or delivery of work/exercises to be carried out on the official dates of evaluation established in the academic calendar), which must be expressly requested by the interested students, and communicated to the responsible teaching staff within a maximum period of 31 days from the beginning of each term.

The "**global evaluation**" tests for this subject will consist as follows: project (50%) and essay (50%).

Students have two evaluation calls/opportunities. The first is carried out during the teaching semester. The second (or 2nd opportunity) will take place in the month of July, for which access to the teaching platform will be enabled again.

\*The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

### Methodologies

	Description
Introductory activities	Introductory sessions to make contact and gather information about the students as well as present the subject: its theoretical contents, available materials and resources, learning results and tests of evaluation.
Lecturing	Theoretical sessions in which the teachers exposes the theoretical contents of the subject and the guidelines to make the tasks and the study of case on a cultural good.
Seminars	Sessions in which the students will have a conversation with the teachers of the subject for the advice and development of the activities and of the process of the learning.
Problem solving	Analysis of a problem or real case in order to demonstrate the domain of the students of the necessary tools for the consultation and use of documentary, graphic and photographic sources related to a cultural asset chosen by the student in order to prepare a historical-artistic report.
Case studies	Analysis of a problem or real case with the purpose to show by part of the students the command of the necessary tools for the query and utilisation of documentary sources, graphic and photographic related with a cultural good elected by the student with the end to elaborate a historical report-artistic.

### Personalized assistance

Methodologies	Description
Case studies	The personalised attention will consist in the orientation on methodology, editorial and formal presentation of the work on the very cultural elected by the student. The attention will do by means of group tutoring on-line, the forums of the subject, the virtual room of the subject and the email.
Problem solving	The personalised attention will realise fundamentally through the forum of the matter and of the email to solve the doubts on the researches of bibliographic sources, documentary and graphic, and the preparation of the diagram of the study of case. To be necessary will use also group tutoring on-line, the virtual room of the subject and the email.
Seminars	Along the course the teachers will keep direct relation with the students with the object of tutor and resolve doubts, keeping interaction in real time through the group tutoring on-line, the forums of the platform Moodle, the virtual room of the subject and the email.

### Assessment

Description	Qualification	Training and Learning Results

Problem solving	Evaluation of the competitions and knowledges purchased in the subjects 2, 3 and 4 and the active and individual participation through telematic means. The students will realise of autonomous form six exercises conceived like previous stages for the preparation of the study of case. They will deliver in the virtual course created in the platform Moodle.  The results of the learning evaluated are: Endow to the students of the necessary tools for query of bibliographic sources and documentaries of archive, graphic and photographic related with a good or group of goods and the realisation of historical reports-artistic.	40	A4	B1	C1 C11 C14	D2 D8
Case studies	Analysis of a problem or real case with the purpose that the students show the command of the necessary tools for the search and query of bibliographic sources and documentaries of archive, graphic and photographic, related with a good or group of cultural goods. The results of the learning evaluated are: Endow to the students of the necessary tools for query of bibliographic sources and documentaries of archive, graphic and photographic related with a good or group of goods and the realisation of historical reports-artistic.	40	A4	B1	C1 C11	D8
Systematic observation	(*)Participación activa nas clases e entrega en tempo e forma das tarefas e exercicios da materia Os resultados da aprendizaxe avaliados son: Dotar ao alumnado das ferramentas necesarias para a consulta de fontes bibliográficas e documentais de arquivo, gráficas e fotográficas relacionadas cun ben ou conxunto de bens.	20	A4	B1	C1 C11 C14	D2 D8

### Other comments on the Evaluation

According to the 2023 "Regulation on the evaluation, qualification and quality of teaching and the student learning process of the University of Vigo", there are two evaluation systems that students can choose: the preferred one, which will be applied by default, of "**continuous evaluation**" (diversified tests and activities that take place throughout the semester), and the so-called "**global evaluation**" (tests and/or delivery of work/exercises to be carried out on the official dates of evaluation established in the academic calendar), which must be expressly requested by the interested students, and communicated to the responsible teaching staff within a maximum period of 31 days from the beginning of each term.

The "**global evaluation**" tests for this subject will consist as follows:

Students have two evaluation calls/opportunities. The first is carried out during the teaching semester. The second (or 2nd opportunity) will take place in the month of July, for which access to the teaching platform will be enabled again.

## Contents

Topic	
Introduction and basic concepts	Approximation to the basic concepts. The debates on the memory, identity and heritage.
Cultural heritage, Mentalities and Collective Identities.	Historical processes of symbolic and cultural reproduction of the past. Configuration of the collective identities.
Memory and places of the Collective Memory	Concept by heart and relate history/memory Concept of places of the Memory and his application. Public uses of the history.
Study of cases	The oral memory. The patrimonialización of the represive places

## Planning

	Class hours	Hours outside the classroom	Total hours
Introductory activities	1	0	1
Lecturing	4	0	4
Case studies	0	14	14
Problem solving	0	15	15
Discussion Forum	0	6	6
Mentored work	0	35	35

\*The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

## Methodologies

	Description
Introductory activities	Approach to basic concepts. Introduction to the debate around history, identities, memory and heritage.
Lecturing	Schematic exhibition by part of the profesorado of the contents of the matter, theoretical bases and guidelines on the works and exercises to develop by the students.
Case studies	Analysis of a real problem or case, with the purpose of knowing how to interpret it, solve it, generate hypotheses, diagnose it and introduce itself in alternative procedures of solution, to see the application of theoretical concepts to reality. It will be used as a complement to the theoretical classes for self-learning.
Problem solving	The students must read and analyze the work documents indicated and carry out the proposed activities / exercises.
Discussion Forum	Activities developed in some virtual surroundings in which they debate subjects related with the contents of the matter.
Mentored work	Preparation of documents on the thematic of the matter of individual way or in group or preparation of investigations, memories, essays, etc.

## Personalized assistance

Methodologies	Description
Discussion Forum	The personalized attention will consist of the resolution of doubts and review of the materials used by the students.
Mentored work	The personalized attention will consist of the resolution of doubts and review of the materials used by the students.

## Assessment

	Description	Qualification	Training and Learning Results		
			A1	B1	D6
Case studies	Evaluation of the results of the Case Study. Learning outcomes assessed: Provide students with tools to manage specific sources. To train students to make decisions about the role assigned to heritage, its value and public use.	20	A1	B1	D6

Problem solving	Evaluation of the activities carried out. Learning outcomes assessed: To train students to make decisions about the role assigned to heritage, its value and public use.	30	A1 B1	D6
Discussion Forum	Evaluation of the active participation of the students and of his contributions to the forum of discussion of the matter	10		C8
Mentored work	Evaluation of the results of the work tutelado. Results of the learning evaluated: Endow to the students of tools for the handle of the specific sources.	40		C11 D8 C13

### Other comments on the Evaluation

According to the 2023 "Regulation on the evaluation, qualification and quality of teaching and the student learning process of the University of Vigo", there are two evaluation systems that students can choose: the preferred one, which will be applied by default, of **"continuous evaluation"** (diversified tests and activities that take place throughout the semester), and the so-called **"global evaluation"** (tests and/or delivery of work/exercises to be carried out on the official dates of evaluation established in the academic calendar), which must be expressly requested by the interested students, and communicated to the responsible teaching staff within a maximum period of 31 days from the beginning of each term.

The **"global evaluation"** tests for this subject will consist as follows: delivery of the proposed activities (Problem Solving, 20%), Case Studies (30%), Mentored Work (50%)

Students have two evaluation calls/opportunities. The first is carried out during the teaching semester. The second (or 2nd opportunity) will take place in the month of July, for which access to the teaching platform will be enabled again.

General description	(*)Esta asignatura ten como obxectivo capacitar ao alumnado para a difusión e divulgación de coñecemento e creación de mensaxes con fins de sensibilización social sobre o patrimonio cultural. Su papel básico es dotar al alumno/a de los conocimientos teóricos y metodológicos básicos para esbozar y dirigir proyectos de musealización y diseñar campañas de promoción y difusión del mismo.			

**Training and Learning Results**

Code	
A1	Possess and understand knowledge that provides a basis or opportunity to be original in the development and / or application of ideas, often in a research context.
B1	Acquire the ability to differentiate and assess the various expressions of Cultural Heritage, know the tools for their quantification and protection, as well as the different perspectives that address their management.
C8	Understand the multifactorial values of Cultural Heritage, and assess it appropriately according to criteria of social use.
C14	Acquire the capacity for dissemination and dissemination of scientific knowledge and the creation of messages for the purpose of social awareness about the Heritage.
D3	Sustainability and environmental commitment. Equitable, responsible and efficient use of resources.
D6	Know how to transmit in a clear and unambiguous way to a specialized audience or not, results from scientific and technological research or the most advanced field of innovation, as well as the most relevant foundations on which they are based

### Methodologies

	Description
Introductory activities	Activities directed to take contact and gather information on the students, as well as to present the matter.
Scientific events	Participation of speakers for the presentation of cases and experiences.
Seminars	Sessions that the students/are supported by the profesorado of the matter for advice, development of activities of the matter and of the process of learning.
Case studies	Analysis of a problem or real case, with the purpose to know it, interpret it, resolve it, generate hypothesis, diagnose it and adentrarse in alternative procedures of solution, to see the application of the theoretical concepts to the reality.
Problem solving	Resolution of problems or exercises from the approach of compulsory readings and of a series of orientative questions posed by the professor through telematic means.
Previous studies	Autonomous work of the student by means of the preparation of readings and diverse activities.
Mentored work	The student develops and presents the results obtained on a process of interpretation and new ways of heritage management. The student/has to make it of autonomous form a part of the analysis and participate in a colaborative surrounding.

### Personalized assistance

Methodologies	Description
Seminars	All along of the course the profesorado will keep direct relation with the students with the object of turorice and resolve doubts.
Case studies	A atención personalizada realizarase fundamentalmente a través do foro da materia. De ser necesario utilizaranse tamén tutorías online, a sala virtual da plataforma e-meeting e o correo electrónico. The personalised attention will make fundamentally through the forum of the matter. To be necessary will use also tutoring on-line, the virtual room of the platform and-meeting and the email.

Tests	Description
Essay	The personalised attention will consist in the orientation on methodology, editorial and formal presentation of the works on the very cultural elected by the student. The attention will do by means of tutoring on-line, the forums of the platform Moodle, the virtual room of the platform and-meeting and the email.
Problem and/or exercise solving	All along the course the profesorado will keep direct relation with the students with the object of tutoring and resolve doubts, keeping interaction in real time by means of through the tutoring on-line, the forums of the platform Moodle, the virtual room of the platform and-meeting and the email.

### Assessment

	Description	Qualification	Training and Learning Results
Objective questions exam	Probas para a avaliación das competencias adquiridas que incluen preguntas pechadas con distintas alternativas de resposta. Dotar ao alumnado dos coñecementos teóricos e metodolóxicos necesarios para esbozar e dirixir proxectos de musealización e diseñar campañas de promoción e difusión do mesmo. Proofs for the evaluation of the competitions purchased, that cover enclosed questions with distinct alternatives of answer. Endow to the students of the necessary theoretical and methodological knowledges to design and direct projects of musealization and design campaigns of promotion and diffusion.	20	A1 B1 C8 D3 C14 D6

Essay	Works and projects oriented to qualify to the students for the dissemination of scientific knowledge and creation of messages with ends of social awareness about heritage	40	A1	B1	C8	D3	C14	D6
Problem and/or exercise solving	It will value the active participation in the distinct activities by telematic means to face discovered to qualify to the students for the the dissemination of scientific knowledge and creation of messages with ends of social awareness about heritage	40	A1	B1	C8	D3	C14	D6

### Other comments on the Evaluation

**Contents**

Topic
-------

1. INTRODUCTION: MUSEOLOGÍA And MUSEOGRAFÍA	Basic criteria of planning in the museum
2. COMMISSARIATE OF EXHIBITIONS AS A RESEARCH AND CREATION TOOL.	Curation of exhibitions as a research and creation tool
3. EXHIBITIONS MODELS.	The museums are permanent institutions that purchase, conserve, investigate communicate and exhibit collections of objects of diverse nature with the purposes of study, education and contemplation. The museum has changed until doing unrecognizable. The connection between art and life claimed by the historical avant-garde has occurred, but in shape of cultural industry and estetización commercial for the consumption.
4. THE CONTEMPORARY MUSEUM: ARCHITECTURE And SHOW.	Of the changes experienced by the contemporary museum from the inauguration of the Centre Geroges Pompidou, in the year 1977, will arise a hybrid space that does not lose of sight the show. This no only is present in the programming or in the complementary activities of infinity of institutions, but in his own architecture, which constitutes in a lot of cases his main catchword.

	Description	Qualification	Training and Learning Results
Case studies	The students manages and presents in the dates programmed the results of an individual work on different goods patrimoniales to choose between two modalities (To and B). The results of learning are: Qualify to the student for the application of the procedures and mechanisms for the assessment and protection of the Architectural Heritage in his territorial context and of the integration of the contemporary architecture in the historical centres.	40	A4 B1 C8 D6 C11 D9 C15
Problem and/or exercise solving	Execution of two test type Test (Questionnaire 1 and 2) with different alternative of answer, in which the students will select one from among the number limited of possibilities. The results of learning are: Qualify to the student to know the evolution of the applicable legislation to the different expressions of the Cultural Heritage.	30	B1 C8 D9 C15

Systematic observation	It will evaluate positively the participation of the students through the telematic means in the distinct virtual activities proposals in the development of the matter. The results of learnings are: Qualify to the students for the critical sensitisation and understanding of the values of the Heritage.	30	A4 B1 C8 D6 C11 D9 C15
------------------------	--	----	------------------------------

### Other comments on the Evaluation

According to the 2023 "Regulation on the evaluation, qualification and quality of teaching and the student learning process of the University of Vigo", there are two evaluation systems that students can choose: the preferred one, which will be applied by default, of "**continuous evaluation**" (diversified tests and activities that take place throughout the semester), and the so-called "**global evaluation**" (tests and/or delivery of work/exercises to be carried out on the official dates of evaluation established in the academic calendar), which must be expressly requested by the interested students, and communicated to the responsible teaching staff within a maximum period of 31 days from the beginning of each term.

The "**global evaluation**" tests for this subject will consist as follows: Case study (60%) and Problem solving and/or exercises (40%).

Students have two evaluation calls/opportunities. The first is carried out during the teaching semester. The second (or 2nd opportunity) will take place in the month of July, for which access to the teaching platform will be enabled again.

### Recommendations

#### Other comments

The teaching of the subject will be always of face-to-face telematic way, well was synchronous or asynchronous, using the eMoodle (MooVi) educational platform and participating in the educational activities through multiple videoconference (e-meeting, Remote Campus).

To be able to receive the teaching of effective way it si recommended , previously to the start of the subject, to consult the manual of access to the platform and to follow the technical specifications in order to assist to the remote sessions. It is indispensable that each student access to the educational platform of the subject previously to the beginning of the same.

### **Training and Learning Results**

Code	
A1	Possess and understand knowledge that provides a basis or opportunity to be original in the development and / or application of ideas, often in a research context.
A2	That students know how to apply the knowledge acquired and their ability to solve problems in new or unfamiliar environments within broader (or multidisciplinary) contexts related to their area of study.
A3	That students are able to integrate knowledge and face the complexity of making judgments based on information that, being incomplete or limited, includes reflections on social and ethical responsibilities linked to the application of their knowledge and judgments.
A4	That the students know how to communicate their conclusions -and the knowledge and ultimate reasons that sustain them- to specialized and non-specialized audiences in a clear and unambiguous way.
A5	That students have the learning skills that allow them to continue studying in a way that will be largely self-directed or autonomous.
B3	Acquire the ability to bring to the practical application of the protection of cultural property the theoretical knowledge and the protocols of documentation, diagnosis and evaluation.
C1	Be able to select the study tools and documentation necessary to know the cultural good, even establishing standardized work methodologies.
C2	Acquire the ability to design intervention protocols, establishing types, priorities and intensities of action before a cultural property at risk of alteration.
C3	Acquire the ability to draft intervention projects in the Cultural Heritage in accordance with specific regulatory legislation.
C4	Acquire the capacity to catalog the real cultural heritage, being able to establish mechanisms of legal and preventive protection.
C5	Master and be able to apply instruments and procedures of various cartographic techniques to the real cultural heritage for its dimensional control and the elaboration of graphic documentation using CAD tools.
C6	Analyze, refine and interpret geographic information, as well as its storage in databases, based on technical requirements for the inventory and documentation of an intervention project.
C7	Know the basics of the most used non-destructive techniques for the sub-surface prospecting of the cultural heritage and develop the ability to determine its applicability to specific cases.
C8	Understand the multifactorial values of Cultural Heritage, and assess it appropriately according to criteria of social use.
C9	Acquire the ability to diagnose, on the basis of scientific knowledge, the state of structural conservation of the Cultural Heritage.
C10	Understand the fundamentals of structural stability and the analysis procedures necessary to guarantee the structural safety of heritage constructions.
C11	Acquire the ability to handle documentary tools and historiographic techniques for the characterization of heritage assets.
C12	Develop the capacity for the application of territorial analysis methodologies of the Heritage according to valuation and protection objectives.
C13	Develop the capacity for making decisions about the function assigned to the Heritage, its value and public use, and for the elaboration of strategies aimed at its recovery.
C14	Acquire the capacity for dissemination and dissemination of scientific knowledge and the creation of messages for the purpose of social awareness about the Heritage.
C15	Know and apply the procedures and mechanisms for the valuation and protection of the architectural Heritage in its territorial and administrative context.

D1	Ability to understand the meaning and application of the gender perspective in the different fields of knowledge and professional practice with the aim of achieving a more just and egalitarian society.
D2	Ability to communicate orally and in writing in the Galician language.
D3	Sustainability and environmental commitment. Equitable, responsible and efficient use of resources.
D4	To be able to integrate the diverse information and data contributed by diverse technicians and tools in the writing of conclusions of action.
D5	Be able to predict and control the evolution of complex situations through the development of new and innovative work methodologies adapted to the specific scientific / research, technological or professional field, in general multidisciplinary, in which their activity is developed.
D6	Know how to transmit in a clear and unambiguous way to a specialized audience or not, results from scientific and technological research or the most advanced field of innovation, as well as the most relevant foundations on which they are based
D7	Conceive the protection of cultural heritage within a framework of sustainable development.
D8	Acquire advanced knowledge and demonstrate, in a context of scientific and technological research or highly specialized, a detailed and substantiated understanding of the theoretical and practical aspects and the methodology of work in one or more fields of study.
D9	Know and manage the legislation applicable to the sector, know the social and business environment and know how to relate to the competent administration by integrating this knowledge into the development of engineering projects and the development of any aspect of their professional work.

	Description
Seminars	You interview that the student is supported by the profesorado of the subject for advice/develop of activities of the subject and of the process of learning
Case studies	Analysis of a fact, problem or real event with the purpose to know it, interpret it, resolve it, generate hypothesis, contrast data, reflexionar, complete knowledges, diagnose it and train in alternative procedures of solution.
Mentored work	The/The student, of individual way or in group, elaborates a document on the thematic of the matter or prepares seminars, investigations, memories, essays, summaries of readings, conferences, etc.
Problem solving	Activity in which they formulate problems and/or exercises related with the subject. The student/to has to develop the analysis and resolution of the problems and/or exercises of autonomous form.
Introductory activities	Activities directed to take contact and gather information on the students, as well as to present the subject.

**Personalized assistance****Methodologies Description**

Seminars	Along the course the profesorado will keep direct relation with the students with the object of tutorizar and resolve doubts.
Case studies	The personalised attention will make fundamentally through the forum of the matter. To be necessary will use also tutorías on-line, the virtual room of the platform and-meeting and the email.
Mentored work	The personalised attention will consist in the orientation on methodology, editorial and formal presentation of the works on the very cultural elected by the student. The attention will do by means of turorías on-line, the forums of the platform Moodle, the virtual room of the platform and-meeting and the email.
Problem solving	Throughout the course, the teaching staff will maintain a direct relationship with the students in order to tutoring and solving doubts, maintaining interaction in real time through the online tutorials, the forums of the Moodle platform, the virtual room of the e-meeting platform and the email.

**Assessment**

	Description	Qualification	Training and Learning Results
Problem and/or exercise solving	Proofs for evaluation of the competitions purchased that include enclosed questions with different alternative of answer (true/false), multiple election, pairing of elements...). The students selects an answer between a number limited of possibilities.	20	B1 C8
Essay	Presentation by writing and oralmente of an individual work that presents the result obtained in the preparation of a document on the thematic of the matter, in the preparation of seminars, investigations, memories, essays, summaries of readings, conferences, etc.	40	A4 C13 D3 C14
Systematic observation	Active participation in the different activities will be valued by telematic means in order to train students for heritage education tasks.	40	D2

---

## Other comments on the Evaluation

---

According to the 2023 "Regulation on the evaluation, qualification and quality of teaching and the student learning process of the University of Vigo", there are two evaluation systems that students can choose: the preferred one, which will be applied by default, of "**continuous evaluation**" (diversified tests and activities that take place throughout the semester), and the so-called "**global evaluation**" (tests and/or delivery of work/exercises to be carried out on the official dates of evaluation established in the academic calendar), which must be expressly requested by the interested students, and communicated to the responsible teaching staff within a maximum period of 31 days from the beginning of each term.

The "**global evaluation**" tests for this subject will consist as follows: objective questions test (40%); delivery of a mandatory essay (40%); problem and/or exercise solving (20%)

Students have two evaluation calls/opportunities. The first is carried out during the teaching semester. The second (or 2nd opportunity) will take place in the month of July, for which access to the teaching platform will be enabled again.

If student approves in the first announcement, there will be no possible to improve note in the second.

General description	In the actuality assist to an increase of the demand of cultural tourism, in parallel to the increase of the valorisation and production of the goods of the Cultural Heritage. This matter pursues to endow to the students of methodologies that make possible to pipe the potential of the existent cultural resources in the tourist destinations like tourist offer-cultural.			

**Training and Learning Results**

Code	
A3	That students are able to integrate knowledge and face the complexity of making judgments based on information that, being incomplete or limited, includes reflections on social and ethical responsibilities linked to the application of their knowledge and judgments.
B1	Acquire the ability to differentiate and assess the various expressions of Cultural Heritage, know the tools for their quantification and protection, as well as the different perspectives that address their management.
C8	Understand the multifactorial values of Cultural Heritage, and assess it appropriately according to criteria of social use.
C13	Develop the capacity for making decisions about the function assigned to the Heritage, its value and public use, and for the elaboration of strategies aimed at its recovery.
D7	Conceive the protection of cultural heritage within a framework of sustainable development.
D9	Know and manage the legislation applicable to the sector, know the social and business environment and know how to relate to the competent administration by integrating this knowledge into the development of engineering projects and the development of any aspect of their professional work.

**Expected results from this subject**

Expected results from this subject	Training and Learning Results
Apply territorial strategies, related to the character of the resources, and commercial strategies, contemplating the policies of product, price, distribution and promotion of cultural heritage assets	A3 B1 C8 C13 D7 D9
Design, create and develop tourism plans and products based on cultural heritage and according to market needs	A3 B1 C8 C13 D7 D9
Define a comprehensive communication plan that contributes to value the resources and cultural tourism packages	A3 B1 C8 C13 D7 D9

Formulate guidelines and methodological guidelines for communication with the public, for the in situ presentation of heritage to that public, and to convey a powerful message that, if possible, transcends the fact of the visit	A3 B1 C8 C13 D7 D9
---	-----------------------------------

## Contents

Topic	
1. The insertion of the Cultural Heritage in the tourism	1.1 Basic Concepts 1.2 Cultural Heritage and tourist activity
2. Phases of the process of planning and management of the cultural tourism	2.1 Offer, product and cultural consumption 2.2 The interpretation of the heritage like tool for the management and the tourist planning
3. Studies of case	3.1 Rehabilitations and cultural products 3.2 Routes and cultural itineraries

## Planning

	Class hours	Hours outside the classroom	Total hours
Introductory activities	1	1	2
Case studies	1	15	16
Seminars	4	22	26
Essay	0	20	20
Systematic observation	0	6	6
Debate	0	5	5

\*The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

## Methodologies

	Description
Introductory activities	Activities directed to take contact and gather information on the students, as well as to present the matter.
Case studies	Analysis of a fact, problem or real event with the purpose to know it, interpret it, resolve it, generate hypothesis, contrast data, reflexionar, complete knowledges, diagnose it and train in alternative procedures of solution.
Seminars	Explanation, advice and development of contents for the orientation of the process of learning, by means of the sessions in virtual classroom.

## Personalized assistance

Methodologies	Description
Introductory activities	Guidance on the level of learning required, the nature of the available materials and the dynamics of development of the subject in the teledocencia platform.
Seminars	Specific orientations, resolution of doubts and problems about the sequences of theoretical-practical contents in the teledocencia platform.

## Assessment

	Description	Qualification	Training and Learning Results
Essay	Creation, analysis and/or documentation of a proposal/project current or past related with the contents of the matter, that will be delivered telematic road. Evaluation of results of learning: Design, create and develop plans and tourist products from the cultural heritage and in function of the needs of the market; Define a plan of integral communication that contribute to put in value the resources and cultural tourist packages created.	40	A3 B1 C8 D7 C13 D9

Systematic observation	Control and systematic observation of the progress of the students in relation with the matter by means of the efficient use and the intervention in the virtual surroundings. It includes active participation in virtual sessions, forum and activities proposed by the educational. Evaluation of results of learning: Apply territorial strategies, related with the character of the resources, and commercial strategies, contemplating the politics of product, price, distribution and promotion of goods of the cultural heritage; Formulate guidelines and methodological guidelines for the communication with the public, for the presentation of the heritage in situ to this public, and to transmit a message that, in the possible, trascend to the mere fact of the visit.	30	A3 B1 C8 D7 C13 D9
Debate	Open talk in forum between a group of students. It can centre in a subject of the contents of the matter, in the analysis of a case, in the result of a project, exercise or problem developed previously in a session ... Evaluation of results of learning: Apply territorial strategies, related with the character of the resources, and commercial strategies, contemplating the politics of product, price, distribution and promotion of heritage. Formulate guidelines and methodological guidelines for the communication to the public, for the presentation of the heritage in situ and to transmit a message that inside the mere fact of the visit.	30	A3 B1 C8 D7 C13 D9

### Other comments on the Evaluation

According to the 2023 "*Regulation on the evaluation, qualification and quality of teaching and the student learning process of the University of Vigo*", there are two evaluation systems that students can choose: the preferred one, which will be applied by default, of "**continuous evaluation**" (diversified tests and activities that take place throughout the semester), and the so-called "**global evaluation**" (tests and/or delivery of work/exercises to be carried out on the official dates of evaluation established in the academic calendar), which must be expressly requested by the interested students, and communicated to the responsible teaching staff within a maximum period of 31 days from the beginning of each term.

The "**global evaluation**" tests for this subject will consist as follows: Essay (40%) + delivery of exercises (specific forum, video-comments on virtual classroom) (60%)

Students have two evaluation calls/opportunities. The first is carried out during the teaching semester. The second (or 2nd opportunity) will take place in the month of July, for which access to the teaching platform will be enabled again.

For all the students will specify in \*MooVi the methodology, the activities, assessment, together with the calendar of delivery. The use of the materials offer to students in \*MooVi have to respect the rights of author.

### Recommendations

#### Other comments

The teaching of the subject will be always of face-to-face telematic way, well was synchronous or asynchronous, using the eMoodle (MooVi) educational platform and participating in the educational activities through multiple videoconference (e-meeting, Remote Campus).

To be able to receive the teaching of effective way it is recommended, previously to the start of the subject, to consult the manual of access to the platform and to follow the technical specifications in order to assist to the remote sessions. It is indispensable that each student access to the educational platform of the subject previously to the beginning of the same.

General description	This subject aims to train the student to understand the requirements in terms of structural safety of a building, taking into account the particularities of its heritage. Likewise, it will allow the student to conduct the tasks of documentation of the property through the technologies of geometric documentation and the materials addressed in module II of the master's degree, which serve as the basis for the diagnosis of the level of structural health of a heritage construction.			

**Training and Learning Results**

Code	
A2	That students know how to apply the knowledge acquired and their ability to solve problems in new or unfamiliar environments within broader (or multidisciplinary) contexts related to their area of study.
B2	Acquire the necessary knowledge to handle the different tools of graphic, dimensional and geospatial documentation to be applied in the documentation and valuation of Cultural Heritage.
B3	Acquire the ability to bring to the practical application of the protection of cultural property the theoretical knowledge and the protocols of documentation, diagnosis and evaluation.
C2	Acquire the ability to design intervention protocols, establishing types, priorities and intensities of action before a cultural property at risk of alteration.
C9	Acquire the ability to diagnose, on the basis of scientific knowledge, the state of structural conservation of the Cultural Heritage.
C10	Understand the fundamentals of structural stability and the analysis procedures necessary to guarantee the structural safety of heritage constructions.
D5	Be able to predict and control the evolution of complex situations through the development of new and innovative work methodologies adapted to the specific scientific / research, technological or professional field, in general multidisciplinary, in which their activity is developed.
D8	Acquire advanced knowledge and demonstrate, in a context of scientific and technological research or highly specialized, a detailed and substantiated understanding of the theoretical and practical aspects and the methodology of work in one or more fields of study.

**Expected results from this subject**

Expected results from this subject	Training and Learning Results
Acquisition of knowledge regarding structural security, analysis methods and regulations applicable to heritage buildings	A2 B2 B3 C2 C9 C10 D5 D8

Know the tools that allow a diagnosis of the structural condition of heritage buildings
