

(*)Facultade de Historia

(*)Información básica

(*)

O grao en Xeografía e Historia proporciona ao alumnado unha serie de competencias que integran a aprendizaxe de coñecementos, a adquisición de habilidades e destrezas e a formación en actitudes e valores. Na liña doutras titulacións recoñecidas nas universidades europeas, ademais de englobar contidos das disciplinas de Xeografía, Historia e Historia da arte, a oferta da nosa Facultade dota ao alumnado dunha serie ampla de competencias xerais e específicas.

Grao Xeografía e Historia (Plano 2014/15)

Destaca o **carácter humanístico** das disciplinas cunha longa e consolidada traxectoria académica e universitaria, e a súa capacidade para coñecer a orixe e a evolución de moitas das realidades culturais do noso tempo. En conxunto ofertamos unha formación básica en contidos interdisciplinares relativos ao coñecemento da estrutura diacrónica do pasado, das coordenadas espazo-temporais, interrelacionadas coas xeográficas e artísticas.

A formación inclúe ámbitos temáticos e territoriais específicos e contidos instrumentais, a través das **prácticas** que os nosos estudantes realizan en diversas institucións e empresas. O coñecemento do noso pasado permite achegarse as ferramentas analíticas e conceptuais que a súa vez incitan á reflexión, á crítica e ao respecto pola diversidade e a alteridade; en definitiva o coñecemento doutras realidades, moi variadas fomenta os valores humanos e achega principios éticos tan necesarios na sociedade actual.

O carácter multidisciplinar e polivalente dos estudos (Historia, Arte e Xeografía) capacita para un **amplo abanico de saídas profesionais** aos seus egresados, que resultan tan competitivos como os especializados nunha soa das disciplinas humanísticas, tendo en conta da cada vez maior flexibilidade do actual mercado laboral entre titulacións e postos de traballo. Os servizos educativos, os servizos da administración, os medios de comunicación, os centros de educación superior e secundaria, e un longo espectro de institucións e empresas, proporcionan un marco para o desempeño de actividades relacionadas co perfil formativo do grao, preparando para unha gran variedade de actividades.

Ademais, a riqueza histórica, artística, arqueolóxica e natural proporciona unha estreita relación entre os estudos universitarios e o mercado laboral, abrindo unha nova vía de profesionalización ante a crecente consideración do legado cultural herdado como recurso dotado de valor económico ou produtivo. A demanda e saídas profesionais no terreo da conservación, protección, xestión e difusión do patrimonio e o resto de actividades relacionadas co turismo cultural abren un amplo horizonte á saída profesional dos futuros graduados, que poden nesa liña especializarse no máster que ofertamos.

Co obxectivo de dar resposta á demanda social de diferentes profesionais, e aos futuros graduados/as posibilitase unha continuación académica coherente con dous Másteres: Valoración, Xestión e Protección do Patrimonio.

Unha situación similar presenta o **Máster de Arqueoloxía e Ciencias da Antigüedad** orientado á especialización en arqueoloxía.

(*)Presentación

(*)

A Facultade de Historia da Universidade de Vigo, sita no Campus Universitario de Ourense, oferta tres titulacións adaptadas ao Espazo Europeo de Educación Superior (EEES): un Grao e dous Posgraos.

Xunto á habitual **modalidade presencial**, poderase optar pola modalidade semipresencial, sempre que se xustifique a imposibilidade de asistir con regularidade ás aulas; os motivos deben estar en relación con obrigas de carácter laboral, familiar, atención a persoas dependentes, actividades deportivas de alto nivel, necesidades educativas especiais. O proceso para acollerse a esta modalidade terá lugar unha vez formalizada a matrícula; estudante debe cubrir un impreso coa solicitude e entregar a documentación xustificativa.

Os docentes poñerán a disposición destes estudantes o material preciso a través da plataforma de teledocencia e os medios para superar as materias do grao, en igualdade de condicións que os presenciais.

A oferta de **Posgrao** contempla dúas titulacións:

- **Mestrado semipresencial en Valoración, Xestión e Protección do Patrimonio**, en colaboración coa Escola Superior de Enxeñería de Minas do campus de Vigo.
- **Mestrado Interuniversitario de Arqueoloxía e Ciencias da Antigüidade (USC y U Vigo) coa participación do Instituto de Ciencias do Patrimonio (Incipit) do CSIC**. O seu programa ten unha dobre orientación: profesionalizante e investigadora. Na súa primeira vertente, aspira a formar arqueólogos que poidan desenvolver a súa labr profesional neste campo nos próximos anos; na segunda, dá paso ao programa de doutoramento da USC

Delegación de alumnado

Funcións:

É o órgano de representación estudiantil institucional que se ten artellado na Facultade de Historia.

Todos os alumnos/as poden acudir á sede da Delegación para obter información e facer uso dos seus recursos. Para cubrir as súas necesidades a Delegación ten un orzamento proporcional ao número de alumnos/as que representa. Segundo o Regulamento de Estudiantes no artigo 27, entre os fins da Delegación de alumnos está:

- Actuar como órganos de diálogo coas autoridades académicas no establecemento dunha información adecuada sobre a vida universitaria.
- Xestionar os seus recursos.
- Promover e coordinar actividades de extensión universitaria.
- Elixir os seus representantes perante calquera autoridade, institución ou organización, naqueles casos para os que non exista regulamento de elección.

BIBLIOTECA DO CAMPUS DE OURENSE

Presente fisicamente nos trescampus, a Biblioteca Universitaria conta en cada un deles cunha biblioteca central e varias salas repartidas polas escolas e facultades que compoñen a Universidade.

A Biblioteca Central do Campus de Ourense, fundada no ano 2000, conta cun fondo de uns 100.000 libros e unhas 750 publicacións periódicas divididas en diferentes temas como son xeografía, historia, arte, dereito e química.

Servizos que ofrece:

☐ Préstamo interbibliotecario a nivel nacional e internacional.

☐ Préstamo para alumnos, PDI e PAS.

☐ Información bibliográfica, búsquedas e referencias bibliográficas.

☐ Catálogo automatizado colectivo de publicacións periódicas (a nivel nacional).

Contacto:

Campus As Lagoas - 32004- Ourense

Horario de atención ao público: De luns a venres de 8:30h a 21:00h

Acceso ao Catálogo da Biblioteca

CONTA DE CORREO ELECTRÓNICO DA UNIVERSIDADE DE VIGO

☐ Basta con estar matriculado na Universidade e dispor do cartón universitario.

☐ No momento de formalizar a matrícula créase unha conta de correo cun nome de usuario e coa extensión alumnos.uvigo.es

☐ Con ese nome de usuario e esa clave tamén poderás acceder á rede WIFI. Todas as instalacións da Universidade de Vigo teñen acceso a internet por rede WIFI

☐ <http://www.uvigo.es>

CARNET UNIVERSITARIO

O Carné Universitario é unha tarxeta intelixente realizada en colaboración co Santander, que acredita o estudante, profesorado e personal de administración e servizos como membros da comunidade universitaria.

Ademais de todas as funcións asociadas ás tarxetas intelixentes, o carné poderá dispoñer de servizos financeiros 4B Maestro, se se solicitan voluntariamente

☐ Para qué podes utilizalo?

☐ Acreditación universitaria

☐ Acceso a recintos e ordenadores das aulas de informática e persoais*

☐ Préstamo de libros en bibliotecas

☐ Consultas en Puntos de Información e, opcionalmente, en caixeiros 4B*

☐ Tarxeta deportiva

☐ Moedeiro electrónico

☐ Descostos en comercios

☐ Tarxeta 4B Maestro (opcional)

☐ Firma Electrónica

☐ Solicítalo en calquera momento nas Oficinas Universitarias Santander do campus, levando unha fotografía recente. Recíbralo no teu domicilio particular. Para que inclúa o servizo 4B Maestro só necesitas ser titular dunha conta bancaria no Santander. Esta conta non ten nin gastos de administración nin de mantemento.

☐ O Carné Universitario non hai que renovalo cada ano. Para activar a función financeira diríxete á Oficina Universitaria.

SEGURO ESCOLAR

☐ Os alumnos da Universidade de Vigo, sexa cal for a súa nacionalidade ou estudos que cursen, quedan cubertos por un seguro escolar. Do mesmo xeito que se regula para os niveis educativos previos, a Lei establece a cobertura obrigatoria.

☐ Ademais, a Universidade de Vigo subscribiu un seguro adicional, seguro cum laude, para todos os seus alumnos, incluídos aqueles que non quedan cubertos polo seguro obrigatorio. Ambos os seguros páganse no momento de formalizar a matrícula, polo que non teñen custo adicional algún.

☐ Con carácter complementario aos dous anteriores, a Universidade de Vigo dispón dun seguro voluntario, seguro cum laude plus, con maiores coberturas que aqueles e a un custo moi reducido (ao redor de 10 euros por curso).

| General description | It is a subject of an introductory and generalist nature, which aims to understand and value the importance of Cultural Heritage in contemporary society. | | | |

Training and Learning Results

| | |
|------|---|
| Code | |
| A5 | That students have the learning skills that allow them to continue studying in a way that will be largely self-directed or autonomous. |
| B1 | Acquire the ability to differentiate and assess the various expressions of Cultural Heritage, know the tools for their quantification and protection, as well as the different perspectives that address their management. |
| C8 | Understand the multifactorial values of Cultural Heritage, and assess it appropriately according to criteria of social use. |
| D4 | To be able to integrate the diverse information and data contributed by diverse technicians and tools in the writing of conclusions of action. |
| D6 | Know how to transmit in a clear and unambiguous way to a specialized audience or not, results from scientific and technological research or the most advanced field of innovation, as well as the most relevant foundations on which they are based |

Expected results from this subject

| Expected results from this subject | Training and Learning Results | | | |
|--|-------------------------------|----|----|----------|
| Know the concept of Cultural Heritage, his evolution and his distinct categories | A5 | B1 | C8 | D4 D6 |

Contents

| | |
|---|---|
| Topic | |
| The concept of Cultural Heritage | Origins and evolution from the 19th century (National Heritage). Essential shots in the actuality. General categories in which it classifies (Natural/Cultural; Immaterial/Material; Mobile/Not mobile). |
| The Natural Heritage | Definition and own and singular characteristics. Origins and evolution of the concept until the actuality. General strategies of conservation and intervention. The obvious interaction with the action *antrópica: Landscapes, Territories. Emergent heritages related: geological and miner, paleontological, etc. |
| The Cultural Heritage | General classification according to the rules and conventions: Historical/Artistic, Archaeologic, Ethnographic, Bibliographic and Documentary. Characteristics and own peculiarities of each category. General strategies of conservation and intervention. Emergent heritages related (scientific/technician, industrial, etc.). |
| The specific case of the Immaterial Cultural Heritage | Definition, characteristic and evolution of the concept until the actuality. Relations and interactions with the material heritages. |

| | |
|---------------------|--|
| Heritage Categories | The changing and diffuse borders between the diverse heritage types and categories. Juridical definitions and epistemological concepts. Heritages consolidated and emergent heritages. The integral heritages. |
|---------------------|--|

Planning

| | Class hours | Hours outside the classroom | Total hours |
|----------------------------|-------------|-----------------------------|-------------|
| Introductory activities | 1 | 0 | 1 |
| Seminars | 5 | 0 | 5 |
| Case studies | 0 | 24 | 24 |
| Autonomous problem solving | 0 | 30 | 30 |

| Essay | 0 | 9 | 9 |
| Systematic observation | 0 | 5 | 5 |

*The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

Methodologies

| | Description |
|----------------------------|---|
| Introductory activities | Session oriented to take contact and gather information on the students and his motivations. Presentation of the matter and of the surroundings in which it will develop the module, employing tools of *teleformación and telecommunication. |
| Seminars | Activity focused on the work on a specific topic, which allows to deepen or complement the contents of the subject. They can be used as a complement to the theoretical classes. |
| Case studies | Analysis of cases or situations in relation with the concept and categories of the Cultural Heritage. Process based in the platform of *teleformación. |
| Autonomous problem solving | Activities linked to the development of the reflection, debate, critical and open generation of alternatives moving the knowledges and the skills of the students by means of the different technological tools of teaching. |

Personalized assistance

Methodologies Description

| | |
|----------|---|
| Seminars | Educational interaction with students the purpose of basic exhibition of contents, orientation, advice and resolution of doubts in the process of the learning, with the support of the means of remote teaching. |
|----------|---|

Tests Description

| | |
|-------|--|
| Essay | Resolution of doubts and personalised attention of the practical exercises realised by the students (glossary, specific forums). Resources used: platform Moodle of remote teaching and Campus Remoto videoconference. |
|-------|--|

Assessment

| | Description | Qualification | Training and Learning Results | | | |
|--------------------------|--|---------------|-------------------------------|----|----|----------|
| Objective questions exam | It tests type test, realised through the virtual platform. The result of learning evaluated is: Know the concept of cultural heritage, his evolution and his distinct categories. | 40 | A5 | B1 | C8 | D4 D6 |
| Essay | The students carry out a task that consists of short texts and/or critical comments in response to the practical exercises (glossary, specific forums) proposed by the teaching staff The result of learning evaluated is: Know the concept of cultural heritage, his evolution and his distinct categories | 40 | A5 | B1 | C8 | D4 D6 |
| Systematic observation | Communication and active participation in the activities of the matter through telematic means. The result of learning evaluated is: Know the concept of cultural heritage, his evolution and his distinct categories | 20 | A5 | B1 | C8 | D4 D6 |

Other comments on the Evaluation

According to the 2023 "Regulation on the evaluation, qualification and quality of teaching and the student learning process of the University of Vigo", there are two evaluation systems that students can choose: the preferred one, which will be applied by default, of "continuous evaluation" (diversified tests and activities that take place throughout the semester), and the so-called "global evaluation" (examinations and/or delivery of work/exercises to be carried out on the official dates of evaluation established in the academic calendar), which must be expressly requested by the interested students, and communicated to the responsible teaching staff within a maximum period of 31 days from the beginning of each term.

The "global evaluation" tests for this subject will consist as follows: quiz-type exam (50%) + delivery of exercises (glossary, specific forums) (50%).

Students have two evaluation calls/opportunities. The first is carried out during the teaching semester. The second (or 2nd opportunity) will take place in the month of July, for which access to the teaching platform will be enabled again.

Recommendations

Other comments

The teaching of the subject will be always of face-to-face telematic way, well was synchronous or asynchronous, using the eMoodle (MooVi) educational platform and participating in the educational activities through multiple videoconference (Remote Campus).

To be able to receive the teaching of effective way it si recommended , previously to the start of the subject, to consult the manual of access to the platform and to follow the technical specifications in order to assist to the remote sessions. It is indispensable that each student access to the educational platform of the subject previously to the beginning of the same.

Methodologies

| | Description |
|----------------------------|---|
| Seminars | Educational interaction with students with the purpose of basic exhibition of contents, orientation, advice and resolution of doubts in the process of the learning, with the support of the means of remote teaching. |
| Autonomous problem solving | Activities linked to the development of the reflection, debate, critical and open generation of alternatives moving the knowledges and the skills of the students by means of the different technological tools of teaching. |
| Case studies | Analysis of cases or situations in relation with the concept and categories of the Cultural Heritage. Process included in the platform of remote teaching.. |
| Introductory activities | Session oriented to take contact and gather information on the students and his motivations. Presentation of the matter and of the surroundings in which it will develop the module, employing tools of remote teaching and tele-communication. |

Personalized assistance

| Methodologies | Description |
|----------------------------|--|
| Autonomous problem solving | Resolution of doubts and personalised attention of the practical exercises realised by the students (glossary, specific forums). Resources used: platform Moodle of remote teaching and Campus Remoto videoconference. |
| Case studies | Information and personalised consultancy of the autonomous practices realised by the *alumnado through the TIC. Resources used: platform Moodle of remote teaching and Campus Remoto videoconference. |

Assessment

| | Description | Qualification | Training and Learning Results |
|--------------------------|--|---------------|-------------------------------|
| Essay | The student realises and presents a Report of Heritage Assessment (IVP) on one very cultural of his election (transversal of the module), using tools of remote delivery in the virtual platform. The result of learning evaluated is: Know the methodological tools for the realisation of a process of estimate of the value of a very cultural any one, from criteria standardised. | 40 | B1 |
| Objective questions exam | It tests type test, realised through the virtual platform. The result of learning evaluated is: Know the methodological tools for the realisation of a process of estimate of the value of a very cultural any one, from criteria standardised. | 30 | B1 C8 D4 |
| Systematic observation | Communication and active participation in the activities of the matter throughout the telematic means. Evaluation of the result of the learning "Know the methodological tools for the realisation of a process of estimate of the value of a very cultural any one, from criteria standardised". | 20 | B1 |
| Presentation | Presentation and defense in the classroom of the Report of Heritage Assessment (IVP) prepared by the student. The result of learning evaluated is: Know the methodological tools for the realisation of a process of estimate of the value of a very cultural any one, from criteria standardised. | 10 | |

Other comments on the Evaluation

According to the 2023 "Regulation on the evaluation, qualification and quality of teaching and the student learning process of the University of Vigo", there are two evaluation systems that students can choose: the preferred one, which will be applied by default, of **"continuous evaluation"** (diversified tests and activities that take place throughout the semester),

and the so-called "**global evaluation**" (tests and/or delivery of work/exercises to be carried out on the official dates of evaluation established in the academic calendar), which must be expressly requested by the interested students, and communicated to the responsible teaching staff within a maximum period of 31 days from the beginning of each term.

The "**global evaluation**" tests for this subject will consist of the following: quiz test (40%) + delivery of a "Heritage Evaluation Inform" (60%).

Students have two evaluation calls/opportunities. The first is carried out during the teaching semester. The second (or 2nd opportunity) will take place in the month of July, for which access to the teaching platform will be enabled again.

Other comments

The teaching of the subject will be always of face-to-face telematic way, well was synchronous or asynchronous, using the eMoodle (MooVi) educational platform and participating in the educational activities through multiple videoconference (Remote Campus).

To be able to receive the teaching of effective way it si recommended , previously to the start of the subject, to consult the manual of access to the platform and to follow the technical specifications in order to assist to the remote sessions. It is indispensable that each student access to the educational platform of the subject previously to the beginning of the same.

| Methodologies | Description |
| Introductory activities | The teacher will answer all questions regarding the contents of the discipline by the students (virtually through Moovi, previously arranged virtual tutoring, telephone or by email). |
| Seminars | The teacher will answer all questions regarding the contents of the discipline by the students (virtually through Moovi, previously arranged virtual tutoring, telephone or by email). |
| Case studies | The teacher will answer all questions regarding the contents of the discipline by the students (virtually through Moovi, previously arranged virtual tutoring, telephone or by email). |
| Problem solving | The teacher will answer all questions regarding the contents of the discipline by the students (virtually through Moovi, previously arranged virtual tutoring, telephone or by email). |

| Assessment | | | |
|-------------------------|--|---------------|-------------------------------|
| | Description | Qualification | Training and Learning Results |
| Introductory activities | Participation in theoretical classes and forums of the discipline | 10 | A4 B1 C3 D1 C4 D9 |
| Seminars | Online assessment tests (test type tests) will be carried out, on the contents of the subject (topics 1 and 2) - on the explanations of the teacher's seminars - on the date indicated and whose information will be from the beginning of the course available on the MooVi platform. The learning outcome evaluated is: Understand the key concepts around cultural heritage, at the legal level, for their academic training and professional development through a coherent and orderly synthesis of the abundant and dispersed legal corpus in this area. | 40 | B1 C3 D1 C4 D9 |

| | | | | |
|-----------------|---|----|----------|----|
| Case studies | The work and projects proposed by the teacher will be carried out, using remote delivery tools on the indicated date and whose information will be from the beginning of the course available on the MooVi platform. The result of learning evaluated is: To train the student to develop projects and work in the heritage field with sufficient legal knowledge, through eminently practical declasses. | 25 | C3 C4 | |
| Problem solving | The work and projects proposed by the teacher will be carried out, using remote delivery tools on the indicated date and whose information will be from the beginning of the course available on the mooVi platform. The learning result evaluated is: the critical analysis of aspects related to Cultural Heritage | 25 | B1 | D1 |

Other comments on the Evaluation

There are two evaluation systems that students can choose from: the preferential one, which will be applied by default, of "continuous assessment" (diversified tests and activities that take place throughout the semester), and the so-called "global assessment" (exams and/or delivery of work/exercises to be carried out on the official assessment dates established in the academic calendar). which must be expressly requested by the students concerned, and communicated to the responsible teaching staff within a maximum period of 31 days from the beginning of each semester.

The "global assessment" tests of this subject will consist of the following: the same as the continuous assessment.

Students have two calls/evaluation opportunities. The first is carried out during the semester of teaching. The second (or 2nd opportunity) will be held in July, for which access to the teaching platform will be enabled again.

For the successful completion of the subject, it is advisable to follow the schedule that will be accessible at the beginning of the Master's Degree (MooVi), which will facilitate the proper performance of the activities planned by the teacher. No activity or work submitted after the deadline will be evaluated. It is advisable to ask any questions to the teacher of the subject in order to correct them as soon as possible and not wait for the deadline of the deadline.

The evaluation of the ordinary call and the second call will be carried out in the same way, with the same requirements.

This subject is English Friendly and Portuguese friendly, or implies the following commitment: The subject is taught in Spanish and Galician but the teaching staff translates the Teaching Guide into English and Portuguese; Materials and bibliographic references for the follow-up of the subject will be provided in English and Portuguese, reports will be attended in English and Portuguese, if requested by the international student, and tests and evaluations will be designed and implemented in English (everything is done according to the request of the international student).

*The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

| Methodologies | |
|-------------------------|---|
| | Description |
| Introductory activities | Session oriented to take contact and gather information on the students and his motivations. Presentation of the matter and of the surroundings in which it will develop the module, employing virtual tools and telecommunication. |
| Seminars | Educational interaction/students with the purpose of orientation, advice and resolution of doubts in the process of the learning, with the support of the virtual platform. |
| Case studies | Analysis of a fact, phenomenon, real event in the field of the management of the cultural heritage entering to the one proposal of project of interpretation, keeping the lines of an initial protocol of work that accredit the theoretical progress-practical of the students in the matter. Process based on the virtual platform. |

Personalized assistance

| Methodologies | Description |
|-------------------------|---|
| Introductory activities | The personalised attention will consist in the orientation of the level of learning required, the introduction of the materials, the resolution of doubts and the explanation of the dynamics of the development of the matter in the virtual platform. |
| Case studies | Resolution of doubts and personalised attention of the works realised by the students. Resources used: virtual platform (FaiTic/Moodle) and e-meeting. |

Assessment

| | Description | Qualification | Training and Learning Results | | | |
|------------------------|---|---------------|-------------------------------|----|----|-------|
| Systematic observation | Control and continuous follow-up of the progress of the students in the matter, based in criteria of efficient use of the Tics and of intervention in the virtual surroundings. Communication and active participation in the activities of the matter through telematic means. Result of learning evaluated: know the diverse models of heritage management. | 30 | A1 | B1 | C8 | D3 D7 |
| Debate | Communication and active participation in the forum of debate between the group of students, centred in the contents of the matter. Result of learning evaluated: know the diverse models of heritage management | 30 | A1 | B1 | C8 | D3 D7 |
| Essay | The students makes and presents a project of interpretation of the cultural heritage in the context of his management (analysis and comment, individual or groups) using tools of remote delivery in the date indicated. Result of learning evaluated: Application of the knowledge of the diverse models of heritage management in the design of similar diagrams in the intervention on new patrimonial assets. | 40 | A1 | B1 | C8 | D3 D7 |

Other comments on the Evaluation

According to the 2023 "Regulation on the evaluation, qualification and quality of teaching and the student learning process of the University of Vigo", there are two evaluation systems that students can choose: the preferred one, which will be applied by default, of **"continuous evaluation"** (diversified tests and activities that take place throughout the semester), and the so-called **"global evaluation"** (tests and/or delivery of work/exercises to be carried out on the official dates of evaluation established in the academic calendar), which must be expressly requested by the interested students, and communicated to the responsible teaching staff within a maximum period of 31 days from the beginning of each term.

The **"global evaluation"** tests for this subject will consist as follows: Essay (40%) + delivery of exercises (specific forum, comments on virtual classroom) (60%)

Students have two evaluation calls/opportunities. The first is carried out during the teaching semester. The second (or 2nd opportunity) will take place in the month of July, for which access to the teaching platform will be enabled again.

For all the students will specify in MooVi the methodology, the activities, assessment, together with the calendar of delivery. The use of the materials offer to students in MooVi have to respect the rights of author.

Other comments

The teaching of the subject will be always of face-to-face telematic way, well was synchronous or asynchronous, using the eMoodle (MooVi) educational platform and participating in the educational activities through multiple videoconference (e-meeting, Remote Campus).

To be able to receive the teaching of effective way it si recommended , previously to the start of the subject, to consult the manual of access to the platform and to follow the technical specifications in order to assist to the remote sessions. It is indispensable that each student access to the educational platform of the subject previously to the beginning of the same.

| General description | This course aims to train students to manage large amounts of documentary data in various formats, so that they cooperate in the common task of managing cultural heritage. Its basic role is to provide students with the theoretical and methodological knowledge necessary for the design of databases as well as for the management and writing of metadata. English Friendly subject: International students may request from the teachers: a) resources and bibliographic references in English, b) tutoring sessions in English, c) exams and assessments in English. | | | |

CAD Techniques to Present Heritage/O02M143V03107

Other comments

The teaching of the subject will be always of face-to-face telematic way, well was synchronous or asynchronous, using the eMoodle (MooVi) educational platform and participating in the educational activities through multiple videoconference (Remote Campus).

To be able to receive the teaching of effective way it si recommended , previously to the start of the subject, to consult the manual of access to the platform and to follow the technical specifications in order to assist to the remote sessions. It is indispensable that each student access to the educational platform of the subject previously to the beginning of the same. In general, for the practices will employ free software or free versions (demo) of commercial software for operating system Windows 7.

| Assessment | | | |
|---------------------|--|---------------|-------------------------------|
| | Description | Qualification | Training and Learning Results |
| Laboratory practice | Proofs for the evaluation that include activities, problems or practical exercises to resolve. The students have to give answer to the activity posed, applying the theoretical and practical knowledges of the sujet. The results of the learning are: Design and schedule a campaign of prospecting, as well as interpret the results expected. | 40 | B2 C7 D4 |

| | | | | | | |
|--------------|---|----|----|----|----|----------|
| Essay | The student presents the result obtained in the preparation of a document on the thematic of the matter, in the preparation of seminars, investigations, memories, essays, summaries of readings, conferences, etc. The results of the learning are: Design and schedule a campaign of prospecting, as well as interpret the results expected. | 20 | A2 | B2 | C7 | D4 D5 |
| Case studies | (*)Proba na que un alumno/a debe analizar un feito, problema ou suceso real coa finalidade de coñecelo, interpretalo, resolvelo, xerar hipóteses, contrastar datos, reflexionar, completar coñecementos, diagnosticalo e adestrarse en procedementos alternativos de solución. | 40 | A2 | B2 | C7 | D4 D5 |

Other comments on the Evaluation

According to the 2023 "Regulation on the evaluation, qualification and quality of teaching and the student learning process of the University of Vigo", there are two evaluation systems that students can choose: the preferred one, which will be applied by default, of **"continuous evaluation"** (diversified tests and activities that take place throughout the semester), and the so-called **"global evaluation"** (tests and/or delivery of work/exercises to be carried out on the official dates of evaluation established in the academic calendar), which must be expressly requested by the interested students, and communicated to the responsible teaching staff within a maximum period of 31 days from the beginning of each term.

The **"global evaluation"** tests for this subject will consist as follows: practical exercises (40%), essay (20%), case studies (40%).

Students have two evaluation calls/opportunities. The first is carried out during the teaching semester. The second (or 2nd opportunity) will take place in the month of July, for which access to the teaching platform will be enabled again.

Methodologies

| | Description |
|-------------------------|--|
| Introductory activities | Sessions orientadas to take contact and gather information on the alumnado and the suas motivacións, like this as to present the subject: the theoretical contents and available materials, the results of the learning and the criteria of evaluation. It will do through the virtual room of the platform And-meeting. |
| Lecturing | Sessions that the students maintain with the profesorado of the subject for the asesoramiento and/or development of the subject and of the process of learning. It will do through the virtual room of the platform And-meeting. |
| Problem solving | Activities in which formulate problems and/or exercises related with the subject that the student has to resolve of autonomous or individual way. |
| Seminars | Session that the estudiantes maintain with the profesorado of the subject to clear doubts related with the desenvolvemento of the subject, activities and process of learning. |
| Case studies | Analysis of a problem or real case, that accredit the knowledge and/or handle by part of the student of the theoretical concepts, tools of study and methodology for the analysis of a cultural landscape concrete, well the group of cultural goods, with end to know, revalorizar and protect these spaces and heritage. |

Personalized assistance**Methodologies Description**

| | |
|-----------------|--|
| Case studies | The attention personalizada will consist in attending and solve the doubts that can him arise to the/ace students/ace in relation with the elaboración of said study of case. ALL THE ALUMNADO: Course visual in the platform of teledocencia Modle (FaiTic, UVigo). |
| Problem solving | The attention personalizada will consist in attending and solve the doubts that can him arise to the/ace students/ace in relation with the elaboración of said problems and/or exercises. ALL THE ALUMNADO: Course visual in the platform of teledocencia Modle (FaiTic, UVigo). |

Tests Description

| | |
|-------|---|
| Essay | The attention personalizada will consist in attending and solve the doubts that can him arise to the/ace students/ace in relation with the elaboración of said works and projects. ALL THE ALUMNADO: Course visual in the platform of teledocencia Modle (FaiTic, UVigo). |
|-------|---|

Assessment

| | Description | Qualification | Training and Learning Results |
|------------------------|--|---------------|-------------------------------|
| Case studies | Present and go up the platform Faitic, in date signalled, a memory or report of the study of case done. It will value the theoretical frame, the contents and structure of the work, the methodology, documentation and bibliography employed, the presentation and critical analysis. | 40 | C1 C8 C12 |
| Essay | Present and go up to the platform Faitic, from the materials signalled and in date indicated, a brief essay or report of the work required for each subject. | 30 | A1 B1 |
| Systematic observation | Active participation of the students in the forums, debates and other activities related with the process of learning of the matter. | 30 | D6 D7 |

Other comments on the Evaluation

According to the 2023 "Regulation on the evaluation, qualification and quality of teaching and the student learning process of the University of Vigo", there are two evaluation systems that students can choose: the preferred one, which will be

applied by default, of "**continuous evaluation**" (diversified tests and activities that take place throughout the semester), and the so-called "**global evaluation**" (tests and/or delivery of work/exercises to be carried out on the official dates of evaluation established in the academic calendar), which must be expressly requested by the interested students, and communicated to the responsible teaching staff within a maximum period of 31 days from the beginning of each term.

The "**global evaluation**" tests for this subject will consist as follows: case study (60%) and essay (40%).

Students have two evaluation calls/opportunities. The first is carried out during the teaching semester. The second (or 2nd opportunity) will take place in the month of July, for which access to the teaching platform will be enabled again.

EXHIBITIONS MODELS. | The museums are permanent institutions that purchase, conserve, investigate communicate and exhibit collections of objects of diverse nature with the purposes of study, education and contemplation. The museum has changed until doing unrecognizable. The connection between art and life claimed by the historical avant-garde has occurred, but in shape of cultural industry and estetización commercial for the consumption. |

4. THE CONTEMPORARY MUSEUM: ARCHITECTUREOf the changes experienced by the contemporary museum from the And SHOW. inauguration of the Centre Geroges Pompidou, in the year 1977, will arise a hybrid space that does not lose of sight the show. This no only is present in the programming or in the complementary activities of infinity of institutions, but in his own architecture, which constitutes in a lot of cases his main catchword.

| Systematic observation | 0 | 1 | 1 |

*The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

Methodologies

| | Description |
|----------------------------|--|
| Introductory activities | Introductory sessions directed to take contact and gather information on the student, as well as to present the contents of the matter, available resources and proofs of evaluation. They will keep through videoconference or of the virtual room of the platform And-*meeting |
| Lecturing | Sessions for the exposition of the main theoretical contents of the subject by their teachers, with the help of audiovisual media, and in which the students will have the possibility of attending in the form of videoconference. |
| Case studies | Analysis of real cases between the proposed in the matter that the student will realise of autonomous form. It will keep the communication between teacher and student through videoconference or of the virtual room of the platform And-*meeting. |
| Autonomous problem solving | The students must develop autonomously the analysis and resolution of the problems or exercises. |
| Mentored work | Autonomous work of the student through the preparation of readings related to the subject. |
| Seminars | Sessions that the students/will be supported by the teacher of the matter for advice/develop of the activities to develop and of the process of learning. They will keep through videoconference or of the virtual room of the platform And-*meeting. |

Personalized assistance

| Methodologies | Description |
|---------------|--|
| Seminars | The personalised attention will consist in the resolution of doubts on the contents of the matter, the methodology used for the realisation of the exercises and review of the proofs of evaluation. The follow-up will realise through the classroom and-*meeting |
| Case studies | Personalised follow-up of the student through the *tutorías on-line, by means of the forums of the platform *Moodle, the virtual room of the platform And-*meeting and the email |
| Mentored work | Personal monitoring of students through online tutorials, through the forums of the Moodle platform, the virtual room of the E-meeting platform and email |

Assessment

| | Description | Qualification | Training and Learning Results |
|------------------------|---|---------------|-------------------------------|
| Case studies | Analysis of a project expositivo proposed by the professor or preparation of any small proof or questionnaire through telematic means. They will evaluate the following results of learning: the capacidade to analyse the elements and conditionings that take part in his design from the contidos entered in the theoretical sessions of the matter. | 30 | A4 B1 C8 D6 |
| Mentored work | Preparation of a project expositivo of thematic free. They will evaluate the following results of learning: the acquisition of the capacity to design exhibitions of content patrimonial, atendieno to the conceptual point of view of the creation of messages and to the material point of view of the espazos. It will value also the adecuación to the criteria of planning museística explained in the sesiones theoretical. | 40 | A4 B1 C8 D1 C14 D6 |
| Systematic observation | It will value the presencialidad and active participation of the students through the telematic means (and-meeting, forums). | 30 | A4 B1 C8 D1 |

Other comments on the Evaluation

According to the 2023 "Regulation on the evaluation, qualification and quality of teaching and the student learning process of the University of Vigo", there are two evaluation systems that students can choose: the preferred one, which will be applied by default, of **"continuous evaluation"** (diversified tests and activities that take place throughout the semester), and the so-called **"global evaluation"** (tests and/or delivery of work/exercises to be carried out on the official dates of evaluation established in the academic calendar), which must be expressly requested by the interested students, and communicated to the responsible teaching staff within a maximum period of 31 days from the beginning of each term.

The **"global evaluation"** tests for this subject will consist as follows: Case studies (40%) and Mentored work (60%).

Students have two evaluation calls/opportunities. The first is carried out during the teaching semester. The second (or 2nd opportunity) will take place in the month of July, for which access to the teaching platform will be enabled again.

Other comments

The teaching of the subject will be always of face-to-face telematic way, well was synchronous or asynchronous, using the eMoodle (MooVi) educational platform and participating in the educational activities through multiple videoconference (e-meeting, Remote Campus).

To be able to receive the teaching of effective way it is recommended, previously to the start of the subject, to consult the manual of access to the platform and to follow the technical specifications in order to assist to the remote sessions. It is indispensable that each student access to the educational platform of the subject previously to the beginning of the same.

Training and Learning Results

| | |
|------|---|
| Code | |
| A1 | Possess and understand knowledge that provides a basis or opportunity to be original in the development and / or application of ideas, often in a research context. |
| A2 | That students know how to apply the knowledge acquired and their ability to solve problems in new or unfamiliar environments within broader (or multidisciplinary) contexts related to their area of study. |
| A3 | That students are able to integrate knowledge and face the complexity of making judgments based on information that, being incomplete or limited, includes reflections on social and ethical responsibilities linked to the application of their knowledge and judgments. |
| A4 | That the students know how to communicate their conclusions -and the knowledge and ultimate reasons that sustain them- to specialized and non-specialized audiences in a clear and unambiguous way. |
| A5 | That students have the learning skills that allow them to continue studying in a way that will be largely self-directed or autonomous. |
| B3 | Acquire the ability to bring to the practical application of the protection of cultural property the theoretical knowledge and the protocols of documentation, diagnosis and evaluation. |
| C1 | Be able to select the study tools and documentation necessary to know the cultural good, even establishing standardized work methodologies. |
| C2 | Acquire the ability to design intervention protocols, establishing types, priorities and intensities of action before a cultural property at risk of alteration. |
| C3 | Acquire the ability to draft intervention projects in the Cultural Heritage in accordance with specific regulatory legislation. |
| C4 | Acquire the capacity to catalog the real cultural heritage, being able to establish mechanisms of legal and preventive protection. |
| C5 | Master and be able to apply instruments and procedures of various cartographic techniques to the real cultural heritage for its dimensional control and the elaboration of graphic documentation using CAD tools. |
| C6 | Analyze, refine and interpret geographic information, as well as its storage in databases, based on technical requirements for the inventory and documentation of an intervention project. |
| C7 | Know the basics of the most used non-destructive techniques for the sub-surface prospecting of the cultural heritage and develop the ability to determine its applicability to specific cases. |
| C8 | Understand the multifactorial values of Cultural Heritage, and assess it appropriately according to criteria of social use. |
| C9 | Acquire the ability to diagnose, on the basis of scientific knowledge, the state of structural conservation of the Cultural Heritage. |
| C10 | Understand the fundamentals of structural stability and the analysis procedures necessary to guarantee the structural safety of heritage constructions. |
| C11 | Acquire the ability to handle documentary tools and historiographic techniques for the characterization of heritage assets. |
| C12 | Develop the capacity for the application of territorial analysis methodologies of the Heritage according to valuation and protection objectives. |
| C13 | Develop the capacity for making decisions about the function assigned to the Heritage, its value and public use, and for the elaboration of strategies aimed at its recovery. |
| C14 | Acquire the capacity for dissemination and dissemination of scientific knowledge and the creation of messages for the purpose of social awareness about the Heritage. |
| C15 | Know and apply the procedures and mechanisms for the valuation and protection of the architectural Heritage in its territorial and administrative context. |

| | |
|----|--|
| D1 | Ability to understand the meaning and application of the gender perspective in the different fields of knowledge and professional practice with the aim of achieving a more just and egalitarian society. |
| D2 | Ability to communicate orally and in writing in the Galician language. |
| D3 | Sustainability and environmental commitment. Equitable, responsible and efficient use of resources. |
| D4 | To be able to integrate the diverse information and data contributed by diverse technicians and tools in the writing of conclusions of action. |
| D5 | Be able to predict and control the evolution of complex situations through the development of new and innovative work methodologies adapted to the specific scientific / research, technological or professional field, in general multidisciplinary, in which their activity is developed. |
| D6 | Know how to transmit in a clear and unambiguous way to a specialized audience or not, results from scientific and technological research or the most advanced field of innovation, as well as the most relevant foundations on which they are based |
| D7 | Conceive the protection of cultural heritage within a framework of sustainable development. |
| D8 | Acquire advanced knowledge and demonstrate, in a context of scientific and technological research or highly specialized, a detailed and substantiated understanding of the theoretical and practical aspects and the methodology of work in one or more fields of study. |
| D9 | Know and manage the legislation applicable to the sector, know the social and business environment and know how to relate to the competent administration by integrating this knowledge into the development of engineering projects and the development of any aspect of their professional work. |

Throughout the course detailed documentation on the development of the subject will be delivered. This information will be offered through the Moodle courses of the MooVi platform, so all the students must be registered in the platform and have their profile data covered.

The bibliography necessary for the preparation and execution of the tasks and work of each of the external practices, will be prepared and delivered by the people who tutor them together with the specific training project of the internship.

|---------------|-------------|

Project based learning The tutorial will consist of supervising and orienting the student in the thematic, methodology, elaboration, presentation and any other academic aspect related to the work of master's degree; As well as facilitate its management, streamline and facilitate the entire process until the presentation and defense thereof. Establishment by the tutor of the methodological bases accommodated according to the nature of the TFM chosen by the students.

Assessment

| Description | Qualification | Training and Learning Results | | | |
|---|---------------|-------------------------------|----|----|----|
| PresentationEvaluation of the memory of the final work of the Master. Writing, structure, format, objectives, methodologies, analysis of results and conclusions. (80%) | 100 | A1 | B4 | C1 | D1 |
| | | A2 | | C2 | D2 |
| Evaluation of the exhibition and defense of the final master's work. Clarity in the exposition, correct use of the language, structure of the exhibition, capacity of synthesis, answers to the questions formulated by the court. (twenty%) | | A3 | | C3 | D3 |
| | | A4 | | C4 | D4 |
| Learning Outcomes: The Master's Degree Work will allow the integrated application and development of the training contents and the competences associated with the master, through the realization and defense of each student of a supervised work. | | A5 | | C5 | D5 |
| | | | | C6 | D6 |
| | | | | C8 | |

Other comments on the Evaluation

The final master's work can only be defended and evaluated when it is known that the student has passed all the credits necessary to obtain the master's degree, except those corresponding to the final master's work.

The act of reading and defending the TFM will be public before the court appointed for this purpose, carried out through an online session via videoconference (e-meeting or Remote Campus)

Other comments on the Evaluation

According to the 2023 "Regulation on the evaluation, qualification and quality of teaching and the student learning process of the University of Vigo", there are two evaluation systems that students can choose: the preferred one, which will be applied by default, of "**continuous evaluation**" (diversified tests and activities that take place throughout the semester), and the so-called "**global evaluation**" (tests and/or delivery of work/exercises to be carried out on the official dates of evaluation established in the academic calendar), which must be expressly requested by the interested students, and communicated to the responsible teaching staff within a maximum period of 31 days from the beginning of each term.

The "**global evaluation**" tests for this subject will consist as follows: objective questions test (40%); delivery of an mandatory essay (40%); problem and/or exercise solving (20%)

Students have two evaluation calls/opportunities. The first is carried out during the teaching semester. The second (or 2nd opportunity) will take place in the month of July, for which access to the teaching platform will be enabled again.

If student approves in the first announcement, there will be no possible to improve note in the second.

Other comments on the Evaluation

According to the 2023 "Regulation on the evaluation, qualification and quality of teaching and the student learning process of the University of Vigo", there are two evaluation systems that students can choose: the preferred one, which will be applied by default, of "**continuous evaluation**" (diversified tests and activities that take place throughout the semester), and the so-called "**global evaluation**" (tests and/or delivery of work/exercises to be carried out on the official dates of evaluation established in the academic calendar), which must be expressly requested by the interested students, and communicated to the responsible teaching staff within a maximum period of 31 days from the beginning of each term.

The "**global evaluation**" tests for this subject will consist as follows: An essay of valuation of an heritage building (40%). An oral defense of the essay by the student (20%). An oral exam of short questions on the contents of the subject and the essay (40%).

Students have two evaluation calls/opportunities. The first is carried out during the teaching semester. The second (or 2nd opportunity) will take place in the month of July, for which access to the teaching platform will be enabled again.

Other comments

The teaching of the subject will be always of face-to-face telematic way, well was synchronous or asynchronous, using the eMoodle (MooVi) educational platform and participating in the educational activities through multiple videoconference (e-meeting, Remote Campus).

To be able to receive the teaching of effective way it si recommended , previously to the start of the subject, to consult the manual of access to the platform and to follow the technical specifications in order to assist to the remote sessions. It is indispensable that each student access to the educational platform of the subject previously to the beginning of the same. In general, for the practices will employ free software or free versions (demo) of commercial software for operating system Windows 7.

| General description | This subject aims to train the student to know different techniques of non-destructive evaluation (NDT) of the built cultural heritage. It is intended that the student, through the use of different NDT techniques, be able to interpret pathologies or structural aspects at a superficial and internal level that help to preserve the immovable cultural heritage. English Friendly subject: International students may request from the teachers: a) resources and bibliographic references in English, b) tutoring sessions in English, c) exams and assessments in English. | | | |

Training and Learning Results

| | | | | |
|------|---|--|--|--|
| Code | | | | |
| A2 | That students know how to apply the knowledge acquired and their ability to solve problems in new or unfamiliar environments within broader (or multidisciplinary) contexts related to their area of study. | | | |
| B2 | Acquire the necessary knowledge to handle the different tools of graphic, dimensional and geospatial documentation to be applied in the documentation and valuation of Cultural Heritage. | | | |
| B3 | Acquire the ability to bring to the practical application of the protection of cultural property the theoretical knowledge and the protocols of documentation, diagnosis and evaluation. | | | |
| C2 | Acquire the ability to design intervention protocols, establishing types, priorities and intensities of action before a cultural property at risk of alteration. | | | |
| C7 | Know the basics of the most used non-destructive techniques for the sub-surface prospecting of the cultural heritage and develop the ability to determine its applicability to specific cases. | | | |
| D4 | To be able to integrate the diverse information and data contributed by diverse technicians and tools in the writing of conclusions of action. | | | |
| D5 | Be able to predict and control the evolution of complex situations through the development of new and innovative work methodologies adapted to the specific scientific / research, technological or professional field, in general multidisciplinary, in which their activity is developed. | | | |

Expected results from this subject

| Expected results from this subject | Training and Learning Results | | | |
|---|-------------------------------|----------|----------|----------|
| Know different methods of non-destructive evaluation, the applicability of each one as well as its advantages and disadvantages | A2 | B2 B3 | C2 C7 | D4 D5 |
| Know how to interpret results obtained from different END techniques and the combination of those results for a more complete analysis of the structure | A2 | B2 B3 | C2 C7 | D4 D5 |

Contents

| Topic | |
|--|---|
| Introduction to non-destructive techniques and application in the evaluation of the immovable cultural heritage. | The non-destructive techniques for evaluation of heritage elements. Application examples |
| Applicability of photogrammetry and laser scanner for surface evaluation. | Processing of orthophotos in the laboratory. Interpretation of results. |

| | |
|---|---|
| Applicability of thermography for subsurface inspection. | Processing of thermographic images in the laboratory. |
| | Interpretation of results |
| Applicability of the georadar for internal inspection. | Processing of 2D and 3D radargrams in the laboratory. |
| | Interpretation of results. |
| Integration of non-destructive techniques for the study of the built cultural heritage. | Design and planning of an integration project. |

*The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

| Methodologies | |
|-------------------------|--|
| | Description |
| Introductory activities | Activities directed to take contact and gather information on the students, as well as to present the module. They will present the module outline form of the matter, aims, calendar, criteria of evaluation, as well as forums of debate and news and other surroundings in which it will manage the learning. |
| Seminars | Activities focused to the work on each one of the technologies that present in the matter, so that the students can understand the theoretical principles of each technician to the time that take contact with the tools software that will allow them put in technical said practice during a process of documentation. These seminars will realise by means of videoconference and tutorial videosl, on the studies of case of employment of each technician. |
| Case studies | Analysis of a problem or real case, with the purpose to know it, interpret it, resolve it, generate hypothesis, diagnose it and get introduced to alternative procedures of solution, to see the application of the theoretical concepts in the reality. They will employ as I complement of the theoretical classes for the autolearning. |
| Lecturing | Presentation of theoretical and practical contents through the virtual platform. Activities of application of knowledge to specific situations and acquisition of basic and procedural skills related to the subject. |

| Personalized assistance | |
|-------------------------|--|
| Methodologies | Description |
| Case studies | Resolution of doubts and personalised attention of the work performed by the students. Resources used: platform for virtual teaching Moodle, and videoconference (Remote Campus) |
| Lecturing | Resolution of doubts and personalized attention. Resources used: platform for virtual teaching Moodle, and videoconference (Remote Campus) |

| Assessment | | | | |
|----------------------|--|---------------|-------------------------------|-------------------|
| | Description | Qualification | Training and Learning Results | |
| Case studies | Activities in the didactic unit 2 to develop case studies in which a situation already existent, or that can occur, is given, starting from the different factors involved, the analysis of the antecedents, conditions of the situation, etc. The learning outcomes are the student's training for documentation through non-destructive techniques of heritage assets. It is intended that the student is able to document the physical and formal characteristics and the state of conservation of the real cultural heritage and its immediate surroundings. | 20 | A2 | B2 C2 D4 B3 C7 D5 |
| Essay questions exam | Essay test in the didactic unit 5 in which students have to demonstrate their understanding of the most theoretical-practical concepts of the subject. | 20 | A2 | B2 C2 D4 B3 C7 D5 |

| | | | |
|--------------|--|----|-------------------------|
| Case studies | Activities in the didactic unit 3 to develop case studies in which a situation already existent, or that can occur, is given, starting from the different factors involved, the analysis of the antecedents, conditions of the situation, etc. The learning outcomes are the student's training for documentation through non-destructive techniques of heritage assets. It is intended that the student is able to document the physical and formal characteristics and the state of conservation of the real cultural heritage and its immediate surroundings. | 20 | A2 B2 C2 D4 B3 C7 D5 |
| Case studies | Activities in the didactic unit 4 to develop case studies in which a situation already existent, or that can occur, is given, starting from the different factors involved, the analysis of the antecedents, conditions of the situation, etc. The learning outcomes are the student's training for documentation through non-destructive techniques of heritage assets. It is intended that the student is able to document the physical and formal characteristics and the state of conservation of the real cultural heritage and its immediate surroundings. | 20 | A2 B2 C2 D4 B3 C7 D5 |
| Essay | Review of a scientific article in which they integrate different non destructive techniques for the evaluation of the Cultural Heritage Real estate. Delivery of the report of review. | 20 | A2 B2 C2 D4 B3 C7 D5 |

Other comments on the Evaluation

According to the 2023 "Regulation on the evaluation, qualification and quality of teaching and the student learning process of the University of Vigo", there are two evaluation systems that students can choose: the preferred one, which will be applied by default, of **"continuous evaluation"** (diversified tests and activities that take place throughout the semester), and the so-called **"global evaluation"** (tests and/or delivery of work/exercises to be carried out on the official dates of evaluation established in the academic calendar), which must be expressly requested by the interested students, and communicated to the responsible teaching staff within a maximum period of 31 days from the beginning of each term.

The **"global evaluation"** tests for this subject will consist as follows: essay questions exam (20%), case studies corresponding to the didactic units 2, 3 and 4 (60%, (20% each one)) and essay (20%).

Students have two evaluation calls/opportunities. The first is carried out during the teaching semester. The second (or 2nd opportunity) will take place in the month of July, for which access to the teaching platform will be enabled again.
